Luther's Table Talk Preserved Smith,2016-08-15 Excerpt from Luther s Table Talk A Critical Study The following study aims to give a picture of the environ ment in which Luther and his guests conversed and of the men who noted down the sayings of the master Each of these reporters was a source from whom others copied until practically all the sayings were united after several stages of transcription into great collections by various editors We might compare the process of accumulation to that by which many springs pour their waters into the same great river the original notebooks corresponding to the springs the first copies to tributary streams and the final editions to large rivers From an account of this process as little tech nical as possible we naturally come to an appreciation of the literary and historical value of the Table Talk treating it in a manner which is illustrative as well as critical About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      Luther's Table Talk; a Critical Study Preserved Smith,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1907 edition Excerpt has

been found in the sources the account is corrected in accordance with the sources or their account substituted The parallels so treated form but a small part perhaps one tenth of the whole edition all sayings which have no parallels are reprinted exactly as before except the duplicates which are taken out A large number of sayings in Lauterbach and Cordatus which have no parallels in Walch are printed in Appendices 1 The result is disappointing This is partly because the edition came out before the other sources were known partly from too great conservatism of treatment The bulk of the work is the same after all as that in Walch The material from Cordatus and Lauterbach is thrown in promiscuously in the old order which makes it less accessible and less valuable than in the original form The estimate of Cordatus by Wrampelmeyer is taken at its face value and most of his material which we know to be value 1 Hoppe op cit Einl in line less is inserted as an improvement on Aurifaber It is singular that the editor does not recognize what he must have known that there were other Hauptquellen and that if Aurifaber is worthless when we can find a parallel to him in Lauterbach he must have been so in other cases The editors of the Weimar edition<sup>1</sup> plan to dedicate one of their last volumes to the Table Talk basing it on a critical study of the sources This will certainly be the most satisfactory of all the editions indeed unless further sources are discovered which is not probable it should be definitive Let us see what may be hoped from such an edition a convenient way of summing up the results of our researches in the sources In the first place the original notes should be the only authority used *LUTHERS*
