Mab And Parish In Late Medieval England The Use Of York:

Performance, Cognitive Theory, and Devotional Culture J. Stevenson, 2010-05-24 In *Performance Cognitive Theory and Devotional Culture* Jill Stevenson uses cognitive theory to explore the layperson's physical encounter with live religious performances and to argue that laypeople's interactions with other devotional media such as books and art objects may also have functioned like performance events By revealing the remarkable resonance between cognitive science and medieval visual theories Stevenson demonstrates how understanding medieval culture can enrich the study of performance generally She concludes by applying her theories of medieval performance culture to contemporary religious forms including creationist museums Hell Houses and megachurches

The Church in Medieval York David Michael Smith, 1999 *The Communal Age in Western Europe, c.1100-1800* Beat Kümin, 2013-05-24 An essential introductory survey of the towns villages and parishes in which people lived in the medieval and early modern periods Beat Kumin assesses the similarities differences and the wider significance of these communities for European society prior to 1800 *Women in England in the Middle Ages* Jennifer Ward, 2006-10-12 Medieval women faced many of the problems of their modern counterparts in bringing up their families balancing family and work and responding to the demands of their communities Of many women in the period of a thousand years before 1500 we know little or nothing though their typical ways of life on farms or in the towns can be reconstructed with accuracy from a variety of sources We know more about a far smaller number of elite women including queens such as Eleanor of Aquitaine and Margaret of Anjou noblewomen whose characters and attitudes can be sensed directly or indirectly and a variety of religious women Literary sources help flesh out real attitudes such as those of Chaucer's Wife of Bath Jennifer Ward shows the life cycle of medieval women from birth via marriage and child rearing to widowhood and death She also brings out the slow changes in the position of women over a millennium Church and Society in the Medieval North of England R. B. Dobson, 1996-01-01 This collection of essays discusses aspects of church life in each of the three dioceses of Carlisle Durham and York identifying the main features of religion in the north and placing contemporary religious attitudes in both a social and a local context

Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 *Gender and Authority in the Late Medieval Church* asks a deceptively simple question How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men The remarkable endurance of an all male clergy is an important element of medieval church government one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority the strategies that bishops used to secure the compliance of a relatively autonomous clergy As Ian Forrest shows bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles Everywhere in the medieval church were women who had the capacity the resources and often the ambition to take part in governance from abbesses to priests servants mothers sisters and

unofficial wives Bringing together evidence of female activity at the margins of the institutional church Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn Drawing on case studies from the English diocesan clergy between the mid thirteenth and early sixteenth centuries he explores how women s involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy In doing so *Gender and Authority in the Late Medieval Church* tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance *The Schools of Medieval England* A F Leach,2013-04-15 Originally published 1915 This reprints the edition of 1969 When originally published this volume was the first history of English schools before the Reformation reckoned from the accession of Edward VI

Clerical Celibacy in the West: c.1100-1700 Helen Parish,2016-05-23 The debate over clerical celibacy and marriage had its origins in the early Christian centuries and is still very much alive in the modern church The content and form of controversy have remained remarkably consistent but each era has selected and shaped the sources that underpin its narrative and imbued an ancient issue with an immediacy and relevance The basic question of whether and why continence should be demanded of those who serve at the altar has never gone away but the implications of that question and of the answers given have changed with each generation In this reassessment of the history of sacerdotal celibacy Helen Parish examines the emergence and evolution of the celibate priesthood in the Latin church and the challenges posed to this model of the ministry in the era of the Protestant Reformation Celibacy was and is intensely personal but also polemical institutional and historical Clerical celibacy acquired theological moral and confessional meanings in the writings of its critics and defenders and its place in the life of the church continues to be defined in relation to broader debates over Scripture apostolic tradition ecclesiastical history and papal authority Highlighting continuity and change in attitudes to priestly celibacy Helen Parish reveals that the implications of celibacy and marriage for the priesthood reach deep into the history traditions and understanding of the church

The Language of Abuse Sara Margaret Butler,2007 Drawing on a wide range of legal and literary sources this book offers a comprehensive investigation into the acceptability of violence in marriage at a time when social expectations of gender and marriage were in transition

Teach Us to Pray Katharine Mahon, 2019-04-01 The study of liturgical reform is usually undertaken through a close examination of liturgical texts In order to consider the impact of reform on the worship life of Christians Katharine Mahon takes a wider view of liturgy by considering the worship practices of Christian churches beyond what appears in the rites themselves Looking at how Christians were taught how to pray and instructed in liturgical and sacramental participation Mahon explores the late medieval patterns of Christian ritual formation and the transformation of these patterns in the sixteenth century reforms of Martin Luther Thomas Cranmer and Roman Catholic leaders She uses the Lord's Prayer the backbone of medieval lay catechesis liturgical participation and private prayer to paint a panorama of medieval ritual formation integrated into the life of the church in the fourteenth and fifteenth centuries She then follows the disintegration and reconstruction of that system of formation through the changing functions of the Lord's Prayer in the official reforms of catechesis liturgy and prayer in the sixteenth century

The Visual Object of Desire in Late Medieval England Sarah Stanbury, 2015-07-10 Little remains of the rich visual culture of late medieval English piety The century and a half leading up to the Reformation had seen an unparalleled growth of devotional arts as chapels parish churches and cathedrals came to be filled with images in stone wood alabaster glass embroidery and paint of newly personalized saints angels and the Holy Family But much of this fell victim to the Royal Injunctions of September 1538 when parish officials were ordered to remove images from their churches In this highly insightful book Sarah Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists For Chaucer Nicholas Love and Margery Kempe the image debate provides an urgent language for exploring the demands of a material devotional culture though these writers by no means agree on the ethics of those demands The chronicler Henry Knighton invoked a statue of St Katherine to illustrate a lurid story about image breaking Lollards Later John Capgrave wrote a long Katherine legend that comments through the drama of a saint in action on the powers and uses of religious images As Stanbury contends England in the late Middle Ages was keenly attuned to and troubled by its culture of the spectacle whether this spectacle took the form of a newly made queen in Chaucer's Clerk's Tale or of the animate Christ in Norwich Cathedral's Despenser Retable In picturing images and icons these texts were responding to reformist controversies as well as to the social and economic demands of things themselves the provocative objects that made up the fabric of ritual life

Addressing Women in Early Medieval Religious Texts Kathryn Maude, 2021 An investigation into texts specifically addressed to women sheds new light on female literary cultures From the tenth to the twelfth centuries in England and Scotland we have scant evidence of women's

writing How then can we access these women's experiences This book argues that by analysing texts deliberately written for and addressed directly to women we gain an insight into the horizons of possibility for their lives It examines religious texts addressed to women bringing together works that are more widely studied with others that are less well known and demonstrates continuities across Old English and Latin texts written for female readers and patrons across the Conquest period Case studies ranging from Ifric's sermons to Aelred's *De institutione inclusarum* from the Life of Christina of Markyate to Goscelin's saints lives for Wilton and Barking Abbeys attend to the intimate scripts women were encouraged to inhabit through a close focus on the form of the textual address By concentrating on address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow

late medieval and early modern periods **Church And Society In England 1000-1500** Andrew Brown, 2017-03-14 What impact did the Church have on society How did social change affect religious practice Within the context of these wide ranging questions this study offers a fresh interpretation of the relationship between Church society and religion in England across five centuries of change Andrew Brown examines how the teachings of an increasingly universal Church decisively affected the religious life of the laity in medieval England However by exploring a broad range of religious phenomena both orthodox and heretical including corporate religion and the devotional practices surrounding cults and saints Brown shows how far lay people continued to shape the Church at a local level In the hands of the laity religious practices proved malleable Their expression was affected by social context status and gender and even influenced by those in authority Yet as Brown argues religion did not function simply as an expression of social power hierarchy patriarchy and authority could be both served and undermined by religion In an age in which social mobility and upheaval particularly in the wake of the Black Death had profound effects on religious attitudes and practices Brown demonstrates that our understanding of late medieval religion should be firmly placed within this context of social change **Angels and Anchoritic Culture in Late Medieval England** Joshua S. Easterling, 2021 Examines the rise of popular religious currents in the later Middle Ages and studies a range of texts composed largely between 1100 and 1400 to illustrate how the emergence of charismatic public prophets unsettled the established church and presented a contest over rival images of public spirituality **Medieval and Renaissance Drama in England, vol. 27** S. P. Cerasano, 2014-09-30 An international journal committed to the publication of essays and reviews relevant to drama and theatre history to 1642 This issue includes nine new articles and reviews of three books *The Pastor Bonus* Theo Clemens, Wim Janse, 2003-07-30 From earliest times the Western Church has fiercely debated questions about the place of the ministry within the Church and Church government What requirements should be met by candidates for holy orders and what do we expect of priests and ministers personal holiness training for their calling social skills or merely the possession of official ordination The Church has at different times produced very different answers and the 30 scholars from Britain the Netherlands and Belgium whose papers in this volume follow the course of the debate concerning the good shepherd from the early church through to modern times show on the one hand what happens to Christian communities that have lost a clear view of the functions of the ministry and on the other just how much trust people have always placed in their priests and pastors With contributions by Anton Weiler Charles Caspers Robert Swanson Petty Bange Mathilde van Dijk Claire Cross Fred van Lieburg Ingrid Dobbe Frank van de Pol Eamon Duffy Joke Spaans Trevor Johnson Gian Ackermans David Wykes Jeremy Gregory W M Jacob Joris van Eijnatten Nigel Yates David Bos Leo Kenis F G M Broeyer Frances Knight John Tomlinson Stuart Mews Lieve Gevers and Ian Jones **Celibate and Childless Men in Power** Almut Höfert, Matthew Mesley, Serena Tolino, 2017-08-15 This book explores a striking common feature of pre modern ruling systems on a global scale the participation of childless and celibate men as integral parts of the elites In bringing court

eunuchs and bishops together this collection shows that the integration of men who were normatively or physically excluded from biological fatherhood offered pre modern dynasties the potential to use different reproduction patterns The shared focus on ruling eunuchs and bishops also reveals that these men had a specific position at the intersection of four fields power social dynamics sacredness and gender masculinities The thirteen chapters present case studies on clerics in Medieval Europe and court eunuchs in the Middle East Byzantium India and China They analyze how these men in their different frameworks acted as politicians participated in social networks provided religious authority and discuss their masculinities Taken together this collection sheds light on the political arena before the modern nation state excluded these unmarried men from the circles of political power
