Self-Portrait in Words Max Beckmann, 1997-03-15 One of the most important German artists of the twentieth century Max Beckmann was labeled a degenerate artist by the Nazis and chose exile His artistic production encompassed the realism and figural themes of his early works to the provocatively blunt portraiture critical urban views and richly layered symbolic works for which he is now universally recognized Although he was a prolific writer his written work has never before been collected and translated into English Beckmann is known for the depth pungency and tremendous sensuous force of his works only in the last twenty years have we come to learn more about his personal life Self Portrait in Words maps out Beckmann's life and draws attention to the occasions on or for which he produced his writings to the importance writing had for him as a form of expression and to both the contemporary and personal references of his ideas and images *Of 'truths Impossible to Put in Words'* Rose-Carol Washton Long, 2009 This volume of essays relate Max Beckmann's work to the tangible circumstances of its production and reception The essays contextualise aspects of Beckmann's early middle and late career by way of detailed reference to contemporary music film philosophy theatre history sports and exile *Autonomy* Beate Roessler, 2021-05-18 In everyday life we generally assume that we can make our own decisions on matters which concern our own lives We assume that a life followed only according to decisions taken by other people against our will cannot be a well lived life we assume in other words that we are and should be autonomous However it is equally true that many aspects of our lives are not chosen freely this is true of social relations and commitments but also of all those situations we simply seem to stumble into situations which just seem to happen to us The possibility of both the success of an autonomous life and its failure are part of our everyday experiences In this brilliant and illuminating book Beate Roessler examines the tension between failing and succeeding to live an autonomous life and the obstacles we have to face when we try to live our life autonomously obstacles within ourselves as well as those that stem from social and political conditions She highlights the ambiguities we encounter examines the roles of self awareness and self deception explores the role of autonomy for the meaning of life and maps out the social and political conditions necessary for autonomy Informed by philosophical perspectives but also drawing on literary texts such as those of Siri Hustvedt and Jane Austen and diaries including those of Franz Kafka and Sylvia Plath Roessler develops a formidable defense of autonomy against excessive expectations and above all against overpowering skepticism **Whitaker's Books in Print** ,1998 **The British National Bibliography** Arthur James Wells, 2001 **Arts & Humanities Citation Index** ,2000 *Vom schwarzen Seiltänzer* Olaf Peters, 2005 Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1903 **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1903 British Books ,1904 Classic Cézanne Paul Cézanne, Terence Maloon, 1998 This kit is designed as an information resource to supplement the exhibition catalogue General Catalogue of Printed Books to 1955 British Museum.
