Making Sense Of Collectivity Ethnicity Nationalism And Globalisation:

Making Sense Of Collectivity MALESEVIC S., Mark Haugaard, 2002-09-20 This is a new era where the very notion of collective identity is challenged

Making Sense of Collectivity Sinisa Malesevic, Mark Haugaard, 2002-09-20 The collapse of the Cold War the development of new technologies and the globalisation of the world economy have all had a dramatic impact on societies across the globe Migration new types of wars and changing borders mean that even the stability and security of nation states has become a thing of the past New nationalisms new social movements and the resurgence of identity politics all indicate that we are entering a new era where the very notion of collective identity through nation states or through transnational identity culture is challenged This volume examines concepts of collective identity how they are changing and what this means for our future With contributions from distinguished sociologists including Jenkins Eisenstadt Rex Bauman and Hall it gives a radical new overview of collectivity theory a topic that lies at the heart of sociology anthropology and political science

Forging Architectural Tradition Dragan Damjanović, Aleksander Łupienko, 2022-03-11 During the nineteenth century a change developed in the way architectural objects from the distant past were viewed by contemporaries Such edifices be they churches castles chapels or various other buildings were not only admired for their aesthetic values but also for the role they played in ancient times and their role as reminders of important events from the national past Architectural heritage often was and still is an important element of nation building Authors address the process of building national myths around certain architectural objects National narratives are questioned as is the position architectural heritage played in the nineteenth and the early twentieth centuries

Nationalism, Ethnicity and Boundaries Jennifer Jackson, Lina Molokotos-Liederman, 2014-11-13 Nationalism and ethnicity have become across time and space a force in the construction of boundaries This book analyses geographical and physical borders and symbolic political and socio economic boundaries and how they impact upon nationalism and ethnic identity Geographic and other tangible borders are critical components in the making and unmaking of boundaries However symbolic or intangible boundaries along national ethnic political or socio economic criteria are equally significant Organised into three sections on theory national and transnational case studies this book both introduces existing approaches to the study of boundaries and illustrates how it is possible to apply renewed boundary approaches to better understand nationalism and ethnicity in contemporary contexts Expert contributors in the field present detailed case studies on the UK Israel Estonia Latvia Ukraine and Kazakhstan and draw upon further examples from more than a dozen countries to provide a critical evaluation of the use of borders boundaries and boundary making in the study of nationalism and ethnicity This book will be of interest to students and scholars of International Politics Nationalism Racial and Ethnic Politics Ethnic Identity and Sociology

The Sociology of Ethnicity Sinisa Malesevic, 2004-05-25 This book offers an original synthesis of existing knowledge pointing forward in a manner that could influence a new generation s conception of the field and its agenda If it attracts the attention it merits it

could prove one of the most important books about ethnic and racial relations since the nineteen eighties Michael Banton Ethnic and Racial Studies Malesevic provides a thorough and balanced account of the sociological foundations of the study of ethnicity His presentation is as critical and engaging as it is easy to read and logically organized It is invaluable reading for sociologists Jon Fox British Journal of Sociology Spanning classical sociology to current debates The Sociology of Ethnicity synthesizes the leading sociological interpretations of ethnic relations and provides a coherent theoretical framework for its analysis In this thoughtful and accessible text Sinisa Malesevic assesses the explanatory strength of a range of sociological theories in understanding ethnicity and ethnic conflict While acknowledging that there is no master key or blue print to deal with each and every case of interethnic group relations The Sociology of Ethnicity develops the best strategy to bridge epistemological and policy requirements for interethnic group relations The Sociology of Ethnicity will be required reading for advanced undergraduates and postgraduates studying ethnicity and race in sociology and across the social sciences

The Ashgate Research Companion to Secession Peter Radan, 2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession

Affect, Interest and Political Entrepreneurs in Ethnic and Religious Conflicts Arthur A. Stein, Ayelet Harel-Shalev, 2019-10-23 In the current environment most political violence occurs between internal communities such as ethnic and religious groups rather than between states Such inter communal conflict threatens both internal political stability and interstate relations In this edited volume a multidisciplinary and multinational group of scholars analyze the bases of inter communal conflict and its domestic and international consequences

The authors focus on inter communal conflict through the lenses of political struggles in the Middle East and Asia which provide fertile grounds for assessing the viability of new social constructions and the continuing impact of ancestral ties. Containing theoretical regional and country studies the chapters tackle such issues as the implications of changes in the institutional rules for political competition how explanatory narratives for conflict are selected when multiple attributions are possible the bases of ideological conflict that have arisen within Islam the problems of ethnic competition that remain unresolved in powersharing arrangements the consequences for international relations when national boundaries do not circumscribe ethnic and religious communities and the subordination of women's interests to religious conflict and its resolution. Since identities are shaped by multiple qualities the contributions examine the role of ideologies institutions and politicians in shaping political cleavages communities and conflicts. This book was originally published as a special issue of *Ethnic and Racial Studies*.

Ethnicity and Everyday Life Christian Karner, 2007-05-07. Mixing theories of the everyday with a wide range of case studies this book explains the character of ethnicity from being a political tool of exclusion to a source of meaning and solidarity and the relationship between culture power and identity. Combining theories of the everyday with empirical case studies this book examines the dual character of ethnicity as a political tool of exclusion and source of meaning solidarity respectively the relationship between culture power and identity the significance of historical socio-economic contexts to ethnicity and everyday life. This book addresses many important questions through a critical application of theories of the everyday to a series of case studies that include travellers the South Asian diaspora contemporary Austria and asylum seekers in Fortress Europe. This book provides an accessible and coherent introduction to the sociology of ethnicity and will be essential reading for undergraduate students on cultural studies race and ethnic studies and sociology courses.

Constructing Nationalism in Iran Meir Litvak, 2017-04-21. Nationalism has played an important role in the cultural and intellectual discourse of modernity that emerged in Iran from the late nineteenth century to the present promoting new formulations of collective identity and advocating a new and more active role for the broad strata of the public in politics. The essays in this volume seek to shed light on the construction of nationalism in Iran in its many manifestations cultural social political and ideological by exploring on going debates on this important and progressive topic.

The SAGE Handbook of Nations and Nationalism Gerard Delanty, Krishan Kumar, 2006-06-14. With its list of distinguished contributors and its wide range of topics the handbook is surely destined to become an invaluable resource for all serious students of nationalism. Michael Billig Professor of Social Sciences at Loughborough University and author of *Banal Nationalism* SAGE 1995. The persistence some would say revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise. In response interest in the analysis of nationalism has increased and given rise to a great variety of new angles under which to study the phenomenon. What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and

confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topic included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

Extremist Mindsets and Strategies S. Clara Kim, 2021-06-08 Presenting an analysis of modern day extremism this book explores how any group of people or participants in a movement political ideological racial ethnonational religious or issue driven can adopt extremist mindsets if they believe their existence or interests are threatened Looking beyond fringe resistance groups already labeled as terrorists or subversives the author examines conventional organizations political parties religious groups corporations interest groups nation states police and the military that deploy extremist strategies to further their agendas Dynamics of mutual causation process between dominant and resistant extremist groups are explored including how resistant extremisms surface in response to oppressive and abusive measures advanced by the dominant groups to further their interests and maintain supremacy through systemic injustices as happens in slavery caste systems patriarchy colonialism autocracy exploitive capitalism and discrimination against minorities

Migrant World Making Sergio F Juárez, Julia Khrebtan-Hörhager, Michael Lechuga, Arthur Soto-Vásquez, 2023-12-01 For most migrants developing communication strategies in host countries is vital for finding social connections navigating the pressures of assimilation and maintaining links to their original cultures Migrant World Making explores this process of constructing a homeplace by creating a network of communication tools and strategies to connect with multiple communities Since what it means to be a migrant differs from person to person the contributors to this edited collection showcase

numerous practices migrants adopt to communicate and connect with others as they forge their own identities in globalized yet highly nationalistic societies With varying aspirations and motives for seeking new homes migrants build communities by telling stories engaging in social media activism protesting writing scholarly criticism and using many other modes of communication To match this variety the transnational scholars represented here use a wide array of rhetorical cultural and communication methodologies and epistemologies to describe what the experience of migration means to those who have lived it

The Northern Ireland experience of conflict and agreement Robin Wilson, 2018-07-30 The Northern Ireland Experience of Conflict and Agreement presents a salutary warning to the international community against the fashionable view that there is an Irish model which can be exported to cauterise ethnic troubles around the globe The book draws on extensive archive research in London and Dublin on the 1970s power sharing experiment and on interviews with senior officials and political figures from the two capitals as well as reconciliation practitioners about the negotiation and chequered implementation of the Belfast agreement It shows how stereotyped conceptions of the problem as a product of ancient hatreds allied to solutions based on Realpolitik have failed to transform Northern Ireland from a fragile peace following the exhaustion of protracted paramilitary campaigns to genuine reconciliation The book concludes with practical proposals for constitutional reforms which would favour genuine power sharing rather than merely sharing power out and set Northern Ireland on the road to the normal civic society its long suffering residents desire It will be essential reading not only for academics and postgraduates interested in ethnic conflict but also for policy makers who confront it in practice

When is the Nation? Atsuko Ichijo, Gordana Uzelac, 2005-11-17 This new collection of key authors on nationalism presents the latest thinking on this fundamental aspect of Politics International Relations and Sociology John Breuilly Walker Connor Steven Grosby Eric Hobsbawm Anthony D Smith and Pierre van den Berghe comprehensively explain and address the key contemporary question in nationalism studies of when is the nation or what point in a nation s history is it born with authority and freshness Our world is still deeply imbedded in the language and practice of nations and nationalism and they remain central parts in understanding human society This comparison and contrast of the main approaches reveals their strengths and weaknesses This new text introduces the main schools of thought with clarity and concision tackles the most pertinent questions in nationalism delivers both theoretical and empirical perspectives uses an innovative new interactive debate format with questions and answers presents key case studies bringing theory to life The inclusion of case studies gives the reader fresh insight into specific nations and national groups including The United States Greece England and Fiji The accessible debate format puts main theories and thinkers to the test enabling the reader to interact with the issues directly This unique volume is an invaluable resource for students and scholars of nationalism ethnicity and global conflict

European Anti-Discrimination and the Politics of Citizenship C. Bertossi, 2006-11-28 This book looks at transformations in citizenship politics in the EU Member States It argues that the anti discrimination agenda in the Treaty of Amsterdam has

affected traditional patterns of national integration of ethnic minorities and migrants in Europe Comparing France and Britain it also looks at religious factors and Islam in Europe Troubling Sociological Concepts Martyn Hammersley, 2020-08-26 Sociology addresses challenging social issues and seeks new ways to understand them However much sociological terminology suffers from multiple vague or uncertain meanings This is true of many of the central terms that sociologists use such as power ideology culture social class and even society The result is that the conclusions reached by sociological investigations are frequently subject to discrepant interpretations and their validity is difficult to assess The chapters in this book address several of the key terms employed by sociologists examining the concepts associated with them in depth from both an historical and an analytical perspective The aim is not to develop an entirely new framework but rather to document the various meanings associated with these terms and to suggest ways in which they could be refined or developed for the purposes of sociological analysis Since the concepts addressed are of wide relevance Troubling Sociological Concepts will be of interest and use to researchers and students across the social sciences **Renouveler la démocratie** Raymond Boudon, 2006-10-12 Comment sortir du tout se vaut qui fait le lit du n importe quoi Comment renouer avec l'idée qu'il existe une rationalité commune tous par-delà les clivages individuels et culturels C'est le fondement même de la vraie démocratie Pour Raymond Boudon le relativisme ambiant fournit un terreau favorable une conception cynique des relations sociales et politiques la réapparition des fondamentalismes Il nourrit le désarroi Il légitime les confusions entre la morale et la politique la foi et la raison le privé et le public La démocratie n'est plus alors qu'un système dominé par les conflits d'intérêts et la raison du plus fort Face à cette perte de repères on comprend que les lites semblent comme garées et se laissent surtout guider par les minorités actives et par l'opinion Une analyse en profondeur des sources de la crise politique que traverse notre civilisation Raymond Boudon est membre de l'Académie des sciences morales et politiques et professeur maître à l'université Paris Sorbonne Il a notamment publié L'Inégalité des chances L'Art de se persuader Le Juste et le Vrai Dilemme de la morale dilemme des valeurs ainsi que Tocqueville aujourd'hui Pourquoi les intellectuels n'aiment pas le libéralisme et Pourquoi il y a-t-il encore une sociologie The Sociology of War and Violence Siniša Malešević, 2010-06-10 War is a highly complex and dynamic form of social conflict This book demonstrates the importance of using sociological tools to understand the changing character of war and organised violence The author offers an original analysis of the historical and contemporary impact that coercion and warfare have on the transformation of social life and vice versa Although war and violence were decisive components in the formation of modernity most analyses tend to shy away from the sociological study of the gory origins of contemporary social life In contrast this book brings the study of organised violence to the fore by providing a wide ranging sociological analysis that links classical and contemporary theories with specific historical and geographical contexts Topics covered include violence before modernity warfare in the modern age nationalism and war war propaganda battlefield solidarity war and social stratification gender and organised violence and the new wars debate **Language Policy and**

Nation-Building in Post-Apartheid South Africa Jon Orman, 2008-08-27 The preamble to the post apartheid South African constitution states that South Africa belongs to all who live in it united in our diversity and promises to lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law and to improve the quality of life of all citizens This would seem to commit the South African government to amongst other things the implementation of policies aimed at fostering a common sense of South African national identity at societal development and at reducing of levels of social inequality However in the period of more than a decade that has now elapsed since the end of apartheid there has been widespread discontent with regard to the degree of progress made in connection with the realisation of these constitutional aspirations The limits to liberation in the post apartheid era has been a theme of much recent research in the fields of sociology and political theory e.g. Luckham 1998 Robins 2005a Linguists have also paid considerable attention to the South African situation with the realisation that many of the factors that have prevented and are continuing to prevent effective progress towards the achievement of these constitutional goals are linguistic in their origin

Fascism and Political Theory Daniel Woodley, 2009-09-17 Fascism and Political Theory offers both students and researchers a thematic analysis of fascism focusing on the structural and ideological links between fascism capitalism and modernity Intended as a critical discussion of the origins and development of fascist ideology each chapter deals with a core substantive issue in political theory relevant to the study of fascism and totalitarianism beginning with an assessment of the current state of debate The emphasis on formal ideology in contemporary Anglo American historiography has increased our awareness of the complexity and eclectic nature of fascist ideologies which challenge liberalism and social democracy Yet in too many recent works a programmatic or essentialist reading of fascist ideology as a secular religion is taken for granted while researchers remain preoccupied with the search for an elusive fascist minimum In this book Woodley emphasizes that many outstanding questions remain including the structural and ideological links between fascism and capitalism the social construction of fascist nationalism and the origins of fascist violence in European colonialism This volume consolidates the reader's theoretical understanding and provides the interdisciplinary skills necessary to understand the concrete social economic and political conditions which generate and sustain fascism A timely critique of culturalist and revisionist approaches in fascism studies which provides a concise overview of theoretical debates between liberalism Marxism and poststructuralism this text will be of great interest to students of politics modern history and sociology
