Self-Crowned Laureates Spenser Jonson Milton And The Literary System:

Self-crowned Laureates Richard Helgerson, 1983 **The Countesse of Pembrokes Arcadia and the Invention of English Literature** J. Davis, 2011-11-07 Revises the semiotic paradigm of the early modern literary system dominant since 1983 by adapting methods entailed in the idea that literary works emerge through a series of semiotic events Davis analyzes Philip Sidney's *Arcadia* and *Astrophil and Stella* to demonstrate how design elements stage the scene of reading these works

John Milton's Aristocratic Entertainments Cedric C. Brown, 1985-09-05 This book is a comprehensive account of Milton's two aristocratic entertainments *Arcades* and *Comus* in the context of their original occasions and in the light of Milton's developing sense of vocation as a poet in the earlier part of his career The book is especially original in the amount of socio-historical information it offers about the relationship between the independent and pastorally poet and his aristocratic patrons and about the degree to which Milton was prepared to work within the constraints and decorum of the Caroline masque and country house entertainment A particular feature of the book is the analysis of changes in the texts of the two entertainments from the earliest version in the Trinity College manuscript through to the first printings considering Milton's changing manner of address to the different occasions of performance and publication A degree of tension is discovered between the poet and the organisers of the Ludlow masque and an explanation is given for a kind of censorship in the Bridgewater manuscript of *Comus* , **The Allegory of Female Authority** Maureen Quilligan, 2018-08-06 The first professional female writer Christine de Pizan 1363-1431 was widowed at age twenty-five and supported herself and her family by enlisting powerful patrons for her poetry Her *Livre de la Cit des Dames* 1405 is the earliest European work on women's history by a woman An allegorical poem that revises masculine traditions it asserts and defends the authority of women in general and of its author in particular In this generously illustrated book Maureen Quilligan provides a persuasive and penetrating interpretation of the *Cit* **Etymology and the Invention of English in Early Modern Literature** Hannah

Crawforth, 2013-11-07 Crawforth presents a major re-reading of early modern poetry demonstrating its debt to the emergence of linguistics in the period **Alexander Pope in the Making** Joseph Hone, 2021-01-28 How did Alexander Pope become the greatest poet of the eighteenth century Modern scholarship has typically taken Pope's rise to greatness and subsequent remoteness from lesser authors for granted As a major poet he is treated as the successor of Milton and Dryden or the precursor of Wordsworth Drawing on previously neglected texts and overlooked archival materials Alexander Pope in the Making immerses the poet in his milieu providing a substantial new account of Pope's early career from the earliest traces of manuscript circulation to the publication of his collected Works and beyond In this book Joseph Hone illuminates classic poems such as *An Essay on Criticism* *The Rape of the Lock* and *Windsor Forest* by setting them alongside lesser known texts by Pope and his contemporaries many of which have never received sustained critical attention before Pope's earliest experiments in satire panegyric lyric pastoral and epic are all explored alongside his translations publication

strategies and neglected editorial projects By recovering values shared by Pope and the politically heterodox men and women whose works he read and with whom he collaborated this book constructs powerful new interpretive frameworks for some of the eighteenth century's most celebrated poems Alexander Pope in the Making mounts a comprehensive challenge to the Scriblerian paradigm that has dominated scholarship for the past eighty years It sheds fresh light on Pope's early career and reshapes our understanding of the ideological landscape of his era This book will be essential reading for scholars and students of eighteenth century literature history and politics

Concepts of Creativity in Seventeenth-century England Rebecca Herissone, Alan Howard, 2013 The first genuinely interdisciplinary study of creativity in early modern England In the seventeenth century the concept of creativity was far removed from most of the fundamental ideas about the creative act notions of human imagination inspiration originality and genius that developed in the eighteenth and nineteenth centuries Instead in this period students learned their crafts by copying and imitating past masters and did not consciously seek to break away from tradition Most new material was made on the instructions of a patron and had to conform to external expectations and basic tenets that we tend to take for granted such as the primacy and individuality of the author were apparently considered irrelevant in some contexts The aim of this interdisciplinary collection of essays is to explore what it meant to create buildings and works of art music and literature in seventeenth century England and to investigate the processes by which such creations came into existence Through a series of specific case studies the book highlights a wide range of ideas beliefs and approaches to creativity that existed in seventeenth century England and places them in the context of the prevailing intellectual social and cultural trends of the period In so doing it draws into focus the profound changes that were emerging in the understanding of human creativity in early modern society transformations that would eventually lead to the development of a more recognisably modern conception of the notion of creativity The contributors work in and across the fields of literary studies history musicology history of art and history of architecture and their work collectively explores many of the most fundamental questions about creativity posed by the early modern English creative arts REBECCA HERISSONE is Head of Music and Senior Lecturer in Musicology at the University of Manchester ALAN HOWARD is Lecturer in Music at the University of East Anglia and Reviews Editor for Eighteenth Century Music Contributors Linda Phyllis Austern Stephanie Carter John Cunningham Marina Daiman Kirsten Gibson Raphael Hallett Rebecca Herissone Anne Hultzsich Freyja Cox Jensen Stephen Rose Andrew R Walkling Amanda Eubanks Winkler James A Winn

The Faerie Queene (Routledge Revivals) Humphrey Tonkin, 2014-08-01 Edmund Spenser's *The Faerie Queene* is among the most important literary products of the Elizabethan age and the vast sweep of its moral political and social concerns tells us more about the age than any other work. This volume first published in 1989 offers detailed readings of each of the poem's seven books along with introductory chapters on Spenser's career and the roots of the poem in the English and continental traditions. Humphrey Tonkin pays particular attention to the work's political and cultural role and its contribution to the development of Elizabethan ideology. A comprehensive analysis, this reissue will be of particular value to literature students and academics alike.

Cavendish and Shakespeare Katherine Romack, James Fitzmaurice, 2006 *Cavendish and Shakespeare: Interconnections* explores the relationship between the plays of Shakespeare and the writings of Margaret Cavendish, 1623-1673. The essays contained in this volume fit together as studies of various sorts of influence, both literary and historical, setting Cavendish's appropriation of Shakespearean characters and plot structures within the context of the English Civil Wars and the Fronde. The essays trace Shakespeare's influence on Cavendish and explore the political implications of Cavendish's contribution to Shakespeare's reputation.

2003 Lectures, 2004 *Spenser's Supreme Fiction* Jon A. Quitslund, 2001-01-01 In *Spenser's Supreme Fiction* Jon A. Quitslund offers a rich analysis of *The Faerie Queene* and of several texts contributing to the revival of Platonism stimulated by Marsilio Ficino's labours as a translator and interpreter of Plato and the ancient Neoplatonists. To the old issue of the scope and character of Spenser's Platonism, Quitslund brings fresh insights from contemporary views on gender and identity, intertextuality and the centrality of fiction within all aspects of Renaissance culture. He argues that Spenser sought authority for his poem by grounding its narrative in a divinely ordained natural order intelligible in terms derived from the ancient sources of poetry and philosophy. Passages central to the poet's world-making project are shown to be intertextually linked to Book VI of the *Aeneid* and to Plato's *Symposium*, regarded in the commentaries of Landino and Ficino as explanations of the gentile *prisca theologia*, a cosmology parallel to the tenets of Christianity. The first half of the book examines Spenser's representation of the macrocosm and its replication in human nature's lesser world in the light of divergent tendencies within humanism. The legacy of Plato is shown to be especially important in the esoteric tradition which made the province of natural philosophy part of the soul's itinerary back to its otherworldly origins. In the second half, *The Faerie Queene* is interpreted as an unfolding pattern: the dynamic order of nature is flawed but not fallen and seen against that background, human culture contains in its myths and images both corruptions of natural impulses and aspirations to transcend the limits imposed by mortality.

An Empire Nowhere Jeffrey Knapp, 2023-04-28 What caused England's literary renaissance? One answer has been such unprecedented developments as the European discovery of America. Yet England in the sixteenth century was far from an expanding nation. Not only did the Tudors lose England's sole remaining possessions on the Continent and thanks to the Reformation grow spiritually divided

from the Continent as well but every one of their attempts to colonize the New World actually failed Jeffrey Knapp accounts for this strange combination of literary expansion and national isolation by showing how the English made a virtue of their increasing insularity Ranging across a wide array of literary and extraliterary sources Knapp argues that English poets rejected the worldly acquisitiveness of an empire like Spain's and took pride in England's material limitations as a sign of its spiritual strength In the imaginary worlds of such fictions as *Utopia* *The Faerie Queene* and *The Tempest* they sought a grander empire founded on the otherworldly virtues of both England and poetry itself This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992
