## **Making Sense Of Christian Faith Understood Challenged Lived:**

*Making Sense of Christian Faith* Victor A. Shepherd, 1987      **The Christian Moral Life** Timothy F. Sedgwick, 2008-11

This book a re issue of the 1999 edition demonstrates that the way of life we call Christian is lived in relationships to others Christian faith understood as practical piety calls for a life opened to the world at large concerned for the stranger as well as for the neighbor Sedgwick further emphasizes that the Christian life is grounded in the experience and worship of God His work thus develops Christian ethics as sacramental ethics an ethic that has at its center a deepening encounter with God Written in a style accessible to non specialists this book provides teachers pastors counselors and general readers with an ideal introduction to Christian ethics It renews the topic of Christian ethics by showing readers that faithful moral living is achieved through the daily practices of grace and godliness The author first explores the foundations of Christian ethics as seen by both Catholics and Protestants and then develops a constructive view of morality as a way of life Taking into account the central themes of Christian ethics he shows that effective piety is built on spiritual disciplines that deepen our experience of God prayer worship self examination simplicity and acts of hospitality

**Making Sense of Faith in God** Jonathan Clatworthy, 2012-06-21 Many people s understanding of the world does not include God A number of new atheist authors such as Richard Dawkins Christopher Hitchens Sam Harris and Daniel Dennett claim that science can explain how the universe works without any need for the divine and this seems to have become the default position in modern Western culture But a great number of people are prepared to spend time and effort trying to establish some sort of spiritual dimension to their lives Faced with the choice between rejecting modern scientific knowledge or all awareness of the divine they choose from a range of vaguely spiritual practices and ideas which can be picked up and dropped with minimal commitment Making Sense of Faith in God as the title indicates offers a different alternative to reject neither reason nor God because believing in God makes sense

**Undocumented Migration as a Theologizing Experience** Eunil David Cho, 2024-09-02. In *Undocumented Migration as a Theologizing Experience*, Eunil David Cho examines how Korean American undocumented young adults tell religious stories to cope with the violence of uncertainty and construct new meanings for themselves. Based on in-depth interviews guided by narrative inquiry, the book follows the stories of ten Korean American DACA (Deferred Action for Childhood Arrivals) recipients who have found their lives in limbo. While many experience narrative foreclosure believing "My story is over," Cho highlights how telling religious stories enables them to imagine and create new stories for themselves not as shunned outsiders but as beloved children of God.

**Preaching at the Crossroads** David Lose, 2013-12-01. The world is changing and preaching needs to do the same. With that change, the notion of truth need not be surrendered in a postmodern age but it must be approached differently. David Lose argues that preaching is a confession made openly for the hearers to embrace and engage in the midst of the real lived world they experience.

**America and the Challenges of Religious Diversity** Robert Wuthnow, 2011-07-01. Muslims, Hindus, Buddhists and adherents of other non-Western religions have become a significant presence in the United States in recent years. Yet many Americans continue to regard the United States as a Christian society. How are we adapting to the new diversity? Do we casually announce that we respect the faiths of non-Christians without understanding much about those faiths? Are we willing to do the hard work required to achieve genuine religious pluralism? Award-winning author Robert Wuthnow tackles these and other difficult questions surrounding religious diversity and does so with his characteristic rigor and style. *America and the Challenges of Religious Diversity* looks not only at how we have adapted to diversity in the past but at the ways rank and file Americans, clergy and other community leaders are responding today. Drawing from a new national survey and hundreds of in-depth qualitative interviews, this book is the first systematic effort to assess how well the nation is meeting the current challenges of religious and cultural diversity. The results, Wuthnow argues, are both encouraging and sobering: encouraging because most Americans do recognize the right of diverse groups to worship freely, but sobering because few Americans have bothered to learn much about religions other than their own or to engage in constructive interreligious dialogue. Wuthnow contends that responses to religious diversity are fundamentally deeper than polite discussions about civil liberties and tolerance would suggest. Rather, he writes, religious diversity strikes us at the very core of our personal and national theologies. Only by understanding this important dimension of our culture will we be able to move

toward a more reflective approach to religious pluralism      **Love Awakened by Love** Mark O'Keefe OSB,2014-04-14 A skilled moral theologian Benedictine Father Mark O Keefe leads God seekers to focus attention on St John of the Cross's teaching in *The Ascent of Mount Carmel* The essence of the spiritual journey is union with God through the practice of the virtues especially faith hope and love It's virtuous living that enables us to truly love God and be conformed to God in divine union For St John religious experiences are not the essence of the spiritual journey at all nor is asceticism for its own sake John's emphasis on the *nada* is to lead us to liberating emptiness authentic human freedom that equips us to be filled with the divine life At the journey's summit we find the God who is Love This book is an insightful companion to *The Ascent of Mount Carmel* Ideal for personal and group study Carmelite formation college courses and a must for every library

*Performing a Christian Life* Thomas D. Kennedy,2019-11-13 We want to live good lives but determining what a good life is isn't easy especially if we want the lives we lead to be ours rather than somebody else's Tom Kennedy helps us see why it is hard to find our way when it comes to living well and what we can do about that Finding our way requires knowing who we are understanding ourselves and Christians because of their experience with God will understand themselves differently than others in at least some ways Kennedy explores that understanding and discovers that Christian encounters with God lead to beliefs about God human nature forgiveness values and loving well that have important implications for what we do and feel for how we should live In clear and familiar language and with probing questions he helps us think more carefully and deeply about our identities and what it should look like for us to live well      The Forgotten Teboho Pitso,2023-05-20 The book

focuses on uncovering lies and myths that sustain the colonial and European supremacist agendas and restores Africa's role in originating civilisation science mathematics philosophy spirituality and Christianity It forms part of questioning the deification of Global North episteme as a universal theory The volume thus contributes to Southern theorisation that draws from multiple practices and lived experiences of those from the austral geographic location Global South whose understanding of time is secular Such theorisation challenges and denounces the imperialist gaze on contemporary science as the sole spectacle and arbiter of its significance in society The Global South episteme whose sources are indigenous practices collective knowing and collective experiences has all the right to claim its stake in hallowed spaces of knowledge production      Religion, Spirituality and Healthcare Peter Roche de Coppens,2007-05-16 The present work constitutes the

most important work written by Dr Roche de Coppens during his long career as an author In it he has brought together his deepest and longest lasting interests religion spirituality and healthcare in a new theoretical perspective that sheds much light on each of these disciplines and which relates them in an evolutionary perspective Many of the conflicts oppositions paradoxes and contradictions that pitted various approaches within each field and between these fields are now explained and integrated Thus allopathy psychosomatic integrative and spiritual medicine can now be reconciled as can religion spirituality rationalism materialism and the New Age The key is the level of consciousness and being of the involved person It

is only at the 5th level of consciousness and being that one can reconcile these and bring one in addition to the others rather than having to choose between one or the other

**The Radical Invitation of Jesus** Duncan S. Ferguson, 2019-07-02 The book addresses the way we are able to understand the radical invitation of Jesus The invitation is to those who heard Jesus in the first century the intervening centuries and those in the twenty first century urging them to turn away from a life that is self centered and to seek a life that is God centered accepting the reign of God in one s life rather than wealth pleasure power and fame Jesus says that we are to seek first the kingdom of God and all of our basic needs will be met being transformed and finding meaning and purpose in our lives The invitation is radical in that it calls on us to give up the accepted norms and values of our culture and world and give ourselves to a life of integrity and truthfulness love and compassion and justice and peace We are invited to find our true identity to be filled with and transformed by the God of love and to become one who is filled with grace and truth as Jesus was

The Meanings of Discipleship Andrew Hayes,Stephen Cherry,2021-10-29 Discipleship is a foundational concept of Christian life which has become a popular and ubiquitous description of belonging and growth in early 21st ecclesiastical language Discipleship courses and popular writings abound and the term is used liberally in official church documents and strategies for growth and development particular in a western context But does recent use of the word risk reducing the wide range of meanings of discipleship to something less rich and inclusive than is warranted With contributions from an array of leading thinkers scholars and theologians including Rachel Mann Kirsteen Kim and Anthony Reddie this book argues that there is need for more clarity precision and depth in defining what meaningfully and constructively is construed as discipleship Beginning with an overview of how the concept of discipleship has been understood in history the volume goes on to consider some of the key figures who have shaped our

understanding of the concept and finally to reflect on what discipleship might look like in contemporary society
