## **Making Sense Of Fundholding The Busineb Side Of General Practice:**

General Practice for Lawyers Nigel Ineson,1996-09-14 This book describes the clinical and organisational aspects of general medical practice to assist lawyers particularly those involved in personal injury and professional negligence work It aims to describe orthodox and normal practice concentrating on areas of potential medical accidents It also identifies and clarifies the relevant issues involved in the preparation of expert reports      **General Practitioners Handbook** Norman Ellis,1997 Provides practice staff health service managers and pharmaceutical executives with clear and accessible guide to the finance management and organization of general practice      **The British National Bibliography** Arthur James Wells,1998      The Hospitals & Health Services Year Book and Directory of Hospital Suppliers ,1994      **BMJ** ,1995      The Practice Manager Michael Drury,2017-09-29 As soon as this book first appeared in 1990 it became the standard text for the new generation of practice managers with responsibility for implementing many of the radical changes taking place in general practice It required reprinting several times to satisfy demand and has since undergone two major revisions to ensure that it is up to date This Third Edition incorporates several new chapters and new contributors who reflect efficient and patient friendly practice and the continuing evolution of the NHS reforms Topics are presented in clear comprehensive and concise terms from which managers will derive confidence and understanding whether they use the book for background reading in the practice or as a textbook on the many training courses that have now adopted it      **The Dynamics of Public Policy** Adrian Kay,2006-01-01 this is a first rate book It draws on a wide range of reading philosophy economics and politics and teases out a number of important ideas for academics and postgraduates it surely will be essential reading and I think has pushed the study of public policy forward Michael Connolly Political Studies Review In The Dynamics of Public Policy Adrian Kay sets out the crucial methodological theoretical and empirical implications of two important trends in the social sciences a frequently expressed ambition for analysis of movies not stills and the regular observation that policy politics and governance is becoming more complex Beginning with a discussion of the centrality of temporality change and history to the social sciences he develops the provocative claim that existing models of the policy process are of limited value in understanding and explaining policy dynamics Instead the author argues that it is only through structured narratives that we can really understand and explain complex policy histories He sets out a methodology for structuring policy narratives and illustrates the claims of the book through four detailed case studies health policy and pharmaceutical regulation in the UK and agricultural policy and budget policy in the EU Adrian Kay s book will appeal to academics in the fields of policy analysis public administration and public sector management as well as political science and political theory      *Making Sense of Fundholding* Stephen Henry,David Pickersgill,1995 Fundholding is now an established component of the NHS This comprehensive authoritative reference to fundholding is for GPs practice managers and the industries and professions providing services to general practice      **British Book News** British Council,1992 Includes no 53a British wartime books

introductory text examines the public health practice of a range of professionals and includes case studies that span a variety  
of public health disciplines Key issues covered include the exploration of inter professional collaboration the implementation  
of current policies and the ways in which public health professionals address the root causes of ill health in areas such as  
poverty housing pollution unemployment and social exclusion     **The Doctors' Tale - Professionalism and Public Trust**  
Donald Irvine,2024-11-01 Sir Donald Irvine asks what further changes have to be made to the culture and regulation of  
medicine to make it as trustworthy as the public today expects As President of the General Medical Council between 1995  
and 2002 Sir Donald helped shape the changes that followed disasters like the deaths of babies at Bristol and the murders of  
Dr Harold Shipman In this frenetic period a new ethos of professionalism emerged embodying the concept of the autonomous  
patient and more robust transparent professional regulation founded on a partnership between the public and doctors Sir  
Donald discusses candidly the struggles in the profession and with successive Governments over the key issues He provides  
perspectives that are both startling and enlightening He criticises the British Medical Association for its past resistance to  
accept the need for change and explains why its role in the future must be radically different He calls for specific  
fundamental changes to the National Health Service and for Government to be separated from managing the provision of  
healthcare And he outlines the qualities that the bodies regulating doctors in the future must have to succeed In part a  
personal testimony in part a clarion call for doctors to secure the new culture and re establish public confidence The Doctors  
Tale is gripping and essential reading for everyone who cares about health     **Commissioning** Great Britain. Parliament.

The management function is practice based primary care and who performs it varies by practice While the number of  
practice managers increase and their role continues to unfold in response to NHS changes the development of practice  
management as a profession is contained if not constrained by GPs as both employers and as the dominant profession within  
primary care This stimulating review of the responsibilities opportunities and future prospects of management in primary  
care based on workshops with GPs and practice managers identifies their respective management development needs and  
the ways in which these might be met     **Chicago Medicine** ,1994     **Doctors Talking** Hellen Matthews,1998
