

MAKING THE GRADE

Starring James Naughton, Alley Mills, and Steven Peterman

Making The Grade

Judd E. Hollander

Making The Grade:

Making the Grade Carl W. Bosch,1991 You must decide whether or not to tell your parents about your bad report card

Making the Grade Howard S. Becker,2017-07-05 Based on three years of detailed anthropological observation this account of undergraduate culture portrays students academic relations to faculty and administration as one of subjection With rare intervals in crisis moments student life has always been dominated by grades and grade point averages The authors of Making the Grade maintain that though it has taken different forms from time to time the emphasis on grades has persisted in academic life From this premise they argue that the social organization giving rise to this emphasis has remained remarkably stable throughout the century Becker Geer and Hughes discuss various aspects of college life and examine the degree of autonomy students have over each facet of their lives Students negotiate with authorities the conditions of campus political and organizational life the student government independent student organizations and the student newspaper and preserve substantial areas of autonomous action for themselves Those same authorities leave them to run such aspects of their private lives as friendships and dating as they wish But when it comes to academic matters students are subject to the decisions of college faculties and administrators Becker deals with this continuing lack of autonomy in student life in his new introduction He also examines new phenomena such as the impact of grade inflation and how the world of real adult work has increasingly made professional and technical expertise in addition to high grades the necessary condition for success Making the Grade continues to be an unparalleled contribution to the studies of academics students and college life It will be of interest to university administrators professors students and sociologists *Making the Grade* William A.

Fischel,2009-11-15 A significant factor for many people deciding where to live is the quality of the local school district with superior schools creating a price premium for housing The result is a race to the top as all school districts attempt to improve their performance in order to attract homebuyers Given the importance of school districts to the daily lives of children and families it is surprising that their evolution has not received much attention In this provocative book William Fischel argues that the historical development of school districts reflects Americans desire to make their communities attractive to outsiders The result has been a standardized interchangeable system of education not overly demanding for either students or teachers one that involved parents and local voters in its governance and finance Innovative in its focus on bottom up processes generated by individual behaviors rather than top down decisions by bureaucrats Making the Grade provides a new perspective on education reform that emphasizes how public schools form the basis for the localized social capital in American towns and cities **Making the Grade** Tony Wagner,2003-12-16 This book provides a guide for a long overdue

public dialogue about why and how we need to reinvent our nation s schools How has the world changed for our children what do all students need to know in light of these changes how do we hold students and schools accountable for results what do good schools look like and what must leaders do to create more of these schools These are some of the questions

that drive this book The answers emerging to these questions may surprise many The most successful public schools of the 21st century look a lot more like our 19th century village schools than our current factory model of schooling This book describes these new village schools that have been created in the last decade and suggests that they are a prototype for the schools of the future **Making the Grade** Bill Jones,Roy Johnson,1990 **Making the Grade** Mark Pruitt,2010-08 Want to dominate your college classes Making the Grade can help you learn more effectively earn killer grades and help you have an awesome college experience These short easy to read lessons can improve the way you take notes The way you study And The way you use your time When Mark Pruitt followed these techniques he made a 95% or higher in every class Let Mark help you get the most out of your college years TODAY *Making the Grade* Valeaira Luppens,Greg Foreman, For music teachers and substitute music teachers of grades 3 6 Lesson plans specifically target each of the nine MENC National Standards for Music Education Each standard is represented by a unit of creative lesson plans that incorporate folk classical and original music 55 lessons in all Every lesson clearly details the materials needed introduces the activity explains concepts and builds and reinforces students musical skills Reproducible student worksheets are included saving preparation time for the teacher while encouraging student thinking skills as well as musical skills Making the Grade: #1 Gary Fabbri,2022-12-15 Aiden is one of the smartest players on the field His active brain helps him to respond quickly to the action and anticipate the ball But that same overactivity doesn't translate to his schoolwork To him algebra is a foreign language and his English grade is slipping His scores are so low that if he doesn't improve he'll be dropped from the team Will Aiden make the grade or will he watch from the sidelines Aligned to Common Core Standards and correlated to state standards Claw is an imprint of Magic Wagon a division of ABDO **Making the Grade Reading, Grade 3** ,2019-08-27 Support your child's reading skills at home with Making the Grade Reading for Grade 3 Tailored to state learning standards this workbook provides practice for these basic reading skills spelling and vocabulary parts of speech and reading comprehension Easy to use this reading comprehension book for third grade supports a strong foundation in reading Before you know it your child will learn practice apply and master basic reading skills Making the Grade Reading workbooks will hold your child's attention with engaging colorful activities while providing quick practice to reinforce basic skills Each workbook in the Making the Grade series includes 48 pages packed with standards based activities to supplement the skills your child is learning at school Featuring easy to understand instructions and an answer key each book in the series allows your child to practice skills on his own The series offers grade specific titles for these main school subject areas Reading PK Grade 5 Math PK Grade 5 Basic Skills PK Grade 2 and Handwriting K Grade 5 With the Making the Grade series you can be positive that you'll select the exact workbook your child needs **Making the Grade Math, Grade 3** ,2019-08-27 Strengthen your child's math skills with Making the Grade Math for Grade 3 Created especially to follow state learning standards this workbook provides practice for these essential skills multiplication and division fractions and finding area and
