between family process intergenerational attachment and storytelling Sociocultural theories that emphasize how such development is situated in the wider cultural context are also featured in several chapters This broad lifespan developmental focus serves to integrate the exciting diversity of this work and foster further questions and research in the emerging field of family narrative The book is intended primarily for researchers and advanced level students in the fields of developmental and personality psychology as well as those in family studies and in gerontology It may also be of interest to those in the helping professions who are concerned with family therapy and family issues and may due to its content and illustrative material have appeal to a wider market of the lay public The chapters are written in a readily accessible style and the analyses are presented in a fairly non technical way Because family stories are charted across the lifespan it would be a suitable companion book to a more traditional lifespan textbook in certain courses

Awaiting MacArthur's Return James Villanueva, 2022-10-07 Over the course of World War II guerrillas from across the Philippines opposed Imperial Japan s occupation of the archipelago Although the guerrillas never possessed the combat strength to overcome the Japanese occupation on their own they disrupted operations kept the spirit of resistance alive provided

important intelligence to the Allies and assumed frontline duties fighting the Japanese By examining the organization motivations capabilities and operations of the guerrillas James Villanueva argues that the guerrillas were effective because Japanese punitive measures along with a strong sense of obligation and loyalty to the United States pushed most of the population to support the guerrillas Unlike their predecessors opposing the Americans in 1899 the guerrillas during World War II benefited from the leadership of US and Filipino military personnel and received significant aid and direction from General Douglas MacArthur s Southwest Pacific Area SWPA Headquarters conducting one of the most effective and sophisticated resistance campaigns in World War II Awaiting MacArthur s Return is the first comprehensive comparative analysis of the major World War II guerrilla groups across the Philippine Archipelago providing a fuller picture of the nature of the war in the Southwest Pacific and revealing the extent to which the guerrilla movement affected operations for both Allied and Imperial Japanese forces Analyzing the organizational effectiveness of the guerrillas resisting the Japanese occupation of the Philippines this book alternates narrative chapters with thematic chapters examining the guerrillas organization logistics administration intelligence gathering and the support they received from Allied forces and provided the Allies in turn Villanueva offers the most in depth analysis of the guerrillas military organization and effectiveness in the context of existing theories of insurgency and counterinsurgency while using an extensive body of memoirs archival guerrilla and US Army and Navy records and translations of Japanese documents and interviews with Japanese officers

The Rising Clamor David P. Hadley, 2019-06-14 The US intelligence community as it currently exists has been deeply influenced by the press Although considered a vital overseer of intelligence activity the press and its validity is often questioned even by the current presidential administration But dating back to its creation in 1947 the US Central Intelligence Agency CIA has benefited from relationships with members of the US press to garner public support for its activities defend itself from its failures and promote US interests around the world Many reporters editors and publishers were willing and even eager to work with the agency especially at the height of the Cold War That relationship began to change by the 1960s when the press began to challenge the CIA and expose many of its questionable activities Respected publications went from studiously ignoring the CIA s activities to reporting on the Bay of Pigs CIA pacification programs in Vietnam the CIA s war in Laos and its efforts to use US student groups and a variety of other non government organizations as Cold War tools This reporting prompted the first major congressional investigation of the CIA in December 1974 In The Rising Clamor The American Press

the Central Intelligence Agency and the Cold War David P Hadley explores the relationships that developed between the CIA and the press its evolution over time and its practical impact from the creation of the CIA to the first major congressional investigations of its activities in 1975 76 by the Church and Pike committees Drawing on a combination of archival research declassified documents and more than 2 000 news articles Hadley provides a balanced and considered account of the different actors in the press and CIA relationships how their collaboration helped define public expectations of what role intelligence should play in the US government and what an intelligence agency should be able to do *Congressional Record* United States.
