Joint Publications Research Service,1966 Shanghai Mundane Lei Ping,2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People s Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the raison d tre of the Chinese Communist Party in the twenty first century Post-Western Sociology - From China to Europe Laurence Roulleau-Berger,Li Peilin,2018-05-15 This book is rooted in an epistemological approach to sociology in which the boundaries between Western and non Western sociologies are acknowledged and built on

It argues that knowledge is organised in conceptual spaces linked to paradigms and programmes which in turn are linked to ethnocentred knowledge processes that until recently Western approaches including Post Colonial French Social Science and American approaches have dominated non Western theories and that Western theories have sometimes seemed incapable of explaining phenomena produced in other societies It goes on to argue that the blurring of boundaries between Western and non Western sociologies is very important and that such a Post Western approach will mean co production and co construction of common knowledge the recognition of ignored or forgotten scientific cultures and a global change in sociology which imposes theoretical and methodological detours displacements reversals and conversions The book brings together a wide range of Western and Chinese sociologists who explore the consequences of this new approach in relation to many different issues and aspects of sociology
