emergence dynamics and evolution of European level communications governance in the post war era focusing on telecommunications and television policies and regulation and their technological convergence Concentrating on the EU the book embeds governance within broader economic and political developments in a global context and demonstrates that European governance has been more about the character rather than the level of regulation Europe's Experimental Union Brigid Laffan,Rory O' Donnell,Michael Smith,2013-01-11 Europe s Experimental Union challenges conventional writings on European integration by situating the analysis of the EU in the context of changing patterns of political and economic order The authors conclude that the union is not evolving towards a federal superstate but rather is an arena of deep economic integration governed by a prismatic polity characterised by innovation experimentation pragmatism decentralisation and devolution Although it may seem unsettled this book reveals that in fact the experimental nature of the EU enablwes it to respond to multiple agendas and Europe s diversity in a flexible manner *Migration, Identity and Politics in Turkey from the Ottoman Empire to Today* Pinar Çaglayan,Gökçe Bayindir Goularas,Isil Zeynep Turkan Ipek,Edanur Önel,2024-04-30 International migration the flow of people across international boundaries has been studied from several perspectives especially since the Syrian civil war in 2011 Migration Identity and Politics in Turkey from the Ottoman Empire to Today aims to explore the motivation of migration the social integration or disintegration the migration process to the host country and the development and creation of new migrant identities A lot of studies deal with the subject of international migration especially regarding the civil rights of migrants economic impacts of migration or international policies related to migration but a micro based analysis on migrants culture political social identities and attitudes generational transformation moral and mental stated historical approach is limited In this regard the book differs from other works in that it includes comprehensive and historical analyzes of internal and external migration since the Ottoman Empire rather than just focusing on current international migration to Turkey as well as an identity based and cultural perspective that goes beyond the social economic and political perspective **European Integration and the Governance of Higher Education and Research** Alberto Amaral,Guy Neave,Christine Musselin,Peter Maassen,2009-10-03 The high level Douro seminars are now a well established tradition in the annual activities promoted by Hedda a European consortium of nine centres and ins tutes devoted to research on higher education and CIPES its Portuguese associated centre At the seminars each member of a small group of invited researchers presents and discusses an original research based paper that is revised afterwards taking into account the comments of the participating colleagues The revised papers form the basis for the annual thematic book published by Springer in the book series called Higher Education Dynamics HEDY Paying tribute to the regularity of the seminars it was decided that the volumes originating from the initiative would be collected in a series in the series called the Douro Series Previous seminars were dedicated to in depth analyses of different aspects of higher education systems and institutions including institutional governance the emergence of managerialism markets as instruments of public policy cost sharing and

accessibility of students to higher education and developments in quality assurance The present volume aims at analysing the change process which the European university is undergoing as a consequence of European integration efforts In the case of higher education these have materialised amongst other things in the implementation of the Bologna process while the Lisbon summit also has important consequences for the university In March 2000 the Lisbon European Council set the goal for the EU to become the most competitive and dynamic knowledge based society in the world by 2010 **Linking Europe** John Ross,1998-02-28 Long overlooked transport is emerging as an important policy area for the European Union and is a growing source of political tension This broad based analysis of the European transport industry includes an in depth examination of the four major modes rail road air and shipping also the EU s growing cross border transport links Ross frames this discussion with a look at the role of transport in the overall European political economy past present and future Adapting to European Integration Kenneth Hanf,Ben Soetendorp,2014-09-11 Adapting to European Integration describes how the political institutions in eight small member states and two non members responded to the internal and external demands springing from the process of European integration in general and EC EU membership in particular The study makes a distinction between governmental administrative adaptation political adaptation and strategic adaptation The chapters focus in the first instance on the governmental administrative responses at the level of central government the organisational adjustments and the changes in institutional capacity to meet the new challenges The authors also look at the willingness of the political decision makers to internalise the EC EU dimension in domestic policy making and the way in which the country s own history as well as the attitude towards European integration facilitate or hinder adaptation and change The SAGE Handbook of European Foreign Policy Knud Erik Jorgensen,Aasne Kalland Aarstad,Edith Drieskens,Katie Laatikainen,Ben Tonra,2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union s international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy The volumes are composed of original chapters written specifically to the following themes Research traditions and historical experience Theoretical perspectives EU actors State actors Societal actors The politics of European foreign policy Bilateral relations Relations with multilateral institutions Individual policies Transnational challenges The Handbook will be an essential reference for both advanced

students and scholars **Europe in Search of Political Order** Johan P. Olsen, 2007-02-01 This book deals with ongoing processes of European cooperation and integration processes that may have a potential to change the political organization of Europe Based on ideas from the new institutionalism the book offers a systematic perspective on institutional change and in particular the role of institutions in relation to four central and durable issues in the study of political life These are 1 the mediation between unity and diversity what ties a society together and what keeps it apart 2 The relations between citizens and their helpers why the democratic deficit in the European Union can not be eliminated solely by making mechanisms of direct citizens participation and representation more efficient Needed are also institutions that make direct participation redundant because they routinely work with integrity generating expected and desired outcomes 3 The relation between democratic design and historical drift To what degree democracies are able to design and reform key institutions of governance so that their structures reflect popular will understanding and control 4 The co existence of old and new political orders How elements of a new order may supplement rather than replace elements of the old order generating a mixed order based on partly inconsistent principles and rules *Tense Commandments* Pietro S. Nivola, 1996-02-29 During the past decade dozens of large cities lost population as jobs and people kept moving to the suburbs Despite widespread urban revitalization and renewal one fact remains unmistakable when choosing where to live and work Americans prefer the suburbs to the cities Many underlying causes of the urban predicament are familiar disproportionate poverty stiff city tax rates and certain unsatisfactory municipal services most notably public schools Less recognized is the distinct possibility that sometimes the regulatory policies of the federal government the rules and rulings imposed by its judges bureaucrats and lawmakers further disadvantage the cities ultimately burdening their ability to attract residents and businesses In *Tense Commandments* Pietro S Nivola encourages renewed reflection on the suitable balance between national and local domains He examines an array of directive or supervisory methods by which federal policymakers narrow local autonomy and complicate the work urban governments are supposed to do Urban taxpayers finance many costly projects that are prescribed by federal law A handful of national rules bore down on local governments before 1965 Today these governments labor under hundreds of so called unfunded mandates Federal aid to large cities has lagged behind a profusion of mandated expenditures at times straining municipal budgets Apart from their fiscal impacts Nivola argues various federal prescriptions impinge on local administration of routine services tying the hands of managers and complicating city improvements Nivola includes case studies of six cities Baltimore Philadelphia New York Chicago San Francisco and Los Angeles He describes the politics of paternalism the political pressures that federal regulations place on governance Then he offers comparisons with various political systems abroad including Germany the U K France and Italy As the nation and its cities brace f

European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaecker, Markus Haverland, 2006-09-01 The Three Waves of European Research European cooperation and integration

has continued to progress forward over the past five decades with an ever deepening impact on the member states. The first wave of research into these processes concerned European integration, the process of institution building and policy developments at the European Union (EU) level. The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU. What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU. This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels. We posit that this third wave should be sensitive to the temporal dimension of European integration and Europeanization. In particular, we seek to link the processes of European integration and Europeanization in a new way by asking the question: how has Europeanization affected current modes of integration and cooperation in the EU?

Part I: Europeanization of the Member States

Preparing the ground for the third wave, the first part of the book concerns Europeanization. In order to fully understand the feedback of Europeanization on cooperation and integration, it is important to analyze how European integration has had an impact on member states in the first place, in particular indirectly beyond the direct mechanism of compliance with European policies.

European Governance and Democracy

Richard Balme, Didier Chabanet, 2008-05-13

Considering the future of European integration, this clear and compelling study explores the interplay between collective action and democracy in the European Union and its member states. Richard Balme and Didier Chabanet analyze the influence of supranational governance on democratization through a wealth of case studies on a broad range of civil society interests including regional policy, unemployment and poverty, women's rights, migration policy and environmental protection. The authors trace the evolving relationship between citizens and European institutions over the past decades, especially as public support for deepening and widening integration has waned. This trend culminated in a deep institutional crisis precipitated by the rejection of the draft constitutional treaty in France and the Netherlands in 2005. At least two truisms were proven wrong during this tumultuous period: that European citizens have little interest in European integration and that citizens have little influence on EU politics. However, this power shift has left citizens with a deep distrust of integration and EU institutions with limited capacities to cope with issues the public considers priorities: primarily unemployment and social inequalities. The book shows how Europe-wide interest groups formed and protesters were able to mobilize around key issues of integration. The authors convincingly argue that the growth of contentious social movements has also been nourished by the EU policy process itself, which leaves more room for interest groups and protest politics than for political parties and representative democracy. An essential primer on European democracy, this study will be invaluable for scholars and students in European politics and public policy, globalization and democracy, and comparative social movements.

Europeanised Politics? Klaus H. Goetz, Simon Hix, 2012-12-06
