## **Making Silence Speak:**

**Making Silence Speak** André Lardinois, Laura McClure, 2018-06-05 This collection attempts to recover the voices of women in antiquity from a variety of perspectives how they spoke where they could be heard and how their speech was adopted in literature and public discourse Rather than confirming the old model of binary oppositions in which women's speech was viewed as insignificant and subordinate to male discourse these essays reveal a dynamic and potentially explosive interrelation between women's speech and the realm of literary production religion and oratory The contributors use a variety of methodologies to mine a diverse array of sources from Homeric epic to fictional letters of the second sophistic period and from actual letters written by women in Hellenistic Egypt to the poetry of Sappho Throughout the term voice is used in its broadest definition It includes not only the few remaining genuine women's voices but also the ways in which male authors render women's speech and the social assumptions such representations reflect and reinforce These essays therefore explore how fictional female voices can serve to negotiate complex social epistemological and aesthetic issues The contributors include Josine Blok Raffaella Cribiore Michael Gagarin Mark Griffith Andr Lardinois Richard Martin Lisa Maurizio Laura McClure D M O Higgins Patricia Rosenmeyer Marilyn Skinner Eva Stehle and Nancy Worman

**Making the Invisible Visible** M. J. Hardman, Anita Taylor, Catherine Wright, 2013-09-04 All that is human is mediated through language And because we learned the process of being human in a culture as we learned the language of that culture much that we learned remains invisible to us But even though invisible it guides what and how we learn and remember our perceptions our behaviors including communicative behaviors Throughout our lives that early language culture learning affects us all too often without our realizing The discoveries about that early learning that this book makes possible enable readers to see through their language and learn to live productively and engage fully in mutually fulfilling relationships This book talks back to the old adage Sticks and stones can break my bones but words can never hurt We show how words do hurt of course not by breaking bones but by damaging self confidence reputations livelihoods or provoking people to the point of breaking bones or worse We focus on the roles of gender in language in effective or failed communication We direct attention to invisible impacts of daily language use When the invisible becomes visible readers can see the many ways daily talk and interactions create and reinforce genders We explore how language functions its sources of power and why it resists change even when negative impacts are clear We explore how in part through hidden gendering English disadvantages many of its users and point to how the problems emerge in the ways gender functions in this supposedly non gendered language We describe how gendered language guides us to create and reinforce behaviors and relationships we do not intend We conclude with suggestions of how to use English to reflect egalitarian values [The SAGE Handbook of Gender and Communication](#) Bonnie J. **Jane Austen in the Context of Abolition** G. White, 2005-11-29 This wide ranging and convincingly argued study looks at the issues of and attitudes towards slavery in Jane Austen's later novels and culture and argues against Edward Said's critique of Jane Austen as a supporter of colonialism and slavery White suggests that Austen is both concerned and engaged with the issue and that novels such as Mansfield Park Emma and Persuasion not only presuppose the British outlawing of the transatlantic slave trade but also undermine the status quo of chattel slavery slavery's most extreme form

**Patterns of Dissonance** Rosi Braidotti, 2013-05-28 This book is a brilliant and timely analysis of the complex issues raised by the relation between women and philosophy It offers a critical account of a wide range of contemporary philosophical and feminist texts and it develops this account into an original project of critical feminist thought Braidotti examines contemporary French philosophy as practised by men such as Foucault and Derrida showing that they rely on a notion of the feminine in order to undermine classical thought which bears no direct relevance to the historical experience of women Braidotti then looks at the attempts of contemporary feminist thinkers in Europe and the United States to show the gendered nature of discursive power games She discusses the contributions of Luce Irigaray and many other feminist theorists to the understanding of sexual difference and of its implications for philosophy and politics This book will be of interest to students and researchers in women's studies feminist theory social theory cultural studies philosophy and literature and anyone interested in contemporary feminism and the relation between feminist theory post structuralism and psychoanalysis

reveals some surprisingly affinitive concerns rooted in their profoundly troubled relationship with the literary medium and an unceasing struggle for expression of an incoherent reality and a similarly unfathomable self. Situating Gadda and Beckett at the heart of the debate of late European modernism, this study not only contests the position of insularity frequently ascribed to both authors by critical consensus but it also rethinks some of Gadda's plurilingual and macaronic features by situating them in the context of the turn of the century *Sprachkrise* or crisis of language. In a close analysis of the primary texts which engages with the latest findings in empirical research, Wehling Giorgi casts fresh light on the central notions of textual and linguistic fragmentation and provides a new post-Lacanian analysis of the fractured self in Gadda's and Beckett's narrative.
