Yearley,2004-11-11 Fluid readable and accessible I found the overall quality of the book to be excellent It provides an overview of major and preceding developments in the field of science studies It examines landmark works authors concepts and approaches I will certainly use this book as one of the course texts Eileen Crist Associate Professor Science Technology in Society Virginia Tech Science is at the heart of contemporary society and is therefore central to the social sciences Yet science studies has often encountered resistance from social scientists This book attempts to remedy this by giving the most extensive thorough and best argued account of the field and explaining to social scientists why science matters to them This is a landmark book that demystifies science studies and successfully bridges the divide between social theory and the sociology of science Illustrated with relevant illuminating examples it provides the ideal guide to science studies and social theory    *Making Sense of Society* Alex Khasnabish,2022-05-30T00:00:00Z Grounded in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo    **Making Sense of the Social World** Daniel F.
