Lumumba Speaks Patrice Lumumba,1972 Lumumba Speaks: The Speeches and Writings of Patrice Lumumba, 1958-1961. Edited by Jean Van Lierde. Translated From the French by Helen R. Lane. Introd. by Jean-Paul Sartre Patrice Lumumba,1972 *Lumumba Speaks* Patrice Lumumba,1972 Lumumba speaks (La pensée politique de Patrice Lumumba, engl.) The speeches and writings of Patrice Lumumba, 1958-1961 Patrice Lumumba,Helen R. Lane,Jean Van Lierde,1972 **The Ambivalence of Good** Jan Eckel,2019-04-24

The Ambivalence of Good examines the genesis and evolution of international human rights politics since the 1940s Focusing on key developments such as the shaping of the UN human rights system decolonization the rise of Amnesty International the campaigns against the Pinochet dictatorship the moral politics of Western governments or dissidence in Eastern Europe the book traces how human rights profoundly if subtly transformed global affairs Moving beyond monocausal explanations and narratives prioritizing one particular decade such as the 1940s or the 1970s The Ambivalence of Good argues that we need a complex and nuanced interpretation if we want to understand the truly global reach of human rights and account for the hopes conflicts and interventions to which this idea gave rise Thus it portrays the story of human rights as polycentric demonstrating how actors in various locales imbued them with widely different meanings arguing that the political field evolved in a fitful and discontinuous process This process was shaped by consequential shifts that emerged from the search for a new world order during the Second World War decolonization the desire to introduce a new political morality into world affairs during the 1970s and the visions of a peaceful international order after the end of the Cold War Finally the book stresses that the projects pursued in the name of human rights nonetheless proved highly ambivalent Self interest was as strong a driving force as was the desire to help people in need and while international campaigns often improved the fate of the persecuted they were equally likely to have counterproductive effects The Ambivalence of Good provides the first research based synopsis of the topic and one of the first synthetic studies of a transnational political field such as population health or the environment during the twentieth century Based on archival research in six countries it breaks new empirical ground concerning the history of human rights in the United Nations of human rights NGOs of far flung mobilizations and of the uses of human rights in state foreign policy

Congo Thomas Turner, 2013-04-18 The Democratic Republic of Congo has become one of the world's bloodiest hot spots 2003 saw the end of a five year war in which millions lost their lives one of the deadliest conflicts since World War II Despite recent peace agreements and democratic elections the country is still plagued by army and militia violence Congo remains deeply troubled since the deep rooted causes of conflict have not been adequately addressed The conflict in the DRC has divided opinion some call it a civil war or a war of aggression by the country's neighbours others a continuation of Rwanda's Hutu Tutsi conflict on Congolese soil and a war of partition and pillage The prevalence of rape and sexual violence has led some analysts to mark it out as a hidden war against women Tom Turner's insightful book reveals how each of these descriptions accurately captures the separate elements of this complex and multidimensional political conflict In exploring each of these contributory factors he shows how current attempts to rebuild the shattered state and society of DRC are doomed to fail So long as the full complexity of the Congo crisis is not taken into account and a clear consensus as to its precise dimensions reached the future looks bleak The DRC he argues will likely remain a global hot spot for some time to come

Africa after Modernism Michael Janis, 2013-05-13 Africa after Modernism traces shifts in perspectives on African culture arts and philosophy from the conflict with European modernist interventions in the climate of colonialist aggression to present identitarian positions in the climate of globalism multiculturalism and mass media By focusing on what may be called deconstructive moments in twentieth century Africanist thought on intellectual landmarks revolutionary ideas crises of consciousness literary and philosophical debates this study looks at African modernity and modernism from critical postcolonial perspectives An effort to sketch contemporary frameworks of global intersubjective relations reflecting African cultures and concerns must resist taking modernism as a

term of African periodization or master narrative but as a constellation of discursive and subjective forms that obtains upon the present moment in African literature philosophy and cultural history Africa after Modernism argues for a philosophical consciousness and pan African multiculturalist ethos that operate after the deconstruction of Eurocentrism beyond self other paradigms of exoticism or West Africa political ideologies in dialogue with postcolonial approaches to cultural reciprocity
