Joint-Use Libraries Rita Pellen, William Miller, 2014-06-11 In today s economic climate many libraries are work cooperatively and sharing facilities staffs and resources This book gives you practical examples of how to make joint use a POSITIVE reality The first book of its kind Joint Use Libraries presents nine examples of situations in which libraries of different types share a building In some cases one library takes the lead and staffs the operation In other cases two or more staffs inhabit the same building and divide the work This essential book illustrates the variety of ways that public libraries community college libraries and college university libraries have found to stretch their resources and better serve their users This book explores team based strategies for joint use libraries and shows how various libraries have addressed questions such as Which library s online catalog will be used How will costs for maintenance and utilities be shared and Will there be one integrated staff or separate staffs inhabiting the same building The libraries described range from a very small library shared by Front Range Community College and the City of Fort Collins Colorado to a mammoth new joint library now being built in San Jose California In Joint Use Libraries you ll encounter fascinating case studies of successful joint use that examine school libraries that double as public library facilities a county wide public library system in South Florida that has created partnerships with university community college public and private school libraries a joint library located on a Florida community college campus but also serving a major university another joint library on a Washington state campus that is shared by both a university and a community college with the university acting as primary provider of library services by contract with the community college a three way library in which a community college a university and a public library provide their own staffing collections and other resources to offer services in a small community where none of them alone could afford a first rate facility a complex situation in which St Petersburg College and the City of Seminole Florida are building a joint use facility which will serve not only the city and the college but will also serve the students of 14 other institutions of higher education a joint use library where one institution is clearly the senior

partner but a largely new integrated staff has been hired to minimize resistance to the new joint mission and to serve all users equally and more

The Works for Library and Media Center Management Janet Noll Naumer, Glenda B. Thurman, 1998 Designed to help the library media specialist use Microsoft Works software to automate library and media center management the handbook includes step by step examples for the database spreadsheet and word processing functions of Works Although the focus is on school media centers examples of applications for community college and public libraries are also included The diskette contains the templates used in examples Basic familiarity with computers is assumed Annotation copyrighted by Book News Inc Portland OR

Neal-Schuman Electronic Classroom Handbook Lisa Janicke Hinchliffe, 2001 The Neal Schuman Electronic Classroom Handbook was written for librarians or other professionals who are designing managing or teaching in an electronic classroom Although my perspective is that of an academic librarian the Handbook should also interest public and school librarians offering instruction programs and corporate librarians with training programs as well as administrators classroom designers computing staffs and activities planners Electronic classrooms are increasingly moving from being a luxury to becoming a necessity

Technology Made Simple Kimberly Bolan, Robert Cullin, 2007 Provides information on implementing technology services in a small or medium sized library

Documentation Abstracts, 1998

Technology for the School Librarian William O. Scheeren, 2010-01-22 The world of the school librarian has changed significantly over the past ten years with the proliferation of technology into all phases of education this book attempts to address these issues What does a school librarian need to know about technology Technology for the School Librarian Theory and Practice is an introduction to all aspects of technology in the school library and provides a starting point for further study of this wide ranging and critically important field The only book that addresses both the theoretical and the practical aspects of the subject Technology for the School Librarian is organized into 13 chapters describing the most vital topics in technology for school librarians Within these chapters school librarians whether practicing or prospective will be introduced to the practical aspects of technology in the school library and presented with a theoretical framework that will allow them to continue their research and learning Case studies facilitate understanding as do the study questions included with each chapter

Bulletin of the Medical Library Association Medical Library Association, 1998

Planning for Automation John M. Cohn, Ann L. Kelsey, Keith Michael Fiels, 1997 This revised edition is a comprehensive guide to the components of automation planning for libraries Updated with step by step techniques for assessing acquiring using and maintaining new technology the guide is suitable for libraries installing a system for the first time

Making the Most of New Technology Kathleen Imhoff, 1996 Technological change often appears to be bombarding us fast and furiously from every newspaper and news magazine Headlines and lead stories tout new machines new home delivery systems virtual reality multi media Internet 3DO CD ROM CDR and WORM Yet in this rapidly expanding technological world many libraries have less and less money to meet more and more demands for service This book should help libraries to carefully plant their

acquisition of new technology and offer essential service without wasting scarce resources Imhoff describes some of the changes coming to our world that will affect libraries and information delivery and provides coping tools and an in depth look at factors that will cause change and require technological planning She also explores possible roles libraries could choose to play in the future and explains how technologies might be involved The book includes an idea analysis worksheet that fosters efficient planning for technology changes and improvement of service to the client group Resources in Education,2000-10 **Library Developments** ,1995 **Computers in Libraries** ,1998 **Design and Implementation of Web-enabled Teaching Tools** Mary Hricko,2003-01-01 Exploring the myriad issues regarding web accessibility this book specifically focuses on the design and implementation of web enabled teaching tools Educators from across the United States and Canada present their ideas on such topics as legal implications overcoming organizational barriers and course designs for the electronic classroom Also discussed are special opportunities provided by web accessibility in education such as web based distance learning and teaching technology for blind or visually impaired faculty *Introduction to Health Sciences Librarianship* M. Sandra Wood,2008 Introduction to Health Sciences Librarianship covers a wide range of areas beyond traditional medical libraries This helpful guide provides an overview of the health care environment academic health sciences hospital libraries health informatics and more This single volume provides a sound foundation on health sciences libraries to students beginning and practicing librarians alike The Role of the Academic Librarian Anne Langley,Edward Gray,K T L Vaughan,2003-10-31 This book covers the practical side of being an academic librarian a role that has undergone a large degree of change in recent years It outlines and describes the skills necessary to succeed in these large and often complex organisations The book includes tools and techniques for an academic librarian for managing time meetings projects publishing and research communications paper and electronic the basics of supervision and how to work in a large organisation The impact of the growth of electronic formats on the role of the academic librarian are discussed in detail Explains how in practical terms to stay organised communicate successfully network and navigate through an often politicised environment Applies business practices to the field of librarianship Shows how to use organisational behaviour techniques to manage yourself and your work **The Industrial Museum, Library, and Exhibits of the Bureau of Education** Philippines. Bureau of Education,1913 Collection Development Maureen Pastine,2024-11-15 A guide to balancing traditional collection issues with electronic access and document delivery demands Collection Development Access in the Virtual Library helps librarians find solutions and approaches for dealing with changes occurring in interlibrary loan regional consortia commercial vendor relations and ownership versus access Its sophisticated analyses offer you clarity of vision the wisdom of experience and solid advice as you are transported into the virtual library environment with its variety of expectations service complexities and information technologies Interested in reducing local collecting costs while expanding the universe of information and knowledge available to your primary clientele Collection Development will show

you just how many options are out there for enhancing your virtual environment as it explores teaching your users advancing bibliographical retrieval and assessment methodologies the delivery of library resources electronically for distributed learning distance education conducting CD Rom collection development comparisons planning space for a more technologically oriented research environment enriching your on line catalog with contents pages and new indexing capabilities the impact of change and shifting paradigms on public services staffing the development of good electronic presentation design Still not convinced that this is the book you need to improve access in your library Think again Collection Development will help you with library control and ordering articles via commercial document delivery it will help you develop coherent and intuitive ways of organizing and presenting available electronic resources it will help you work with administrators and funding agents to attain a balance between traditional library resources and emerging information technologies and much much more *Bibliography of Agriculture* ,1998 **Managing Libraries And Information**

Centres: Strategies, Technologies, and Best Practices Champeswar Mishra , Managing Libraries and Information Centres Strategies Technologies and Best Practices is a comprehensive practical guide designed for library professionals information managers and students pursuing library and information science This book explores the evolving role of libraries and information centres in the digital age emphasizing effective management strategies innovative technologies and globally recognized best practices Structured for both academic and professional use the book covers key areas such as planning staffing budgeting service delivery and digital resource management Readers will gain insight into modern tools and systems including automation integrated library systems and digital archiving solutions With its clear accessible approach this book serves as an essential resource for navigating the challenges of managing libraries and information centres in a rapidly changing information landscape
