Pacifism Robert L. Holmes, 2016-12-15 In a world riven with conflict violence and war this book proposes a philosophical defense of pacifism It argues that there is a moral presumption against war and unless that presumption is defeated war is unjustified Leading philosopher of non violence Robert Holmes contends that neither just war theory nor the rationales for recent wars Vietnam the Gulf War the Iraq and Afghanistan Wars defeat that presumption hence that war in the modern world is morally unjustified A detailed comprehensive and elegantly argued text which guides both students and scholars through the main debates Just War Theory and double effect to name a few clearly but without oversimplifying the complexities of the issues or historical examples Nevertheless John Howard Yoder, 1992-04-10 John Howard Yoder's classic book first published in 1971 includes a treatment of Jewish pacifism bibliographies an index and three new appendixes Speaking Truth to Power Quaker Political Witness The Spectrum of Nonpacifist Postures and Nonviolent National Defense Alternatives Yoder points out assumptions strengths and shortcomings of each pacifist position He brings clarity to the many sided conversations about peace nonviolence war proliferation of arms and power politics

A Shuddering Dawn Ira Chernus, Edward T. Linenthal, 1989-08-17 Exploring the symbolic meanings of the Bomb this book excavates the depth dimension of the nuclear age Rather than adding to the many ethical commentaries asking whether or not there should be nuclear weapons the authors ask why there are nuclear weapons and a continuing arms race They also address the kinds of symbolic changes that must occur in order to reverse the build up of nuclear weapons The authors approach these questions from the perspective of academic research not from particular faith commitments asking the reader to envision different human responses to this technology human stances that can be illuminated by the creative insight of religious studies
