Making Sense Of The Media A Handbook Of Popular Education Techniques:

Making Sense of the Media Eleonora Castaño Ferreira, João Paulo Castaño Ferreira, 1997 It draws on students own experiences to develop their creativity imagination and critical skills In Making Sense of the Media the authors demonstrate how teachers can use Freire s techniques to deal with the enormous challenges of multicultural education in this country

Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Visual Pedagogy Brian Goldfarb, 2002-10-18 Critiques some deployments of media in education in and out of school while exploring progressive possibilities in others **Laboring to Learn** Lorna Rivera, 2008-08-22 The struggle for literacy education and employment for women during welfare reform **Critical Media Pedagogy** Ernest Morrell, Rudy Duenas, Veronica Garcia, Jorge Lopez, 2015-04-25 This practical book examines how teaching media in high school English and social studies classrooms can address major challenges in our educational system The authors argue that in addition to providing underserved youth with access to 21st century learning technologies critical media education will help improve academic literacy achievement in city schools Critical Media Pedagogy presents first hand accounts of teachers who are successfully incorporating critical media education into standards based lessons and units The book begins with an analysis of how media have been conceptualized and studied it identifies the various ways that youth are practicing media as well as how these practices are constantly increasing in sophistication Finally it offers concrete examples of how to develop a rigorous standards based content area curriculum that embraces new media practices and features media production

Dollars & Sense , 1998 *Theory and Educational Research* Jean Anyon, 2008-08-18 Most empirical researchers avoid the use of theory in their studies providing data but little or no social explanation Theoreticians on the other hand rarely test their ideas with empirical projects As this groundbreaking volume makes clear however neither data nor theory alone is adequate to the task of social explanation rather they form and inform each other as the inquiry process unfolds Theory and Educational Research bridges the age old theory research divide by demonstrating how researchers can use critical social theory to determine appropriate empirical research strategies and extend the analytical critical and sometimes emancipatory power of data gathering and interpretation Each chapter models a theoretically informed empiricism that places the data research yields in constant conversation with theoretical arsenals of powerful concepts Personal reflections following each chapter chronicle the contributors trajectories of struggle and triumph utilizing theory and its powers in research In the end this rich collection teaches education scholars how to deliberately engage with critical social theory in research to produce

work that is simultaneously theoretically inspired politically engaged and empirically evocative Who Decides Who Becomes a Teacher? Julie Gorlewski, Eve Tuck, 2018-11-09 Who Decides Who Becomes a Teacher extends the discussions and critiques of neoliberalism in education by examining the potential for Schools of Teacher Education to contest policies that are typical in K 12 schooling Drawing on a case study of faculty collaboration this edited volume reimagines teacher preparation programs as crucial sites of resistance to and refusal of unsound education practices and legislation This volume also reveals by example how education faculty can engage in collaborative scholarly work to investigate the anticipated and unanticipated effects of policy initiatives on teaching and learning Civic Participation and Community Action Sourcebook Andy Nash, 2003 *Creating Alternative Discourses in the Education of Latinos and Latinas* Raul E. Ybarra, Nancy López, 2004 While Latinos and Latinas are the youngest and largest U S minority group they continue to be among the poorest and least educated A major contribution of *Creating Alternative Discourses in the Education of Latinos and Latinas* is that it provides scholars teachers and practitioners with counter hegemonic theories methods and pedagogies that challenge the mainstream assumptions about the education of this group Drawing on rich ethnographic portrayals including life history interviews focus groups and participant observation this interdisciplinary volume bridges diverse bodies of literature in an attempt to bring about changes in the education of Latinos and Latinas **MultiCultural Review**, 1997 **Barefoot Research** Margaret Keith, James Brophy, Peter Kirby, Ellen Roskam, 2002 Shows how workers with limited financial and technical resources can identify work security problems and ensure that they are tackled from a worker centred perspective Describes tools for collecting information inspections by workers surveys group discussions mapping etc and provides guidance on interpreting the information and taking action to improve workers lives Includes brief case studies from several countries **Media Literacy and Media Education Research Methods** Pierre Fastrez, Normand Landry, 2023-11-27 This handbook interrogates the foundations of media literacy and media education research from a methodological standpoint It provides a detailed illustrated overview of key methods used in the study of media literacy and media education Further it reveals the diversity of this research field and organizes this diversity by using three categories of investigation media practices educational initiatives and prescriptive discourses The book offers valuable reference points and tools for exploring the range of research methods used to study media literacy and media education and how these methods connect to epistemological stances theoretical frameworks and research questions It serves as a guide for researchers who wish to position themselves reflect on the methods they use or are considering using and compare and contrast them against alternative or complementary approaches After reading this book readers will be better able to identify and define the objects of study in media literacy and media education research the preferred ways of conducting investigations the phenomena issues and dimensions that these are likely to bring to light and the knowledge that they generate This comprehensive and up to date overview of the field of media literacy education research methods will be of great interest to
