Lure For A Falcon:

The Art of Falconry, by Frederick II of Hohenstaufen Frederick II (Holy Roman Emperor), Casey Albert Wood, Florence Marjorie Fyfe, 1943-06 *De Arte Venandi cum Avibus* was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters The Lure of the Falcon Gerald Summers, 1972-01-01 **The Prairie Falcon** Stanley H. Anderson, John R. Squires, 2014-10-03 Skillful hunters beautiful in flight Prairie Falcons inhabit the rocky cliffs of the American West These raptors range from southern Canada and northern North Dakota to Baja California Arizona New Mexico western and northern Texas and southeastern Coahuila Mexico This is the first book for a wide audience devoted exclusively to the Prairie Falcon Stanley Anderson and John Squires cover all aspects of the falcon's life history from mating and rearing young to hunting behaviors and the yearly migration cycle They provide complete descriptive characteristics for identifying Prairie Falcons and also compare them to other raptors especially the closely related Peregrine Falcon In addition the authors recount the long association of falcons with people which may extend back as far as 2000 BC They describe the practice of falconry from the Middle Ages until today And they assess the threats to Prairie Falcons posed by human activities from pesticide use and destruction of habitat to disruption of the breeding cycle by careless birdwatchers Peregrine Falcon James H. Enderson, 2013-08-26 A superb success as a bird combining great speed aeronautical grace and fearlessness inhabitant of wild places inaccessible cliffs and skyscrapers worldwide dweller trans equatorial migrant and docile captive the peregrine falcon stands alone among all others of its kind Perhaps this is why so many varied people rushed to its aid when it faced decimation by pesticide poisoning In this personal and highly entertaining memoir Jim Enderson tells stories of a lifetime spent studying training breeding and simply enjoying peregrine falcons He recalls how his boyhood interest in raptors grew into an ornithological career in which he became one of the leading experts who helped identify DDT as the cause of the peregrine falcon's sudden and massive decline across the United States His stories reveal both the dedication that he and fellow researchers brought to the task of studying and restoring the peregrine and the hair raising adventures that sometimes befell them along the way Enderson also seamlessly weaves in the biology and natural history of the

peregrine as well as anecdotes about its traditional and widespread use in falconry as an aggressive yet tractable hunter to offer a broad portrait of this splendid and intriguing falcon *The Kings and Their Hawks* Robin S. Oggins,2004-01-01

explores the nuances and complexity of non utilitarian feeding relationships across urban and rural divides in the wild on the farm at the zoo and in the garden and how our feeding relationships have altered animal distributions and behaviours The authors scrutinise contrasts between which species are promoted and which are persecuted and how the species we choose to feed reflects broader world views and cultural values Ultimately this volume engages in the discussion of how we feed why we feed which animals we deem worthy of feeding and the widespread impacts of feeding relations Praise for *The Hand that Feeds* An innovative and exciting collection of studies exploring the cultural phenomenon of animal feeding Drawing on cutting edge approaches and case studies from wild raptors to livestock and zoo animals *The Hand that Feeds* has started a new conversation on this fundamental relationship between other species and ourselves Aleks Pluskowski University of Reading This fascinating book explores the how why and consequences of people feeding other species drawing on perspectives from the historical life and social sciences Different voices bring diverse observations and viewpoints to a refreshingly lively and informative discussion of a topic that is anything but simple Terry O Connor University of York This is a fantastic interdisciplinary collection interrogating how human animal relations are mediated by food Food can be an enticement a medicine or a poison it can be a vehicle for protection and bonding or distance and killing Dolly J rgensen University of Stavanger
