Staff Training William Crimando, T. F. Riggart, 2017-07-14

In this book first published in 1990, the authors have provided a scholarly treatment of the body of training literature between 1980 and 1988 that can be used by practitioners. They have drawn from as many different sources as possible and have tried to maintain a balance between popular and academic literature. This title will also be of interest to students of business studies and human resource management.

Autonomy and Independence in Language Learning Phil Benson, Peter Voller, 2014-06-06

The topics of autonomy and independence play an increasingly important role in language education. They raise issues such as learners' responsibility for their own learning and their right to determine the direction of their own learning, the skills which can be learned and applied in self-directed learning and capacity for independent learning and the extents to which this can be suppressed by institutional education. This volume offers new insights into the principles of autonomy and independence and the practices associated with them, focusing on the area of EFL teaching. The editors' introduction provides the context and outlines the main issues involved in autonomy and independence. Later chapters discuss the social and political implications of autonomy and independence and their effects on educational structures. The consequences for the design of learner-centred materials and methods is discussed together with an exploration of the practical ways of implementing autonomy and independence in language teaching and learning. Each section of the book opens with an introduction to give structure to the development of ideas and themes with synopses to highlight salient features in the text and help build upon the material of previous chapters.
