Making Things Perfectly Queer

Peter M. Nardi, Beth E. Schneider

Making Things Perfectly Queer:

Making Things Perfectly Queer Alexander Doty, 1993 *Making Things Perfectly Queer* Alexander Doty, 1993 Doty demonstrates how queer readings can be performed by examining star images like Jack Benny and Pee-wee Herman women centered sitcoms like *Laverne and Shirley* and *Designing Women* film directors like George Cukor and Dorothy Arzner and genres like the musical **Queering Italian Media** Sole Anatrone, Julia Heim, 2020-01-20 *Queering Italian Media* analyzes and offers queer readings of LGBTQIA representation in Italian media The contributors apply various understandings of queer and media as they discuss the relationship between the political and social lives of queer populations in Italy and investigate their representations in film news media television social media and viewer generated media sites *Queering Italian Media* examines queer positionality challenges notions of Italianness as it relates to and is reflected in media and queers understandings of viewer engagement and participation in media consumption and production

Spectatorship Roxanne Samer, William Whittington, 2017-10-25 Media platforms continually evolve but the issues surrounding media representations of gender and sexuality have persisted across decades *Spectatorship* The University of Southern California Journal of Film and Television Criticism has published groundbreaking articles on gender and sexuality including some that have become canonical in film studies since the journal's founding in 1982 This anthology collects seventeen key articles that will enable readers to revisit foundational concerns about gender in media and discover models of analysis that can be applied to the changing media world today *Spectatorship* begins with articles that consider issues of spectatorship in film and television content and audience reception noting how media studies has expanded as a field and demonstrating how theories of gender and sexuality have adapted to new media platforms Subsequent articles show how new theories emerged from that initial scholarship helping to develop the fields of fandom transmedia and queer theory The most recent work in this volume is particularly timely as the distinctions between media producers and media spectators grow more fluid and as the transformation of media structures and platforms prompts new understandings of gender sexuality and identification Connecting contemporary approaches to media with critical conversations of the past *Spectatorship* thus offers important points of historical and critical departure for discussion in both the classroom and the field

Buffoon Men Scott Balcerzak, 2013-10-01 Fans and scholars of film history gender studies and broadcast studies will appreciate Balcerzak's thorough exploration of the era's fascinating gender constructs **TARDISbound** Piers D. Britton, 2011-03-30 *Doctor Who* has always thrived on multiplicity unpredictability and transformation its worlds and characters kaleidoscopic and shifting and *Doctor Who*'s complexity has grown With its triumphant return to TV in 2005 it was made up of four different fictional forms across three different media with five actors simultaneously playing the eponymous hero *TARDISbound* is the first book to deal both with the TV series and with the audio adventures original novels and short story anthologies produced since the 1990s engaging with the common elements of these different texts and with distinctive

features of each TARDISbound places Doctor Who under a variety of lenses from examining the leading characteristics of these Doctor Who texts to issues of class ethnicity and gender in relation to the Doctor's other TARDIS crew members and the non-human inhuman beings they encounter TARDISbound also addresses major questions about the aesthetics and ethical implications of Doctor Who

Film Theory and Contemporary Hollywood Movies Warren Buckland, 2009-06-03
Film theory no longer gets top billing or plays a starring role in film studies today as critics proclaim that theory is dead and we are living in a post-theory moment. While theory may be out of the limelight, it remains an essential key to understanding the full complexity of cinema, one that should not be so easily discounted or discarded. In this volume, contributors explore recent popular movies through the lens of film theory, beginning with industrial economic analysis before moving into a predominately aesthetic and interpretive framework. The Hollywood films discussed cover a wide range from *300* to *Fifty First Dates*, from *Brokeback Mountain* to *Lord of the Rings*, from *Spider-Man 3* to *Fahrenheit 9/11*, from *Saw* to *Raiders of the Lost Ark* and much more. Individual essays consider such topics as the rules that govern new blockbuster franchises, the posthumanist realism of digital cinema, video game adaptations, increasingly restricted stylistic norms, the spatial stories of social networks like YouTube, the mainstreaming of queer culture, and the cognitive paradox behind enjoyable viewing of traumatic events onscreen. With its cast of international film scholars, *Film Theory and Contemporary Hollywood Movies* demonstrates the remarkable contributions theory can offer to film studies and moviegoers alike.

Social Perspectives in Lesbian and Gay Studies Peter M. Nardi, Beth E. Schneider, 2013-09-13
This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities. Through it, students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present, from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s. Bringing together classic readings and the best work of younger scholars from all parts of the English-speaking world, this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender. Separate sections cover theoretical foundations, identity and community, making institutions and social change, challenges for the future. Each section begins with an introduction giving readers a brief guide to the readings in that section, contextualises them, and relates them to one another, and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future.

How to Make Music in an Epidemic Matthew Jones, 2024-06-07
This volume examines responses to the epidemic of HIV/AIDS in Anglophone popular musicians and music video during the AIDS crisis, 1981-1996. Through close reading of song lyrics, musical texts, and music videos, this book demonstrates how music played an integral part in the artistic activist response to the AIDS epidemic, demonstrating music as a way to raise money for HIV/AIDS services, to articulate affective responses to the epidemic, to disseminate public health messages, to talk back to power, and to bear witness to the losses of AIDS. Drawing methodologies from musicology, queer theory, critical race studies, public health, and

critical theory the book will be of interest to a wide readership including artists activists musicians historians and other scholars across the humanities as well as to people who lived through the AIDS crisis Queerbaiting and Fandom Joseph Brennan,2019-12-01 In this first ever comprehensive examination of queerbaiting fan studies scholar Joseph Brennan and his contributors examine cases that shed light on the sometimes exploitative industry practice of teasing homoerotic possibilities that while hinted at never materialize in the program narratives Through a nuanced approach that accounts for both the history of queer representation and older fan traditions these essayists examine the phenomenon of queerbaiting across popular TV video games children s programs and more Contributors Evangeline Aguas Christoffer Bagger Bridget Blodgett Cassie Brummitt Leyre Carcas Jessica Carniel Jennifer Duggan Monique Franklin Divya Garg Danielle S Girard Mary Ingram Waters Hannah McCann Michael McDermott E J Nielsen Emma Nordin Holly Eva Katherine Randell Moon Emily E Roach Anastasia Salter Elisabeth Schneider Kieran Sellars Isabela Silva Guillaume Sirois Clare Southerton Encyclopedia of Diversity and Social Justice Sherwood Thompson,2014-12-18 The Encyclopedia of Diversity and Social Justice contains over 300 entries alphabetically arranged for straightforward and convenient use by scholars and general readers alike This reference is a comprehensive and systematic collection of designated entries that describe in detail important diversity and social justice themes Thompson assisted by a network of contributors and consultants provides a centralized source and convenient way to discover the modern meaning richness and significance of diversity and social justice language while offering a balanced viewpoint This book reveals the unique nature of the language of diversity and social justice and makes the connection between how this language influences negatively and positively institutions and society The terms have been carefully chosen in order to present the common usage of words and themes that dominate our daily conversations about these topics Entries range from original research to synopses of existing scholarship These discussions provide alternative views to popular doctrines and philosophical truths and include many of the most popular terms used in current conversations on the topic from ageism to xenophobia This reference covers cultural social and political vernacular to offer an historical perspective as well With contributions from experts in various fields the entries consist of topics that represent a wider context among a diverse community of people from every walk of life **The Dread of Difference** Barry Keith Grant,2015-04-01 The Dread of Difference is a classic Few film studies texts have been so widely read and so influential It s rarely on the shelf at my university library so continuously does it circulate Now this new edition expands the already comprehensive coverage of gender in the horror film with new essays on recent developments such as the Hostel series and torture porn Informative and enlightening this updated classic is an essential reference for fans and students of horror movies Stephen Prince editor of The Horror Film and author of Digital Visual Effects in Cinema The Seduction of Reality An impressive array of distinguished scholars gazes deeply into the darkness and then forms a Dionysian chorus reaffirming that sexuality and the monstrous are indeed mated in many horror films Choice An extremely useful introduction to recent

Reconsidering Flannery O'Connor Alison Arant, Jordan Cofer, 2020-11-24 Contributions by Lindsay Alexander Alison Arant Alicia Matheny Beeson Eric Bennett Gina Caison Jordan Cofer Doug Davis Doreen Fowler Marshall Bruce Gentry Bruce Henderson Monica C Miller William Murray Carol Shloss Alison Staudinger and Rachel Watson The National Endowment for the Humanities has funded two Summer Institutes titled Reconsidering Flannery O'Connor which invited scholars to rethink

approaches to Flannery O'Connor's work Drawing largely on research that started as part of the 2014 NEH Institute this collection shares its title and its mission Featuring fourteen new essays Reconsidering Flannery O'Connor disrupts a few commonplace assumptions of O'Connor studies while also circling back to some old questions that are due for new attention The volume opens with New Methodologies which features theoretical approaches not typically associated with O'Connor's fiction in order to gain new insights into her work The second section New Contexts stretches expectations on literary genre on popular archetypes in her stories and on how we should interpret her work The third section lovingly called Strange Bedfellows puts O'Connor in dialogue with overlooked or neglected conversation partners while the final section O'Connor's Legacy reconsiders her personal views on creative writing and her wishes regarding the handling of her estate upon death With these final essays the collection comes full circle attesting to the hazards that come from overly relying on O'Connor's interpretation of her own work but also from ignoring her views and desires Through these reconsiderations some of which draw on previously unpublished archival material the collection attests to and promotes the vitality of scholarship on Flannery O'Connor

Straight Korean Female Fans and Their Gay Fantasies Jungmin Kwon, 2019-02-15 This book is about ardent Korean female fans of gay representation in the media their status in contemporary Korean society their relationship with other groups such as the gay population and above all their contribution to reshaping the Korean media's portrayal of gay people Jungmin Kwon names the Korean female fandom for gay portrayals as FANTasy subculture and argues that it adds to the present visibility of the gay body in Korean mainstream media thus helping to change the public's perspective toward sexually marginalized groups The FANTasy subculture started forming around text-based media such as yaoi fan fiction and U.S. gay-themed dramas like *Will Grace* and has been influenced by diverse social, political, and economic conditions such as the democratization of Korea, an open policy toward foreign media products, the diffusion of consumerism, government investment in the culture, the Hollywoodization of the film industry, and the popularity of Korean culture abroad While much scholarly attention has been paid to female fandom for homoerotic cultural texts in many countries, this book seeks to explore a relatively neglected aspect of the subculture: its location in and influence on Korean society at large

Queering Families of Origin Chiara Bertone, Maria Pallotta-Chiarolli, 2016-04-14 This book provides an original insight into how families of origin of Gay, Lesbian, Bisexual, and Transgender (GLBT) people are involved in negotiating meanings and experiences of sexuality and intimacy, an underexplored dimension of queer family life Delving into the perspectives of families of origin and showing the complexity and heterogeneity of the ways people with their different gender and sexual identities do families across generations, it contributes to queering the very distinction between families of origin and families of choice and questions the heteronormative assumptions about forms and boundaries of family. This distinction rests upon a focus on marginal contexts such as Southern Europe and on marginal subjects like bisexuals or black lesbians is proposed as a way to challenge the universality of privileged narratives within heteronormativity, homonormativity, and anglocentrism and to reveal

unexpected resources families of origin use to make sense of GLBT identities and lived experiences The book poses a crucial question how can alliances along family ties develop on the basis of shared stories of family diversity and marginalised identities rather than of loving and normative support to GLBT people in need and an advocacy in their name from a position of heterosexual privilege This book was originally published in Journal of GLBT Family Studies Handbook of Lesbian and Gay Studies Diane Richardson, Steven Seidman, 2002-11-18 The creation of a new field of lesbian and gay studies over the past thirty years has been a fascinating project This volume brings together key authors in the field in 26 major essays and provides a clear sense of just how much has been achieved It is a guide to the state of the art and invaluable for scholars throughout the world Ken Plummer Professor of Sociology University of Essex and Editor of Sexualities This book is unique in lesbian and gay studies From politics to health cyber queers to queer families the review essays in this volume cover all the important bases of GLB history and politics The Introduction is a simple and accessible overview of the changing faces of theory and research over many decades This book is bound to be an important resource in a burgeoning field Janice Irvine Associate Professor of Sociology University of Massachusetts Amherst The Handbook of Gay and Lesbian Studies assembled by two leading theorists of sexuality makes available more than two dozen new cutting edge essays in gay studies Essential for social science scholars and students of gay queer studies David F Greenberg Professor of Sociology New York University With this benchmark work lesbian and gay studies comes of age Drawing from a rich team of global contributors and carefully structured to elucidate the core issues in the field it constitutes an unparalleled resource for teaching research and debate The volume is organized into 4 sections History and Theory This covers the roots of lesbian and gay studies the institutionalization of the subject in the Academy the naturalness of heterosexuality science and sexuality the comparative sociology of homosexualities and the heterosexual homosexual division Identity and Community This examines the formation of gay and lesbian identities communities and movements cyber queer research sexuality and space generational issues in lesbian and gay lifecycles and the subject of bisexuality Institutions This investigates questions of the governance of sexualities lesbian and gay health sexualities and education religion and homosexuality homosexuality and the law gay and lesbian workers homosexuality and the family and lesbian gay and queer encounters with the media and popular culture Politics This explores the formation of the gay and lesbian movements impact of globalization antigay and lesbian violence nationalism and transnationalism in lesbian and gay studies and sexual citizenship The result is an authoritative book that demarcates the field stimulates critical discussion and provides lesbian and gay studies with an enriching focal reference point It is quite simply a breakthrough work that will galvanize discussion and research for years to come Tomboys and Bachelor girls Rebecca Jennings, 2017-10-03 Using a rich array of oral histories and archival sources Tomboys and Bachelor Girls provides the first detailed academic study of lesbian identity and culture in post war Britain Described by psychiatrists as immature and neurotic and widely ignored as taboo by mainstream society lesbians nevertheless recognised and accepted

their same sex desire and sought out women like themselves Challenging the conventional picture of the post war decades as years of austerity and conservative femininity this book traces the emergence of a vibrant lesbian social scene in Britain centred on the metropolitan nightclubs of post war London but also developing across the country through lesbian magazines and social organisations This fascinating book brings to life the rich history of post war lesbian culture for the scholarly and general reader alike
