Modernity And Consumption: Theory, Politics, And The Public In Singapore And Malaysia Antonio Leopold Rappa, 2002-03-25 The Enlightenment theorists involved in the public private debate exposed the logical fallacies of theology and the philosophical weaknesses of metaphysics but left little room for understanding contemporary modes of consumption What does it mean to be a consumer in the early 21st century Do modern markets provide real choices for consumers in neoliberal capitalist democracies Or are consumers ironically slaves to their own patterns of consumption Rejecting Habermas conceptualizations in *The Structural Transformation of the Public Sphere* 1991 Rappa offers an examination of modernity and consumption with a non Marxist modernity Resistance theoretical frame mRf He argues that late modernity the ethos experience and consciousness of global and technological transformation today is not about the fusion of public and private spaces Rather modernity and consumption involves the deep penetration of private space by public space to the extent that private space becomes dependent conditional and decrepit The Private has become contingent on the Public Decisions about what to consume no longer reflect the mindful choices of private interest seeking and wealth maximizing individuals but reveal a new kind of public control through foundational images of success failure horror violence and hope

America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography encompasses everything from the local where human beings live work and travel to metageographies like nations and regions James A Tyner s inventive and multidisciplinary ideas on geography similarly range from the personal his father s experience in the military during the Vietnam War to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America s Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America s most blatant experience of colonial rule occurred the Philippines America s longest war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America s overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America s geographical imagination This clear and innovative book educates readers about Southeast Asia s importance in American foreign policy
