Making Social Policy In Australia An Introduction:

Making Social Policy in Australia Tony Dalton, 1996 This work offers an introduction to the theory and practice of social policy making in Australia Using detailed case studies it discusses the ideas and values used by different groups to influence the policy process It shows how social policy is made in different organizations

Making Social Policy in Australia John Wiseman, 2020-09-28 Social policy affects everyone and is everyone's business Even if you do not receive welfare payments directly or indirectly you benefit from government services and funding Yet how are policies and programs actually developed Can social policy help us create a more just society This book offers an introduction to the theory and practice of social policy making in Australia Using detailed case studies it covers the ideas and values which inform the social policy process how different groups can influence policy making how social policy making takes place in social and political organisations the political nature of policy making Making Social Policy in Australia is the most up to date introduction to Australian social policy currently available and is essential reading for students and practitioners in human and community service work and government Tony Dalton Mary Draper and John Wiseman lecture in Social Work and Social Sciences at RMIT Melbourne Wendy Weeks lectures in Social Work and Social Policy at the University of Melbourne and is author in collaboration of Women Working Together Lessons from feminist women's services Each of the authors has been involved in policy debate and development for many years

Markets, Rights and Power in Australian Social Policy Professor Gabrielle Meagher, Susan Goodwin, 2015-04-30 The provision of social services in Australia has changed dramatically in recent decades raising a range of important questions about financial and democratic accountability who benefits who suffers and who decides This book explores these developments through rich case studies of a diverse set of social policy domains The case studies demonstrate a range of effects of marketisation including the impact on the experience of consumer engagement with social service systems on the distribution of social advantage and disadvantage and on the democratic steering of social policy

The Routledge International Handbook of Feminisms in Social Work Carolyn Noble, Shahana Rasool, Linda Harms-Smith, Gianinna Muñoz-Arce, Donna Baines, 2024-06-03 This handbook highlights innovative and affect driven feminist dialogues that inspire social work practice education and research across the globe The editors have gathered the many at times silenced feminist voices and their allies together in this book which reflects current and contested feminist landscapes through 52 chapters from leading feminist social work scholars from the many branches and movements of feminist thought and practice The breadth and width of this collection encompasses work from diverse socio political contexts across the globe including Central and South America Africa Asia the Middle East Europe North America Aotearoa New Zealand and Australia The book is divided into six parts as follows Decoloniality Indigeneity and Radical Theorising Feminist Social Work in Fields of Practice Academy and Feminist Research The Politics of Care Allyship Profeminisms and Queer Perspectives Social Movements Engaging with the Environment and the More than Human The

above sections present the diverse feminisms that have influenced social work which provides a range of engaging informative and thought provoking chapters These chapters highlight that feminists still face the battle of working towards ending gender based violence discrimination exploitation and oppression and therefore it is urgent that we feature the many contemporary examples of activism resistance best practice and opportunities to emphasise the different ways feminisms remain central to social work knowledge and practice It will be of interest to all scholars and students of social work and related disciplinary areas including the social and human sciences global and social politics and policy human rights environmental and sustainability programmes citizenship and women s studies *Global Nation?* John Wiseman,1998-11-13

Globalisation was one of the most ubiquitous buzzwords of the late twentieth century yet its meaning was often elusive Retrenchments trade alliances global warming currency devaluations and so on are often explained as unavoidable consequences of globalisation and even everyday things from the food we eat to the television we watch and the clothes we wear are apparently impacted upon by globalisation This 1998 book provides an accessible exploration of the meanings and implications of globalisation The discussion is carefully grounded in the changing social economic ecological and political relationships of Australia *Global Nation* also looks at a range of existing and potential responses to the globalisation process arguing that there may be alternatives even though we are increasingly told that there are not Rural social work Richard Pugh,Brian Cheers,2010-02-10 In much of the West the concerns of rural people are marginalised and rural issues neglected This stimulating book draws upon a rich variety of material to show why rural social work is such a challenging field of practice It incorporates research from different disciplines and places to provide an accessible and comprehensive introduction to rural practice The first part of the book focuses upon the experience of rurality The second part of the book turns to the development of rural practice reviewing different ways of working from casework through to community development This book is relevant to planners managers and practitioners not only in social work but also in other welfare services such as health and youth work who are likely to face similar challenges Disability and Neoliberal State Formations Karen Soldatic,2018-08-06 *Disability and Neoliberal State Formations* explores the trajectory of neoliberalism in Australia and its impact on the lives of Australians living with disability including Aboriginal and Torres Strait Islander peoples It examines the emergence intensification and normalisation of neoliberalism across a 20 year period distilling the radical changes to disability social security and labour market law policy and programming and the enduring effects of the incremental tightening of disability eligibility carried out by Australian governments since the early 2000s Incorporating qualitative interviews with disabled people disability advocates services and the policy elite alongside extensive documentary material this book brings to the fore the compounding effects of neoliberal reforms for disabled people s wellbeing and participation The work is of international significance as it illustrates the importance of looking beyond the UK EU and the USA to critically understand the historical development and policy mobility of disability neoliberal retraction from smaller

economies such as Australia to the global economic centre Rhetorics of Welfare K. Brown, S. Kenny, B. Turner, J. Prince, 2000-04-19 The book explores comparatively the role of non profit organizations in conditions of social and economic change The focus of the study is an investigation of the proposition that non profit organizations provide sites and processes for enhancing active citizenship invigorating the public sphere and extending political participation The study explores the economic constraints on voluntary associations and argues that they can function as schools of democracy This book is the first national study of the third sector in Australia but its conclusions have a general relevance to deregulated welfare societies in Europe and North America **Engaging with Social Work** Christine Morley, Phillip Ablett, Selma Macfarlane, 2019-01-17 Equips students with a critical perspective and develops their understanding of social work practice

Social Policy and Discourse Analysis Greg Marston, 2004 Despite the fact that policy is increasingly led by the mass media social policy research has so far focused on variables and quantitative measurement rather than cultural meanings and moral welfare debates Taking a critical examination of social policy on public housing by way of illustration this book demonstrates how critical discourse theory can be used in applied research It shows how the theory and method of critical discourse analysis can be worked together in an intricate and accessible way *Health Planning* Kathy Eagar, 2020-08-12 This book is destined to become a classic in its field Sidney Sax Chairman Ethics Committee Australian Institute of Health and Welfare former Director of Health Services Planning and Research NSW The whys and hows are clearly and carefully explained for everyone involved in planning health services of all sizes in today s demanding climate No health planner should go to work without this book Tony Adams Professor of Public Health National Centre for Epidemiology and Population Health Australian National University Increasing concern about a positive return on investment in health leads to a need to make choices As a result skills in planning are increasingly being required of managers providers and policy makers in health care Experienced planners and teachers Kathy Eagar Pamela Garrett and Vivian Lin have written a comprehensive introduction that bridges the theory and practice of health planning They outline the health policy and planning context the impact of different resource allocation environments on planning and explain the processes and the technical skills needed to undertake service program corporate business and facility planning The authors also explore major challenges facing health planners including the growing role of market forces in health care the need to balance equity of access with equity of outcomes and the tension between planning for population health versus planning for more efficient health care delivery Illustrated with extensive case studies from both the public and private sectors *Health Planning* is an indispensable reference for health professionals and a valuable text for students **Australian National Bibliography** , 1996-05 **Power in the Global Era** T. Cohn, S. McBride, J. Wiseman, 2000-09-08 This volume discusses the effects of globalization on changing power relationships between transnational corporations TNCs and transnational capital the state and subnational groups TNCs have expanded their power with the deepening of market relations but they are not causing the state to wither away Indeed neoliberal changes often

occur with the permission or even encouragement of powerful states Transnational capital has weakened labour groups in order to make production more competitive but the disadvantaged groups may mobilise to counter the power of transnational capital Finally globalization is subjecting domestic policies to increased international scrutiny **Globalisation and its**

Discontents John Wiseman,2000-06-13 Most analyses of globalization convey the message that it is an unstoppable force sweeping away national sovereignty and inevitably creating a brave new world of borderless and boundless consumerism In such a context politics and democracy become irrelevant This collection of essays develops a more critical and grounded analysis of the nature and implications of globalization Many of the contributions to this book conclude that there are real political choices to be made Even though the economic context has changed politics still matters *Australia's Engagement*

with Economic and Social Rights Russell Solomon,2021-04-01 This book is a contemporary socio legal study of Australia s protection of economic and social rights Despite Australia s hortatory language of compliance with international rights standards its translation of these standards into domestic law and policy has been found wanting In considering Australia s compliance across the policy areas of health housing labour and social security it is argued that Australia s failings can be understood in terms of its institutional framework This framework provides incomplete legal protection for rights and leaves that protection almost exclusively in the realm of politics and policymaking an arena still dominated by neoliberalism and a political culture averse to the protection and promotion of economic and social rights *Handbook of European Social*

Policy Patricia Kennett,Noemi Lendvai-Bainton,2017-08-25 This Handbook will comprise of 29 original pieces from key contributors to the field of European social policy It is intended to capture the state of the art in European social policy and to generate and contribute to debates on the the future of European social policy in the 21st Century It will be a comprehensive and authoritative resource for research and teaching covering themes and policy areas including social exclusion pensions education children and family as well as mobility and migration multiculturalism and climate change

Understanding Violence and Abuse Heather Fraser,Kate Seymour,2020-07-10T00:00:00Z In *Understanding Violence and Abuse* Heather Fraser and Kate Seymour examine violence and abuse from an anti oppressive practice perspective and make connections between interpersonal violence and structural institutional and cultural violence Using case studies from Canada the U K the U S Australia Bangladesh India and elsewhere the authors discuss topics ranging from class oppression street violence white privilege war shame Islamophobia and abuse in intimate relationships as well as introduce the core tenets of anti oppressive social work practice They encourage readers to reflect upon hierarchies of identity and difference in relation to the ways in which violence and abuse are defined understood and addressed Further they discuss several responses to violence using an anti oppressive framework *APAIS 1991: Australian public affairs information service* , **Social Security Journal** ,1996
