*Particular accidents* George Harry Bowering, **PhotoGraphic Encounters** William F. Garrett-Petts, Donald Lawrence, Kamloops Art Gallery, 2000-10 Literacy is broadly understood to refer to the ability to read and write But the term is heavily value laden and is often used to elevate print at the expense of other forms of communication In *PhotoGraphic Encounters* the authors challenge this reductive notion of literacy and propose instead an integrated span of literacies reaching across disciplinary boundaries to discover a text that draws upon both the visual and the verbal *PhotoGraphic Encounters* discusses Canadian writers like Margaret Atwood George Bowering Robert Kroetsch and Daphne Marlatt and Canadian artists like Fred Douglas Ernie Kroeger Brenda Pelkey and Michael Snow then looks at the cross fertilization of visual and verbal processes in their works The authors present a new narrative practice one that fully engages lived experience The vernacular they argue is vital to our participation as readers and viewers of high art Making the connection between the vernacular and high culture creates an enabling moment in artistic production and reception and in teaching learning and talking about art and literature *PhotoGraphic Encounters* offers a compelling perspective on questions of literacy in a postmodern culture Artists writers scholars and critics alike will want this volume in their libraries Includes more than 120 B W photographs 20 colour plates index bibliography **Selected Poems of William Wordsworth** William Wordsworth, 1958 In a full critical and biographical introduction Roger Sharrock puts Wordsworth's literary reputation into true perspective and dispels much humbug about his life while the notes provide detailed comment on the poems This edition at last provides a Wo We Are What We Mourn Priscila Uppal, 2009 The first book on the Canadian poetic elegy challenges all previous ideas about the purpose of mourning *Selected Poems* Arthur Rex Dugard Fairburn, 1995 *The Canadian Encyclopedia* James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place

whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
