

Understanding intermediate care, including reablement

A quick guide for people using intermediate
care services

*Intermediate care services help
people recover, regain independence
and remain at home*

Making Sense Of Intermediate Care

**Margot Gosney, Adam Harper, Simon
Conroy**

Making Sense Of Intermediate Care:

Intermediate and Continuing Care Brenda Roe,Roger Beech,2008-04-15 Intermediate care comprises strategies which allow early discharge from acute care prevent admission or re admission to acute care and avoid bed blocking in both acute and long term residential care It encompasses a range of short term options including rapid response hospital at home residential rehabilitation supported discharge and day rehabilitation Continuing Care is delivered on a long term basis in a variety of settings and often includes an element of rehabilitation Although these two types of care have distinct objectives they are interrelated as changes in the supply of one type of care may affect demands for the other In addition from a patient perspective intermediate and continuing care might be seen as part of the continuum of care options that are supplied to meet their needs This book argues for consideration of intermediate and continuing care as part of the care continuum that provides integrated care adopting whole system approaches This edited volume explores policy practice and current issues in intermediate and continuing care It will be of interest to all health and social care professionals involved in the provision and planning of care for older people It falls in three parts intermediate care continuing care and a shorter section on patient and public involvement and future directions

Intermediate Care of Older People Siân Wade,2006-02-22 Intermediate care has become a buzzword within health and social care over the last few years Seen as the panacea for a number of woes particularly for older people intermediate care has been held up as a way forward within contemporary health and social care This text explores in detail what is understood by the concept of intermediate care and in particular ways in which the needs of older people can be best met by this new range of services Initial discussion centres on the concept of intermediate care and the motives for its development This is followed by a summary of the range of intermediate care services that have been developed with a discussion of some of the confusion that surrounds the concept The debate then moves on to centre on older people discussing first why older people have come to be perceived as one of the main client groups that may benefit from intermediate care and then how intermediate care could be developed to better serve their needs An overview of ageing and the uniqueness of older people is then provided followed by an exploration of some of the challenges faced by older people within society and how this has extended into the delivery of health and social care

Medicaid Issues United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health and the Environment,1984

Making Sense of Intermediate Care John Unsworth,2004-05-31 A timely addition to the debate about intermediate care and informs members of the primary health care team about the developments of services and how they might be involved or affected by the changes

Home Health Care, 1983 United States. Congress. Senate. Committee on Labor and Human Resources,1984

The Dynamics of Care Eric Wolstenholme,Douglas McKelvie,2019-10-10 This book describes numerous projects which shed light on some of the most persistent issues of the day in health and social care The work demonstrates the importance of embedding the concept of flow into everyday health and social care thinking and creates insights into

patient journeys through different conditions and treatments It suggests that improving throughput across agencies is the key way to improving the performance of health treatment whereas increasing capacity is the key way to improving the performance of social care by retaining independent living The authors conclude that for state provided care balancing health and social care provision can eliminate the many stressful fire fighting strategies hospitals have to undertake when faced with high demands and this is a win win scenario in terms of patients staff and costs Further that there is a need for better understanding of the dynamics of population ageing the dynamics of health conditions and the provision of better integrated information systems The book will be a valuable resource for practitioners clinicians managers and academics in health social work public health and public policy in many countries In this important book Eric Wolstenholme and Douglas McKelvie bring two lifetimes of award winning experience in applying system dynamics to improving our very clinically advanced but often dysfunctional care systems David F Andersen O Leary Distinguished Service Professor Emeritus State University of New York Albany USA Health and social care suffer from some persistent and serious problems which not only undermine well intended care but also impose considerable costs in many societies This very welcome and exceptional book offers the hope of sound and sustainable solutions to many of these issues Kim Warren Strategy Dynamics London UK

Medicare and Medicaid Guide ,1969 **Geriatric Medicine: an evidence-based approach** Frank Lally,Christine Roffe,2014-10-02 People are living longer and the population over the age of 60 is burgeoning with repercussions for health services and healthcare expenditure in developed countries Crucially disease aetiology diagnosis and treatment in older people differ from the general adult population Older people often have complicated co morbidities and respond to treatment in different ways compared to younger people Evidence of efficacy of different treatments is often lacking because older people are under represented in clinical trials and the specific needs of older people are rarely discussed specifically in more general texts Geriatric medicine an evidence based approach is a clinical reference for health care professionals who manage older patients and summarizes up to date research literature in a style that can be directly applied by busy healthcare professionals and provide a useful resource for reference **Non-Invasive Respiratory Support, Third edition** Anita K. Simonds,2012-12-11 The field of non invasive ventilation continues to expand rapidly since publication of the second edition of Non Invasive Respiratory Support new controversies have arisen and numerous practical guidelines have been issued This expanded third edition with new international contributors has been fully revised and updated It builds on the success

Oxford Desk Reference: Geriatric Medicine Margot Gosney,Adam Harper,Simon Conroy,2012-07-12 With an ageing population there is little doubt that the majority of hospital based consultants and their teams will care for older patients and the many complications this presents This book provides an evidence based guide for both trainees and consultants in geriatric medicine and those interested in geriatric medicine Designed in line with the core Royal College curriculum it provides a comprehensive and relevant guide to the issues seen in everyday geriatric medicine practice across the world

Presented in an easy to use double page spread format highly bulleted and concise Oxford Desk Reference Geriatric Medicine is ideal for quick referral for both trainees and consultants Contributions from the leading figures in geriatric medicine throughout the world make this book indispensable for all those working in the field and for all those who have to deal with older patients

Problems of the Aging United States. Congress. House. Committee on Government Operations. Special Studies Subcommittee,1972

Assuring Quality of Care in Nursing Homes Participating in Medicare and Medicaid United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Federal Spending Practices and Open Government,1979

Perspectives on Rehabilitation and Dementia Mary Marshall,2005 This book offers new insights into the application of a well established approach to people who have traditionally been thought not to benefit from them It demonstrates that rehabilitation has positive outcomes for people with dementia s quality of life and self esteem especially if rehabilitation is seen as a positive philosophy of practice

OECD Reviews of Health Care Quality: Portugal 2015 Raising Standards OECD,2015-05-27 This report reviews the quality of health care in Portugal seeks to highlight best practices and provides a series of targeted assessments and recommendations for further improvements to quality of care

Health Care of the Aged Abraham Monk,2014-02-04 Focusing on the need for developing new service delivery models for the aged Health Care of the Aged examines fiscal political and social criteria influencing this challenge of the 1990s The aged are caught in the sweeping changes currently occurring in the financing organizing and delivery of human and health care services From various perspectives this new book will help shape the direction for elderly health care program development and implementation With an emphasis on greater long term care in either home community or institutional settings this important book will increase the understanding for a comprehensive effective policy designed to carry the growing number of elderly through this decade and into the next As roles and issues change this valuable book will become increasingly important to those involved in providing services and care to the elderly Health care administrators policymakers social workers physical and occupational therapists and caregivers will benefit from the expertise presented in Health Care of the Aged

Trends in Long-term Care United States. Congress. Senate. Special Committee on Aging. Subcommittee on Long-Term Care,1970

Surviving Your Placement In Health And Social Care: A Student Handbook Healey, Joan,Spencer, Margaret,2007-12-01 This book provides a comprehensive account of the issues concerning students placements It is well structured and represents great value Social Policy and Social Work SWAP This attractive workbook provides a wealth of tools and top tips for students of health and social care struggling to survive the demands of 21st century practice placements The authors artfully distil their knowledge experience and expertise in placement learning in order to accompany the student on their journey from novice to qualified professional Stephanie Hobson Head of Practice Education Oxford Brookes University I found the text to be set at a good level for new students of nursing allied health and social care especially for the early placements in their programme of study In an easy and engaging

style the book offer a range of useful tools to helps students make the most and get the best from their placement experiences I would be happy to recommend this to students on a range of courses George Bell Northumbria University UK As students in health and social care professions you will spend up to half of your time out on placement This accessible and practical book is designed to help you make the most of this invaluable learning experience and is suitable for use in all areas of practice whether you are training to be a nurse midwife occupational therapist social worker or physiotherapist In student friendly language it covers all the main areas of placement learning including Developing a learning contract Reflective practice Using supervision Managing time Evidence based practice Capturing your learning in a personal and professional portfolio Failing placements This book of highly practical chapters provides reflection exercises questions tests ideas and tools to use on your placement case studies to read and practical tips throughout to help you achieve your best on placement in whatever area of practice you are in Surviving Your Placement in Health and Social Care is key reading for all health and social care students including nurses social workers physiotherapists occupational therapists and radiographers amongst other

Hearings, Reports and Prints of the Senate Special Committee on Aging United States. Congress. Senate. Special Committee on Aging,1967 Trends in Long-term Care: Washington, D.C., Oct. 11, 1973 United States. Congress. Senate. Special Committee on Aging. Subcommittee on Long-Term Care,1970 Beyond Self-Care for Helping Professionals Lisa D. Hinz,2018-09-03 Beyond Self Care for Helping Professionals is an innovative guide to professional self care focused not just on avoiding the consequences of failing to take care of oneself but on optimal health and positive psychology This new volume builds upon the Expressive Therapies Continuum to introduce the Life Enrichment Model a strengths based model that encourages mindful participation in a broad array of enriching experiences By enabling therapists and other Helping Professionals to develop a rich emotional intellectual and creative foundation to their lives and clinical practices this guide sets a new standard for self care in the helping professions
