**Premenstrual Syndrome** , *Premenstrual Syndrome* Benson Ginsburg, 2012-12-06 As the work on a revised edition of the Diagnostic and Statistical Manual OSM IIIR progressed a great controversy grew over the inclusion of a new diagnostic category Premenstrual Phase Dysphoric Disorder Some nosologists and scientists who study premenstrual syndrome PMS felt that while a specific psychiatric disorder does exist it occurs relatively rarely The disorder can be characterized by recurrent periods of dysphoria on a monthly basis in synchrony with the menstrual period PMS already exists as a diagnosis in ICD 9 the international medical nomenclature The category for DSM IIIR was to be a specific psychiatric disorder concentrating on the dysphoric reaction and not including all of the physical and mental symptoms that people have ascribed to this condition Much of the controversy that ensued had little to do with the diagnostic category or the condition itself Rather it concerned feelings voiced by feminist groups that the new diagnostic category would be misleading that it would inappropriately label women as mentally ill and that it would be affixed not only to the dysphoric disorder but everything else that happens psychiatrically to women *The S.O.S. for PMS* Mary Byers, **Women's Health Care in Advanced**
