

# Making Schools Safe for All Students: Why Schools Need To Teach More than the 3 R's

Anne Wescott Dodd

**How much will video cameras and police patrols help when a student feels like an outsider? When the family is dysfunctional or too busy to pay attention? When teachers stress more homework and higher test scores? When the vice principal is quick to assign detention or suspension without asking the student to explain his side of the incident? When classmates make fun of or bully him?**

**T**he Columbine tragedy focused attention on the problem of violence in schools and quickly led to increased security measures, ranging from requiring students and staff members to wear ID badges and locking extra outside doors to installing metal detectors and assigning police officers to patrol the grounds. Educators had to do something, of course, but will adopting practices common in prisons make schools safer or just more secure? And if these steps will fall short, what else can schools do?

Many people expressed surprise to learn the identity of the shooters at Columbine and in some similar tragedies because they had been reasonably good students without a long history of problems in school. That no one predicted such students might explode with such disastrous consequences suggests that perhaps teachers and peers really didn't know them well at all. Do we need to worry about where else such embers of violence might be smoldering unseen? It is hard to know, given too many large schools; teachers with too many classes and too many students to do more than stress the academics; a societal culture that seems to condone—sometimes even idealize—violence; and a public that demands higher account-

*RADICALIZED SCHOOLS:* Dr. Armand A. Fusco, 2025-01-10 How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that is indoctrinating K 12 students who are being radicalized by promoting Critical Race Theory CRT with all of its various clones using different terms and phrases The issue with parents who are revolting against is how it is being done indoctrination and not choice and not age appropriate in the lower grades The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what is involved Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make Vol I provides the definitions of so many words and phrases because Critical Race Theory is a concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it is the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it is a political issue with Progressive Democrats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to

take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What s critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What s even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person s choice to deny reality as a way to avoid a psychologically uncomfortable truth moreso for others when it involves the racial agenda The options available to combat the radicalization are then provided To make matters far worse is that the time and attention being given to this agenda has the so called safe school plans collecting dust causing the publication of Does Your Child Attend a Safe School No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe Additionally reading and math scores have been in a steady decline with 30 35 million students scoring below proficiency can it be any worse
