Selecting By Origin Ethnic Migration In The Liberal State:

Selecting by Origin Christian Joppke, 2005-02-28 In a world of mutually exclusive nation states international migration constitutes a fundamental anomaly No wonder that such states have been inclined to select migrants according to their origins The result is ethnic migration But Christian Joppke shows that after World War II there has been a trend away from ethnic selectivity and toward non discriminatory immigration policies across Western states Indeed he depicts the modern state in the crossfire of particularistic and universalistic principles and commitments with universalism gradually winning the upper hand Thus the policies that regulate the boundaries of states can no longer invoke the particularisms that constitute these boundaries and the collectivities residing within them Joppke presents detailed case studies of the United States Australia Western Europe and Israel His book will be of interest to a broad audience of sociologists political scientists historians legal scholars and area specialists

Migration in Political Theory Sarah Fine, Lea Ypi, 2016-01-29 Written by an international team of leading political and legal theory scholars whose writings have contributed to shaping the field *Migration in Political Theory* presents seminal new work on the ethics of movement and membership The volume addresses challenging and under researched themes on the subject of migration It debates the question of whether we ought to recognize a human right to immigrate and whether it might be legitimate to restrict emigration The authors critically examine criteria for selecting would be migrants and for acquiring citizenship They discuss tensions between the claims of immigrants and existing residents and tackle questions of migrant worker exploitation and responsibility for refugees The book illustrates the importance of drawing on the tools of political theory to clarify criticize and challenge the current terms of the migration debate

The Oxford Handbook of Ethnicity, Crime, and Immigration Sandra M. Bucerius, Michael H. Tonry, 2014 This title provides comprehensive analyses of current knowledge about the unwarranted disparities in dealings with the criminal justice system faced by some disadvantaged minority groups in all developed countries

Becoming Multicultural Triadafilos Triadafilopoulos, 2012-06-01 During the first half of the twentieth century Canada and Germany s responses to questions of national membership consisted of discriminatory policies aimed at harnessing migration for economic ends Yet by the end of the century both countries were transformed into highly diverse multicultural societies How did this remarkable shift come about Triadafilopoulos argues that after the war global human rights norms intersected with domestic political identities and institutions opening the way for the liberalization of Canada and Germany s immigration and citizenship policies His is a thought provoking analysis that sheds light on the dynamics of membership politics and policy making in contemporary liberal democratic countries

Citizenship, Borders, and Human Needs Rogers M. Smith, 2011-01-19 From anxiety about Muslim immigrants in Western Europe to concerns about undocumented workers and cross border security threats in the United States disputes over immigration have proliferated and intensified in recent years These debates are among the most contentious facing constitutional democracies and they show little sign of fading away

Edited and with an introduction by political scientist Rogers M Smith *Citizenship Borders and Human Needs* brings together essays by leading international scholars from a wide range of disciplines to explore the economic cultural political and normative aspects of comparative immigration policies In the first section contributors go beyond familiar explanations of immigration s economic effects to explore whose needs are truly helped and harmed by current migration patterns The concerns of receiving countries include but are not limited to their economic interests and several essays weigh different models of managing cultural identity and conflict in democracies with large immigrant populations Other essays consider the implications of immigration for politics and citizenship In many nations large scale immigration challenges existing political institutions which must struggle to foster political inclusion and accommodate changing ways of belonging to the polity The volume concludes with contrasting reflections on the normative standards that should guide immigration policies in modern constitutional democracies *Citizenship Borders and Human Needs* develops connections between thoughtful scholarship and public policy thereby advancing public debate on these complex and divisive issues Though most attention in the collection is devoted to the dilemmas facing immigrant receiving countries in the West the volume also explores policies and outcomes in immigrant sending countries as well as the situation of developing nations such as India that are net receivers of migrants

Blood and Culture Cynthia Miller-Idriss,2009-08-28 Ethnographic study that examines how patterns of national identity are constructed and transformed across the generations of working class youth in Germany and how generational gaps in national understanding inadvertently increase the appeal to neo Nazism Neoliberal Nationalism Christian

Joppke,2021-01-07 Shows how liberal neoliberal and nationalist ideas have combined to impact Western states immigration and citizenship policies **The Politics of Citizenship in Europe** Marc Morjé Howard,2009-09-07 In this book Howard

addresses immigrant integration one of the most critical challenges facing European countries the resolution of which will in large part depend on how foreigners can become citizens Howard s research shows that despite remarkable convergence in their economic judicial and social policies the countries of the European Union still maintain very different definitions of citizenship Based on an innovative measure of national citizenship policies the book accounts for both historical variation and contemporary change Howard s historical explanation highlights the legacies of colonialism and early democratization which unintentionally created relatively inclusive citizenship regimes Howard s argument focuses on the politics of citizenship showing in particular how anti immigrant public opinion when activated politically usually by far right movements or public referenda can block the liberalizing tendencies of political elites Overall the book shows the far reaching implications of this growing and volatile issue The Oxford Handbook of Citizenship Ayelet Shachar,Rainer Bauboeck,Irene

Bloemraad,Maarten Vink,2017-08-03 Contrary to predictions that it would become increasingly redundant in a globalizing world citizenship is back with a vengeance *The Oxford Handbook of Citizenship* brings together leading experts in law philosophy political science economics sociology and geography to provide a multidisciplinary comparative discussion of

different dimensions of citizenship as legal status and political membership as rights and obligations as identity and belonging as civic virtues and practices of engagement and as a discourse of political and social equality or responsibility for a common good The contributors engage with some of the oldest normative and substantive quandaries in the literature dilemmas that have renewed salience in today s political climate As well as setting an agenda for future theoretical and empirical explorations this Handbook explores the state of citizenship today in an accessible and engaging manner that will appeal to a wide academic and non academic audience Chapters highlight variations in citizenship regimes practiced in different countries from immigrant states to non western contexts from settler societies to newly independent states attentive to both migrants and those who never cross an international border Topics include the selling of citizenship multilevel citizenship in between statuses citizenship laws post colonial citizenship the impact of technological change on citizenship and other cutting edge issues This Handbook is the major reference work for those engaged with citizenship from a legal political and cultural perspective Written by the most knowledgeable senior and emerging scholars in their fields this comprehensive volume offers state of the art analyses of the main challenges and prospects of citizenship in today s world of increased migration and globalization Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism

Ethnic Boundary Making Andreas Wimmer,2013-02-07 Introducing a new comparative theory of ethnicity Andreas Wimmer shows why ethnicity matters in certain societies and contexts but not in others and why it is sometimes associated with inequality and exclusion with political and public debate with closely held identities while in other cases ethnicity does not structure the allocation of resources invites little political passion and represent secondary aspects of individual identity

Human Geopolitics Alan Gamlen,2019-05-02 Human geopolitics the competition for population rather than territory is an essential but weakly understood dimension of world politics today Such competition has preceded violent conflict throughout history but has been muted since the Treaties of Westphalia laid the territorial foundations of the modern international system in the mid seventeenth century Today however human geopolitics is being resurrected in unanticipated ways as governments are enabled and encouraged to engage their emigrant diasporas How and why is this happening Until now these questions have been difficult to answer The majority of research attention has focused on questions of immigration policy in a handful of wealthy migrant destination countries largely ignoring the emigration policies that preoccupy the worlds many migrant origin states This book addresses that research imbalance by focusing on the overlooked sending side of migration policy Drawing on data covering all UN members across the post WWII period and fieldwork with high level policy makers across 60 states and a dozen international organisations the book charts the re emergence of human geopolitics through the global spread of diaspora institutions government ministries and offices dedicated to emigrants and their descendants It calls for the development of stronger guiding principles and evaluation frameworks to govern these new state diaspora relations in an

era of unprecedented global interdependence Political Conflict in Western Europe Hanspeter Kriesi,2012-07-26 Analyzes the effects of globalization on the restructuring of politics in Western Europe over the past three decades **The Color of Asylum** Katherine Jensen,2023-09-05 An ethnography of the difficult experiences of refugees in Brazil In 2013 as Syrians desperate to escape a brutal war fled the country Brazil took the remarkable step of instituting an open door policy for all Syrian refugees Why did Brazil in contrast to much of the international community offer asylum to any Syrian who would come And how do Syrians differ from other refugee populations seeking status in Brazil In *The Color of Asylum* Katherine Jensen offers an ethnographic look at the process of asylum seeking in Brazil uncovering the different ways asylum seekers are treated and the racial logic behind their treatment She focuses on two of the largest and most successful groups of asylum seekers Syrian and Congolese refugees While the groups obtain asylum status in Brazil at roughly equivalent rates their journey to that status could not be more different with Congolese refugees enduring significantly greater difficulties at each stage from arrival through to their treatment by Brazilian officials As Jensen shows Syrians meanwhile receive better treatment because the Brazilian state recognizes them as white in a nation that has historically privileged white immigration Ultimately however Jensen reaches an unexpected conclusion Regardless of their country of origin even migrants who do secure asylum status find their lives remain extremely difficult marked by struggle and discrimination Crossroads Anna K. Boucher,Justin Gest,2018-05-03 In this ambitious study Anna K Boucher and Justin Gest present a unique analysis of immigration governance across thirty countries Relying on a database of immigration demographics in the world s most important destinations they present a novel taxonomy and an analysis of what drives different approaches to immigration policy over space and time In an era defined by inequality populism and fears of international terrorism they find that governments are converging toward a Market Model that seeks immigrants for short term labor with fewer outlets to citizenship an approach that resembles the increasingly contingent nature of labor markets worldwide *Citizenship* Peter Kivisto,Thomas Faist,2015-08-12 A significant addition to the growing body of literature on citizenship this wide ranging overview focuses on the importance and changing nature of citizenship It introduces the varied discourses and theories that have arisen in recent years and looks toward future scholarship in the field Offers an analytical assessment of the various thematic discourses and provides guidance in pulling together those discrete themes into a larger more comprehensive framework Identifies the four broadly conceived themes that shape the many discourses on contemporary citizenship inclusion erosion withdrawal and expansion Includes a thorough introduction to the subject **Ethnicity without Groups** Rogers Brubaker,2006-09-01 Despite a quarter century of constructivist theorizing in the social sciences and humanities ethnic groups continue to be conceived as entities and cast as actors In this timely and provocative volume Brubaker challenges this pervasive and commonsense groupism and shows that ethnicity race and nation are not things in the world but perspectives on the world ways of seeing interpreting and representing the social world *Regimes of Ethnicity and*

Nationhood in Germany, Russia, and Turkey Şener Aktürk, 2012-11-19 This is a book about what it meant to be German Soviet Russian and Turkish in the twentieth century and how that definition changed at the turn of the twenty first century It tells the story of how ethnic groups discriminated against by the state in Germany the Soviet Union present day Russia and Turkey channeled their demands for reform into politics and how and why they finally succeeded in changing state policies on ethnic diversity at the turn of the twenty first century

The Ethics of Immigration Joseph Carens, 2013 Eminent political theorist Joseph Carens tests the limits of democratic theory in the realm of immigration arguing that any acceptable immigration policy must be based on moral principles even if it conflicts with the will of the majority

Veil Christian Joppke, 2013-05-03 The Islamic headscarf has become the subject of heated legal and political debate France and Germany have legislated against it and even the UK long a champion of multiculturalism has recently restricted the veil proper Ever since home grown Islamic terrorism struck Europe these debates have become even more prominent impassioned and wide ranging with vital global importance In this concise and beautifully written introduction to the politics of the veil in modern societies Christian Joppke examines why a piece of clothing could have led to such controversy He dissects the multiple meanings of the Islamic headscarf and explores its links with the global rise of Islam Muslim integration and the retreat from multiculturalism He argues that the headscarf functions as a mirror of identity but one in which national and liberal identities overlap exposing the paradox that while it may be an affront to liberal values its suppression is equally illiberal *Veil Mirror of Identity* will illuminate challenge and provoke readers and will make compelling reading for scholars students and general readers alike
