Making Sense of It All David H. Lund, 2003 For courses in Introduction to Philosophy and Problems of Philosophy and as a supplementary text for introductory courses in Metaphysics and Philosophy of Mind This brief engaging problems based approach to philosophic inquiry shows students why and how philosophic thought about fundamental problems in epistemology ontology and moral theory can aid in our attempt to make sense of it all It invites students to participate in thinking things through and encourages higher order thought the critical examination of views conceptual analysis integrative thought and the evaluation of arguments to actively engage students in Philosophy *An Introduction to Philosophical Inquiry* Joseph Margolis, 1968 [The Soul of Theological Anthropology](#) Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it **Making Sense of Education** David Carr, 2005-07-08 Making Sense of Education provides a contemporary introduction to the key issues in educational philosophy and theory Exploring major past and present conceptions of education teaching and learning this book makes philosophy of education relevant to the professional practice of teachers and student teachers as well of interest to those studying education as an academic subject The book is divided into three parts education teaching and professional practice issues concerning education the role of the teacher the relationship of educational theory to practice and the wider moral dimensions of pedagogy learning knowledge and curriculum issues concerning behaviourist and cognitive theories of learning knowledge and meaning curriculum aims and content and evaluation and assessment schooling society and culture issues of the wider social and political context of education concerning liberalism and communitarianism justice and equality differentiation authority and discipline This timely and up to date introduction assists all those studying and or working in education to appreciate the main philosophical sources of and influences on present day thinking about education teaching and learning [Making Sense of Mass Education](#) Gordon Tait, 2015-10-09 This second edition of Making Sense of Mass Education has been comprehensively updated and expands on the previous edition s structure of derailing traditional myths about education as a point of discussion It also features two new chapters on Big Data and Globalisation and what they mean

for the Australian classroom Philosophical Inquiry ,2005 *Exploring the Meaning of Life* Joshua W. Seachris,2012-09-04 Much more than just an anthology this survey of humanity s search for the meaning of life includes the latest contributions to the debate a judicious selection of key canonical essays and insightful commentary by internationally respected philosophers Cutting edge viewpoint features the most recent contributions to the debate Extensive general introduction offers unprecedented context Leading contemporary philosophers provide insightful introductions to each section **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association,2002 List of members in v 1 **Forthcoming Books** Rose Arny,2002 **Making Sense of Nietzsche** Richard Schacht,1995 In these essays by an acclaimed Nietzsche scholar Nietzsche emerges as no mere polemicist and iconoclast but rather as a genuine philosopher one of those rare thinkers whose thought opens the way to new understanding of things of great importance particularly with respect to human life and its enhancement Clearly explains some of the debates in Nietzsche scholarship Schacht does much to avoid professional tunnel vision and invite nonprofessionals to think about Nietzsche Kathleen Higgins author of Nietzsche s Zarathustra An excellent summary and response to the current Nietzsche wars I like the way that Schacht personally attempts to expound and explain Nietzsche and take on various would be experts and mistaken commentators Robert C Solomon Quincy Lee Centennial Professor University of Texas **Semantics and Social Science (Routledge Revivlas)** Graham MacDonald,Philip Pettit,2011-03-31 Originally published in 1980 this book examines the major issues in the philosophy of social science paying specific attention to cross cultural understanding humanism versus scientism individualism versus collectivism and the shaping of theory by evaluative commitment Arguing for a cross cultural conception of human beings the authors defend humanism and individualism and reject the notion that social inquiry is necessarily vitiated by an adherence to values Tom Stoppard Daniel Keith Jernigan,2012-11-08 Tom Stoppard is justly famous for his innovative theatrical techniques Daniel Jernigan argues that while much of Tom Stoppard s early work *Rosencrantz and Guildenstern Are Dead* and *The Real Inspector Hound* for instance is postmodern the remainder of his career essentially tracks backward from there becoming late modernist in the 1970s *Travesties* and fully modernist in the 80s and 90s *The Real Thing* and *Arcadia* This pattern also makes sense of Stoppard s recent and uncharacteristic foray into dramatic realism with *The Coast of Utopia* 2002 and *Rock n Roll* 2006 at which point the playwright seems to embrace the more straightforward rhetorical advantages of literary realism Inclusion, Diversity, and Intercultural Dialogue in Young People's Philosophical Inquiry Ching-Ching Lin,Lavina Sequeira,2017-07-20 The ever shifting cultural and linguistic landscapes in contemporary societies create new urgency for an intersectional thematic study of diversity philosophy and education As educators how do we transform the vision of cultural and linguistic diversity into a wealth of resources for learning How do we actively engage cultural and linguistic diversities in philosophical inquiry with young people How do we translate the philosophical notion of cultural and linguistic diversity into pedagogical practices The chapters in this book

respond to the task of teaching philosophy in the context of increased mobility in the new global reality By complicating the situated and fluid nature of contemporary classrooms this book challenges the normalizing tendency often associated with philosophy education Each chapter offers a unique perspective in understanding the profound embeddedness of philosophy education in broader sociocultural contexts and prioritizes diversity in the classroom community of inquiry By carefully incorporating a broad range of theoretical perspectives and empirical research this book provides a rich resource for school teachers and educators who wish to engage diverse learners in philosophical inquiry In doing so it reaffirms the value of philosophy education as a proactive approach to democratic education *American Book Publishing Record* ,2002

Nineteenth Century Prose ,2009 *Marxism* Amiya Bagchi,Amita Chatterjee,2015-06-03 This book offers a unique re conceptualization of Marxism in bringing together leading scholars across disciplines history philosophy economics politics sociology and literary and culture studies into one comprehensive corpus It demonstrates the engaging relevance of the perspectives and techniques of the analyses adopted by Karl Marx Frederick Engels and contemporary Marxists and will be immensely useful to scholars and researchers across social sciences as well as general readers interested in Marxism

Philosophy in Schools Sara Goering,Nicholas J. Shudak,Thomas E. Wartenberg,2013-03-05 All of us ponder the big and enduring human questions Who am I Am I free What should I do What is good Is there justice Is life meaningful but this kind of philosophical interrogation is rarely carefully explored or even taken seriously in most primary and secondary school settings However introducing philosophy to young people well before they get to college can help to develop and deepen critical and creative thinking foster social and behavioral skills and increase philosophical awareness *Philosophy in Schools An Introduction Philosophers and Teachers* is an invaluable resource for students and practitioners who wish to learn about the philosophy for children movement and how to work its principles into their own classroom activities The volume provides a wealth of practical information including how to train educators to incorporate philosophy into their daily lessons best practices and activity ideas for every grade level and assessment strategies With contributions from some of the best practitioners of philosophy for children *Philosophy in Schools* is a must have resource for students of philosophy and education alike

Philosophy Goes to the Movies Christopher Falzon,2014-07-31 Now emulated in several competing publications but still unsurpassed in clarity and insight *Philosophy Goes to the Movies An Introduction to Philosophy Third Edition* builds on the approach that made the two earlier editions so successful Drawing on many popular and some lesser known films from around the world Christopher Falzon introduces students to key areas in philosophy like Ethics Social and Political Philosophy The Theory of Knowledge The Self and Personal Identity Critical Thinking Perfect for beginners this book guides the reader through philosophy using illuminating cinematic works like *Avatar Inception Fight Club Wings of Desire Run Lola Run A Clockwork Orange Blade Runner Dirty Harry* and many other films The fully revised and updated Third Edition features an expanded introduction that provides a new discussion of the relationship between film and philosophy
