Symbols, the News Magazines and Martin Luther King Richard Lentz, 1999-03-01 More than two decades after his death Martin Luther King Jr remains America s preeminent symbol of the civil rights movement In the early years of the movement King advocated a policy of nonviolent resistance to the racism ingrained in American society In later years however King adopted a more militant stance toward racial and other forms of injustice In this innovative book Richard Lentz considers King as a cultural symbol from the Montgomery bus boycott of 1955 1956 to the Poor People s Campaign which King helped organize shortly before his assassination in 1968 In particular Lentz examines the ways the three major news weeklies Newsweek Time and U S News World Report presented

King to their readers It is primarily through media institutions that Americans shape and interpret their values Newsweek Time and U S News though representing different shadings of political ideology ranging from left of center to conservative were all aimed at the same audience middle class Americans Therefore their influence on the nation s values during a period of enormous social upheaval was significant In the mid 1960s when King shifted from reform to radicalism the news magazines were thrust into what Lentz calls a crisis of Symbols because King no longer fit the symbolic mold the magazines had created for him Lentz investigates how the magazines responded to this crisis discussing the ways in which their analyses of King shifted over time and the means they employed to create a new symbolic image that made sense of King s radicalization for readers This is an important perceptive study of Martin Luther King Jr s career and an astute critical analysis of the reporting practices of the news media in the modern era

Sider, 2001-10-08 Sure to be considered a milestone in Reformation studies this book makes available for the first time in English select treatises of well known attacks and rejoinders of Karlstadt and Luther One chapter even provides a fascinating eyewitness account of their bitter confrontation at Jena The juxtaposition of their sharply articulated positions here amply cross referenced helps to focus not only on the points of divergence but also on the common commitments of these sixteenth century Reformers The editor's introductory material effectively places the conflict in historical and theological perspective In an interpretive essay Dr Sider contends that the violent quarrel between the two former colleagues was due not so much to theological disagreement as to differences over strategy and timing their celebrated battle being but one instance of an ongoing liberal radical debate waged even in our own time Sider's vigorous translations and provocative interpretations make the book invaluable as a primary source book as well as for its original analysis **The Fear of Islam, Second Edition** Todd H. Green, 2019-09-03 *The Fear of Islam* investigates the context of Western views of Islam and offers an introduction to the historical roots and contemporary anxiety regarding Islam within the Western world Tracing the medieval legacy of religious polemics and violence Green orients readers to the complex history and issues of Western relations to Islam from early and late modern colonial enterprises and theories of Orientalism to the production of religious discourses of otherness and the clash of civilizations that proliferated in the era of 9 11 and the war on terror In this second edition Green brings the reader up to date examining the Islamophobic rhetoric of the 2016 US presidential election and the ongoing success of populist and far right parties in Europe Green provides updated data on the rise of anti Muslim legislation for example the Muslim ban in the United States and a wave of full face veil bans in Europe as well as the rise in anti Muslim hate crimes on both sides of the Atlantic since 2015 This important book is essential reading for anyone who wants to better understand current views of Islam and to work toward meaningful peace and understanding between religious communities [LUTHER \(Vol. 1-6\)](#) Hartmann Grisar, 2020-07-15 *Luther* is a six volume biography of Martin Luther German professor of theology and the Church reformer famous for his Ninety five Theses of 1517 and recognized as a seminal figure in the Protestant Reformation The aim of the work was to present accurate historical and psychological portrait of Luther's personality which is still a mystery from many points of

view While presenting Luther's psychological picture the author chooses to do so in Luther's own words analyzing his writings and letters Analyzing Luther's writings he opts not to write about Luther's teachings and the history of dogma but reaches deeper in his endeavor to supply an exact portrayal of Luther as a whole which should emphasize various aspects of his mind and character [Encyclopedia of Martin Luther and the Reformation](#) Mark A.
