Preventing Mental Ill-Health Jennifer Newton,2013-05-07 Is there any evidence that we

can reduce the incidence of mental ill health Is it possible to prevent recurrence of mental ill health Aspirations to achieve both these goals have featured in mental health policy and practice for over 100 years This comprehensive and accessible book draws on research on the development and persistence of behavioural problems in childhood adult depression and schizophrenia The association between social disadvantage and mental ill health as well as the need for preventive care to start from conception and the crucial importance of maternal mental health are discussed A variety of prominent programmes which have good evidence of efficacy are described These include Targeted approaches with individuals and families Macro policies affecting housing and employment Lifestyle contributions such as diet and exercise However some attempts to achieve preventive benefits have not succeeded and reflecting on these problems is an important feature of this review Jennifer Newton has written extensively on these issues for over twenty years and her careful examination of the research literature provides a succinct overview of the state of current knowledge which will benefit mental health professionals and students of health psychology and public health It also takes a life course perspective and considers how when and why vulnerability persists through childhood into adult life so will interest those whose work focuses on child well being

Population Trends Great Britain. Office of Population Censuses and Surveys,2005 **An Introduction to Population Geographies** Holly R. Barcus,Keith Halfacree,2017-09-01 An Introduction to Population Geographies provides a foundation to the incredibly diverse topical and interesting field of twenty first century population geography It establishes the substantive concerns of the subdiscipline acknowledges the sheer diversity of its approaches key concepts and theories and engages with the resulting major areas of academic debate that stem from this richness Written in an accessible style and assuming little prior knowledge of topics covered yet drawing on a wide range of diverse academic literature the book s particular originality comes from its extended definition of population geography that locates it firmly within the multiple geographies of the life course Consequently issues such as childhood and adulthood family dynamics ageing everyday mobilities morbidity and differential ability assume a prominent place alongside the classic population geography triumvirate of births migrations and deaths This broader framing of the field allows the book to address more holistically aspects of lives across space often provided little attention in current textbooks Particular note is given to how these lives are shaped though hybrid social biological and individual arenas of differential life course experience By engaging with traditional quantitative perspectives and newer qualitative insights the authors engage students from the quantitative macro scale of population to the micro individual scale Aimed at higher level undergraduate and graduate students this introductory text provides a well developed pedagogy including case studies that illustrate theory concepts and issues Mediatization and Sociolinguistic Change Jannis Androutsopoulos,2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change one of the most contested issues in contemporary sociolinguistics Its 17 chapters and five section commentaries present cutting edge research from variationist and interactional sociolinguistics media linguistics language ideology

research and minority language studies The volume advances our understanding of linguistic change in a mediatized world in three ways First it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change Second it takes the discussion beyond the notions of influence and effect and the binary distinction of media vs community language Third it examines the relation of sociolinguistic change and mediatization and from five complementary viewpoints media influence on linguistic structure media engagement in interaction change in mass and new media language language ideological change and the role of media for minority languages Bringing these strands of sociolinguistic scholarship together this volume examines their shared references and common lines of thinking

The International Handbook of Suicide and Attempted Suicide Keith Hawton, Kees van Heeringen, 2000-11-21 Recent research in the area of suicidology has provided significant new insights in the epidemiological psychopathological and biological characteristics of suicidal behaviour The International Handbook of Suicide and Attempted Suicide is the first book to bring together this expertise and translate it into practical guidelines for those responsible for policy issues and for those involved in the treatment and prevention of suicidal behaviour Leading international authorities provide a truly comprehensive and research based reference to understanding treating and preventing suicidal behaviour They explore concepts and theories which best guide work within this field and detail key research which has supported conceptual developments preventive interventions and clinical treatment No self respecting worker in deliberate self harm and suicide prevention either clinical or research can afford to be without access to this comprehensive handbook possession and regular use may well become a marker of serious involvement in the subject This is the most comprehensive up to date informative and well written source of information on suicide and suicidal behaviour an invaluable work of reference which will be essential for clinicians and researchers for many years to come Andrew Sims Emeritus Professor of Psychiatry St James's University Hospital Leeds UK British Journal of Psychiatry

Migration and Gender in the Developed World Paul Boyle, Keith Halfacree, 2002-11-01 The subject of migration has traditionally been analysed through the lens of economic factors The importance of adopting a gender sensitive perspective to academic work is now generally appreciated Migration and Gender in the Developed World contains chapters from a diverse range of leading contributors who apply such a perspective to the study of migration in the countries of the developed world Each chapter demonstrates how migration is highly gendered with the experiences of women and men often varying markedly in different migration situations The volume covers a wide range of migration issues and draws out the importance of gender issues in each area including dual career households regional migration patterns emigration from Ireland and Hong Kong elderly migration the migration decision making process and the costs and benefits attached to migration Approaching the subject from a variety of academic traditions including Geography Sociology and Social Policy the volume combines both quantitative analysis of factual data and qualitative analysis of interview material to demonstrate the importance of studying migration through gender sensitive
