*The Digital Photography Book, Part 2* Scott Kelby, 2009-02-02 Scott Kelby author of the groundbreaking bestseller *The Digital Photography Book Vol 1* is back with an entirely new book that picks up right where Vol 1 left off. It's more of that Ah ha so that's how they do it straight to the point skip the techno jargon packed with stuff you can really use today that made Vol 1 the world's bestselling book on digital photography. In Volume 2 Scott adds entirely new chapters packed with Plain English tips on using flash shooting close up photography travel photography shooting people and even how to build a studio from scratch where he demystifies the process so anyone can start taking pro quality portraits today. Plus he's got full chapters on his most requested topics including loads of tips for landscape photographers wedding photographers and there's an entire chapter devoted to sharing some of the pro's secrets for making your photos look more professional no matter what you're shooting. This book truly has a brilliant premise and here's how Scott describes it. If you and I were out on a shoot and you asked me When I use my flash the background behind the person I'm shooting turns black. How do I fix that? I wouldn't give you a lecture on flash ratios or start a discussion on flash synchronization and rear curtain sync. I'd just say Lower your shutter speed to 1/60 of a second. That should do it. Well that's what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak. Each page covers a single concept on how to make your photography better. Every time you turn the page you'll learn another pro setting tool or trick to transform your work from snapshots into gallery prints. If you're tired of taking shots that look okay and if you're tired of looking in photography magazines and thinking Why don't my shots look like that then this is the book for you. This isn't a book of theory full of confusing jargon and detailed concepts. This is a book on which button to push which setting to use and when to use it. With nearly another 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time.

**Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4** Scott Kelby, 2012-04-26 With over 800 of the most closely guarded photographic tricks of the trade this boxed set consisting of all four parts of Scott Kelby's best selling series *The Digital Photography Book* is the ultimate resource for any one who wants to

Lightroom 1.1 update available Simply visit peachpit.com register to gain instant access Scott Kelby author of the world's #1 bestselling Photoshop book *The Photoshop Book for Digital Photographers* brings his same award winning step by step plain English style look and feel to *The Lightroom Book for Digital Photographers* This groundbreaking new book doesn't just show you which sliders do what every Lightroom book does that This book takes you beyond that to reveal the secrets of the new digital photography workflow and he does it using three simple yet brilliant techniques that make this just an incredible learning tool

- 1 Throughout the book Scott shares his own personal settings and studio tested techniques he's developed using Lightroom for his own photography workflow since well before Adobe released even the first Beta version He knows what really works what doesn't and he tells you flat out which tools to use which to avoid and why
- 2 The entire book is laid out in a real workflow order with everything step by step so you can jump right in using Lightroom like a pro from the very start and sidestep a lot of productivity killing road blocks and time wasting frustrations that might have tripped you up along the way
- 3 But what really sets this book apart from the rest are the last two bonus chapters This is where Scott visually answers his #1 most asked Lightroom question which is Exactly what order am I supposed to do things in and where does Photoshop fit in Scott teaches this in a manner we've never seen before in any book by really showing every step of the entire process from the initial shoot to the final prints Both chapters start with an on location photo shoot including full details on the equipment camera settings and even the lighting techniques You'll see it all as he takes the photos from each shoot with you following right along using the very same images all the way through the entire workflow process to the final output of the 16x20 prints for the client Plus because he incorporates Adobe Photoshop seamlessly right into this workflow you'll also learn some of his latest Photoshop techniques for portrait and landscape photography which takes this book to a whole new level It's the first and only book to bring the whole process together in such a clear concise and visual way Best of all it's taught in Scott's trademark plain English style that has won him legions of Photoshop fans around the world and made him the #1 bestselling author of all computer books across all Computing and Internet categories since 2004 If you're one of those people who learns best by actually doing the projects yourself who learns best without all the complicated technical explanations and confusing jargon and if you really want to start using Lightroom today to unlock the productivity secrets of The new digital photography workflow there is no faster more straight to the point or more fun way to learn than this groundbreaking new book and you are absolutely going to love it

*Mac OS X Panther Killer Tips* Scott Kelby, 2003-12-30

Nothin but sidebars The hottest collection of cool tips and hidden secrets for the pro who needs results FAST Not another newbie book OS X Killer Tips speaks directly to the daily Mac user who needs to get the most out of their Mac NOW Other such books tend toward fluffiness where Killer Tips is all business Time is money and a lot of experienced users find themselves trying to save time by skimming through larger computer books in order to pull out the useful nuggets of info that are often placed within what we call sidebars i.e. those Note Tip Warning boxes The Killer Tips series was developed by Scott

Kelby because he recognized how useful non beginning technology users find those cool I didn't know THAT sidebars that are peppered all over the other computer books out there This book is all about speed showing the Mac professional how to get more work done faster while actually increasing quality     The Mac OS X Leopard Book Scott Kelby,2010-04-09 With so many books out there on Mac OS X Leopard what makes this one better and different is its focus While other Leopard books can regularly be 500 plus pages this book cuts through all the technical jargon and gives you exactly what you want the most important most requested and just plain coolest things about Leopard that will change the way you work on your Mac With Leopard's newest features this book will show you how to customize your workspace with Spaces search and view your files fast with Quick Look restore any file on your system with Time Machine and much more Each page covers just one topic complete with full color photos and screenshots making it easy to find what you're looking for fast     **The iPod Book** Scott Kelby,2006 Describes how to get the most out of an iPod and iTunes covering such topics as customizing the menu creating a playlist using the iPod in a car using the iPod photo and using the iTunes store     The Photoshop Elements 7 Book for Digital Photographers Scott Kelby,Matt Kloskowski,2009-02-23 This book breaks new ground by doing something for digital photographers that's never been done before it cuts through the bull and shows you exactly how to do it It's not a bunch of theory it doesn't challenge you to come up with your own settings or figure things out on your own Instead it does something that virtually no other Elements book has ever done it tells you flat out which settings to use when to use them and why If you're looking for one of those tell me everything about the Unsharp Mask filter books this isn't it You can grab any other Elements book on the shelf because they all do that Instead this book gives you the inside tips and tricks of the trade for organizing correcting editing sharpening retouching and presenting your photos like a pro You'll be absolutely amazed at how easy and effective these techniques are once you know the secrets Each year we train thousands of digital photographers and almost without exception they have the same questions and face the same problem that's exactly what we cover in this book You'll learn The real secrets of how the pros retouch portraits How to color correct any photo without breaking a sweat you'll be amazed at how they do it How to use Camera Raw for processing not only RAW photos but JPEGs and TIFFs too And you'll learn why so many pros like it best because it's faster and easier The sharpening techniques the pros really use there's an entire chapter just on this How to deal with common digital camera image problems including removing noise and avoiding halos The most requested photographic special effects and much more THE BOOK'S SECRET WEAPON Although Elements 7 offers some digital photography features that Photoshop CS4 doesn't offer there are plenty of features that Photoshop CS4 has that Elements 7 still doesn't have things like layer masking Channel Mixer etc But in this book you'll learn some slick workarounds cheats and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements Plus since this book is designed for photographers it doesn't waste your time talking about how to frame a shot setting your exposure etc and there's no talk about which camera or printer to buy It's all

Elements step by step cover to cover in the only book of its kind and you're gonna love it      Mac OS X Leopard Killer Tips Scott Kelby, Dave Gales, 2010-04-07 Killer Tips books are written with one goal in mind to allow the reader to work faster and smarter In other books you'll often find that the most useful information is found in sidebars tips and notes In a Killer Tips book there's nothing to weed through it's all sidebars tips and notes Here Scott Kelby gives you only the best tips and info on Mac OS X Leopard covering all of the new features including Time Machine the revolutionary and completely unique backup system Spaces which allows the user to totally customize different window configurations based on their needs Spotlight which now allows the user to search across an entire network not just the user's computer and much more Scott Kelby's trademark style both direct and humorous is easily accessible to all readers who will appreciate all the great information here as well as the book's clear and focused presentation      The Photoshop Elements 8 Book for Digital Photographers Scott Kelby, Matt Kloskowski, 2010 This book has information for organizing correcting editing sharpening retouching and presenting photos like a professional      Scott Kelby's 7-Point System for Adobe Photoshop CS3 Scott Kelby, 2007-10-16 Scott Kelby the world's #1 bestselling Photoshop author and the man who changed the Photoshop and digital photography world with his ground breaking award winning Photoshop Book for Digital Photographers unveils a exciting brand new way of thinking and working in Adobe Photoshop that will not only change the industry again but it will change the way we all work in Photoshop forever so we can finally spend less time fixing our images and more time finishing them You're about to become a Photoshop Shark Scott has focused in and really narrowed things down to just exactly which Photoshop tools and techniques we absolutely positively have to know and he found that there are just seven major tools seven major features that we have to master to enhance our images like a pro But then he took it a step further Out of those seven major tools he looked at which parts or sections of those tools do we really need to master and which parts can we pretty much ignore in other words he whittled it down so you're not learning parts of the tools that you're probably never going to need Then and perhaps most importantly he determined exactly when and in which order to apply these seven techniques that make up Scott's amazing Photoshop Seven Point System But the magic of this book is not just listing the seven tools and showing how they work It's how they're used together and how Scott teaches them and makes it stick that makes this book so unique You're not going to just learn one technique for fixing shadows and another technique for adjusting color every Photoshop book pretty much does that right Instead you're going start off at square one from scratch as each chapter is just one photo one project one challenging lifeless image you'll follow along using his the same images and you're going to unleash these seven tools in a very specific way and you're going to do it again and again and again in order on different photos in different situations until they are absolutely second nature You're finally going to do the FULL fix from beginning to end with nothing left out and once you learn these seven very specific techniques and apply them in order there won't be a an image that appears on your screen that you won't be able to enhance fix edit and finish yourself Plus Scott's techniques work across a

wide range of photos and that's exactly what you'll be working on in the book from landscapes to portraits to architectural to nature from event photography to everything in between there isn't a photo you won't be able to beat This is the book you've been waiting for the industry's been waiting for and Scott's Adobe Photoshop Seven Point System is so revolutionary that he's officially applied for a patent with the U S Patent and Trademark Office and this new system is only found in this amazing ground breaking new book Once you learn these techniques and start applying them yourself you'll be the next one to say You can't beat The System

**The Photoshop Elements 6 Book for Digital Photographers** Scott Kelby, Matt Kloskowski, 2010-04-09 Best selling author Scott Kelby pairs up with Matt Kloskowski to deliver the definitive book on using Photoshop Elements 6 to create the best possible images With this newest release of Photoshop Elements Scott and Matt show readers how to work with their images like a pro from importing to organization to correction to output Readers will learn all they need to know about the digital photography workflow as well as the latest secrets of the pros to help them create the best special effects apply the most useful sharpening techniques and avoid many of the hassles and problems that are encountered in digital photography such as digital noise and color halos
