Lunar Descent

Catherine Thimmesh

Lunar Descent:

Analog Study of Descents from Lunar Orbit Joseph N. Sivo, Carl E. Campbell, 1962 **NASA Technical Memorandum**, 1988 **Lunar Descent** Allen Steele, 2015-05-19 The former head of a lunar mining operation returns to the moon and is immediately sucked into a dangerous morass of labor troubles, lies, larceny and corporate wrongdoing in this wildly entertaining science fiction thrill ride. There is big trouble on the moon. The blue collar working stiffs of Descartes Station, who mine the surface for minerals and the North Pole for water, have become increasingly dissatisfied with Skycorp's general disregard for its employees' well-being. Following the most recent spate of layoffs, the labor strike grumblings have only grown louder, so the company is sending former base administrator and recovering alcoholic Lester Riddell back into the fold in an attempt to boost morale and output alike. The truth, however, becomes shockingly apparent to Riddell almost immediately upon his return. Not only has he been unceremoniously dumped into a muddled mess of larceny, piracy and corporate malfeasance, it appears that Skycorp is purposely setting him up to fail, which could spell finis for Descartes Station and every trash-talking, pot-smoking, porn-loving Vacuum Sucker and Moondog who toils there. But as the Skycorp suits are about to discover, they've just made the biggest mistake of their corporate lives, because Lester Riddell is nobody's fall guy. Three-time Hugo Award winner Allen Steele has seen the near future, and it isn't pretty; it's noisy, dirty, dangerous and chaotic. Thrilling, wildly inventive, delightfully profane and totally outrageous, *Lunar Descent* is one hell of a rocket ride with a master of science fiction at the helm.

Moon Viorel Badescu, 2012-03-22 The Earth has limited material and energy resources. Further development of the humanity will require going beyond our planet for mining and use of extraterrestrial mineral resources and search of power sources. The exploitation of the natural resources of the Moon is a first natural step in this direction. Lunar materials may contribute to the betterment of conditions of people on Earth, but they also may be used to establish permanent settlements on the Moon. This will allow developing new technologies, systems and flight operation techniques to continue space exploration. In fact, a new branch of human civilization could be established permanently on the Moon in the next century. But meantime, an inventory and proper social assessment of the Moon's prospective energy and material resources is required. This book investigates the possibilities and limitations of various systems supplying manned bases on the Moon with energy and other vital resources. The book collects together recent proposals and innovative options and solutions. It is a useful source of condensed information for specialists involved in current and impending Moon-related activities and a good starting point for young researchers.

Lunar Outpost Erik Seedhouse, 2009-04-22 *Lunar Outpost* provides a detailed account of the various technologies, mission architectures, medical requirements and training needed to return humans to the Moon within the next decade. It focuses on the means by which a lunar outpost will be constructed and also addresses major topics such as the cost of the enterprise and the roles played by private companies and individual countries. The return of humans to the surface of the Moon will be critical to the exploration of the solar system. The various missions are not only in

pursuit of scientific knowledge but also looking to extend human civilization economic expansion and public engagement beyond Earth As well as NASA China s Project 921 Japan s Aerospace Exploration Agency Russia and the European Space Agency are all planning manned missions to the Moon and eventually to Mars The Ares I and Ares V are the biggest rockets since the Saturn V and there is much state of the art technology incorporated into the design of Orion the spacecraft that will carry a crew of four astronauts to the Moon Lunar Outpost also describes the human factors communications exploration activities and life support constraints of the missions

Apollo Program Summary Report Lyndon B. Johnson Space Center,1975

Human Missions to Mars Donald Rapp,2023-01-01 In this book Donald Rapp looks at human missions to Mars from a technological perspective He divides the mission into a number of stages Earth s surface to low Earth orbit LEO departing from LEO toward Mars Mars orbit insertion and entry descent and landing ascent from Mars trans Earth injection from Mars orbit and Earth return A mission to send humans to explore the surface of Mars has been the ultimate goal of planetary exploration since the 1950s when von Braun conjectured a flotilla of 10 interplanetary vessels carrying a crew of at least 70 humans Since then more than 1 000 studies were carried out This third edition provides extensive updating and additions to the last edition including new sections and many new figures and tables and references

Team Moon Catherine Thimmesh,2006-06-26

This behind the scenes look at the first Apollo moon landing has the feel of a public television documentary in its breadth and detail Publishers Weekly starred review Here is a rare perspective on a story we only thought we knew For Apollo 11 the first moon landing is a story that belongs to many not just the few and famous It belongs to the seamstress who put together twenty two layers of fabric for each space suit To the engineers who created a special heat shield to protect the capsule during its fiery reentry It belongs to the flight directors camera designers software experts suit testers telescope crew aerospace technicians photo developers engineers and navigators Gathering direct quotes from some of these folks who worked behind the scenes Catherine Thimmesh reveals their very human worries and concerns Culling NASA transcripts national archives and stunning NASA photos from Apollo 11 she captures not only the sheer magnitude of this feat but also the dedication ingenuity and perseverance of the greatest team ever the team that worked to first put man on that great gray rock in the sky Winner of the Robert F Sibert Informational Book Award An edge of your seat adventure Lavishly illustrated This exhilarating book will captivate Chicago Sun Times Thimmesh gives names and voices to the army that got Neil Armstrong and company to the moon and back The result is a spectacular and highly original addition to the literature of space exploration The Horn Book This beautiful and well documented tribute will introduce a new generation to that triumphant time Kirkus Reviews starred review

Beyond the Saga of Rocket Science Walter Sierra,2019-10-03 In Space to Stay the third book in the spell binding The Saga of Rocket Science series gives a thorough expos of the U S Apollo and Space Shuttle programs You will be there as Gus Grissom Ed White and Roger Chaffee perish and get incinerated inside their

locked Apollo 1 capsule when Jim Lovell Jack Swigert and Fred Haise didn't know if they would make it back alive aboard a freezing lunar module on Apollo 13 as Neil and Buzz experienced the euphoria of being the first humans to land on the Moon while Mike Collins in lunar orbit and an anxious world looked on You'll see the same panoramic vistas of the lunar landscape and the beautiful blue marble we call Earth as the astronauts saw You are taken inside the Challenger Space Shuttle as it caught fire and disintegrated in flight What seven brave astronauts felt like as they plunged to their deaths in a basically intact crew cockpit You'll understand exactly what failed and how it failed on both the Challenger and the ill-fated Columbia space shuttles and why another seven astronauts aboard the Columbia felt no pain despite their grisly annihilation during reentry

Eventually, you will certainly discover a further experience and achievement by spending more cash. still when? reach you allow that you require to acquire those all needs similar to having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more a propos the globe, experience, some places, once history, amusement, and a lot more?

It is your unquestionably own period to decree reviewing habit. among guides you could enjoy now is **Lunar Descent** below.
