Krüger, 2018-12-01 Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for understanding them tendentionally i e taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications

from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms *pars pro toto totum pro parte* and *pars pro parte* that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homoversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such *Signposts to Silence* aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this

Studies in Islamic Mysticism Reynold A. Nicholson, 1921 Professor Nicholson examines the life work and teaching of three of the most important of the early S f s These great mystics were almost legendary figures whose tombs became holy shrines S fism as Professor Nicholson suggests lies at the heart both of the religious philosophy and the popular religion of Islam

Rūmī and the Hermeneutics of Eroticism Mahdi Tourage, 2007 Drawing on relevant postmodern theories and exploring the link between the dynamics of eroticism and esotericism this book establishes the esoteric significance of the bawdy tales in R m s d 1273 Mathnaw a masterpiece of medieval Perso Islamic mystical literature

The Life and Work of Jalal-Ud-Din Rumi Afzal Iqbal, 2014-10-01 Rumi is perhaps the only example in world literature of a devoted prose writer who suddenly burst forth into poetry during middle age to become a truly great mystical poet for all time This book a long overdue reckoning of his life and work begins with a description and examination of the living conditions in 13th century Persia Building on this context the author proceeds to fully analyze the formative period of Rumi s life leading up to 1261 when he began the monumental work of writing the Mathnawi Toward the end of the book the author investigates Rumi s thought and includes translations of those portions of the Mathnawi that have been hitherto unavailable in English Combining an unparalleled familiarity with the source material a total and critical understanding of the subject and a powerful and readable prose style this is an extraordinary study of a truly remarkable poet and mystic
