After all the arguments and conflicts growing cannabis has finally become legal or regulated in most states. As a result, the market to effectively and efficiently grow marijuana has rejoiced. Following all local laws, these pieces of equipment to grow marijuana make it easier and simpler for any existing and would-be marijuana grower to successfully grow the plant. LED grow lights are one of the relatively new instruments to grow the plant, and they are gaining popularity today because they are easy to use and set up, energy efficient, and can be utilized for the entire life cycle of the cannabis plant. Beyond that, LED grow lights are cost effective. With proper installation and maintenance, they can remain efficient for many years, reducing the need to spend time and cash on replacements. This book covers tips for growing cannabis, including LED grow lights. It aims to serve as a guide to both existing and would-be growers of the plant. At the end of the book, anyone is guaranteed to obtain the complete knowledge to growing one of the most controversial plants across the world.

Heroines of Horticulture Stefan White, 2024-10-28

A celebration and a salute to 100 brave, determined, creative women over the past few centuries who have shaped North America's heritage and landscapes through their horticulture work and contributions. Through tales of invention, creativity, dogged research, innovation, perspiration, and inspiration spanning from the early 1700s to the mid 1980s, *Heroines of Horticulture* offers readers insight into 100 influential women who met and overcame obstacles to contribute a horticulture legacy that has helped shape the land that surrounds us today in North America. Many of the featured women are unknown or forgotten figures of horticulture history, making this book an overdue opportunity to acknowledge their work and celebrate their achievements that have left a lasting legacy. Profiles include the following:

- Martha Danielle Logan 1704-1779: An early American botanist who was instrumental in seed exchanges between Britain and the North American colonies. She wrote an influential gardening advice column and was a major collector of plants endemic to the Carolinas.
- Annie Linda Jack 1839-1912: The first Canadian professional female garden writer. Upon her marriage, she had stipulated for 1 acre of land to be devoted to any department of horticulture; she chose the profits to be her own pocket money. She wrote about her experiences in the *Rural New Yorker* under the title *A Woman's Acre*. The American horticulturalist Liberty Hyde Bailey referred to Annie Linda Jack's garden as one of the most original gardens he knew.
- Mary Gibson Henry 1884-1967: An American botanist and plant collector from Lower Merion Township, Pennsylvania, near Philadelphia, who also served as president of the American Horticultural Society. The daylily *Hymenocallis henryae* is named in her honor.
- Nelva Weber 1908-1990: An American landscape architect who wrote extensively about landscape design. She opened her practice in 1945 in New York City. Prior to that, she worked on the Palisades Parkway with C. C. Combs. She was also employed by the architecture firm Shaw Maess.

Murphy and later as a designer on city parks for the New York City Parks Department And many more Heroines of Horticulture is the perfect addition to the shelves and coffee tables of gardening enthusiasts and women s history and feminist history readers and makes a great gift for anyone with a love of gardening or landscape design and history
