Self-discipline and Emotional Control Tom Miller, Develop Self Discipline: How to Take Control of Your Anger and Master Your Emotions, Getting Freedom from Anxiety and Stress, and Develop Emoti Daniel Robert, 2020-10-07 Description Do you want to develop self discipline If yes then keep reading Self discipline is exactly what it says the ability to discipline oneself It is the ability to know what to do in situations and the fortitude to actually do what is correct in the situation It is a habit that is vital to daily success Truly successful people are usually highly disciplined people No one is born with the ability to truly self discipline Babies only care about being taken care of and having their needs met As children grow older their parents are in charge of their discipline at least in the beginning Parents make the rules and children follow them because small children lack the thought processes needed to make good decisions on a regular basis Small children only see the here and now the immediate gratification They do not know and do not care that a bigger better reward might be in store for them if they wait patiently They lack foresight As children grow older they begin to see the reasoning behind their parent's rules They begin to make choices that mirror

the choices their parents have made for them in the past They show that they are learning to discipline themselves At this point the parents may begin to step back a little and to loosen the reins They may allow the child a bit more freedom in making decisions with the understanding that the parent is available if the choice turns out to be unfavorable In this way the child learns in the safety of the home and with the protection of the parents to make good choices and formulate good decisions The child learns to self discipline In a perfect world this is the way children would be raised Unfortunately this is the real world and not a perfect one The problem is not that parents do not care about their children it is that many parents do not know how to teach the art of self discipline to their children Maybe the parents are not self disciplined maybe the parents feel the child will learn it eventually or maybe the parents simply do not want to let go complete control over the child For whatever reason most children are not taught self discipline as a way of life and reach adulthood with no clue of how to be in charge of themselves Self discipline is nothing more than managing one s own personal affairs It is a way of behaving where people automatically choose to do what should be done as opposed to what would more preferably be done It is studying for a test instead of going to a party It is washing dirty laundry on a regular basis so that clean clothes are always available It is following a budget so that future financial goals can be realized Self discipline is that inner voice controlling outward actions It is using willpower to become mentally tough enough to control one s actions by oneself In this book we will discuss the following topics How to control your anger How to control your emotions How to get rid of anxiety Free yourself from stress Develop emotional intelligence The relationships that inform your willpower Mindset and approach are everything Build routines and habits for ultimate self discipline Key to success And much more Are you excited Look no more Download our book now
