Making The Grade Evaluating And Judging Student Writing:

Making the Grade Ronald J. Cornfield, Etobicoke Board of Education, 1987 *A Casebook for English Teachers* Robert C. Small, Joseph E. Strzepek, 1988 *The Portfolio as a Learning Strategy* Carol J. Porter, Janell Cleland, 1995

The Portfolio as a Learning Strategy is Carol Porter and Janell Cleland's chronicle of three years of experimentation with portfolios. Their honest portrayal includes not just their successes but also their mistakes, all of which allowed them to learn with their students as they discovered the value of portfolios as a tool for reflection. Portfolios to them help students learn about themselves as learners. The text looks in depth at the curricular and instructional framework of a student-centered classroom. Learning strategies are described in detail and illustrated with student samples that demonstrate firsthand how portfolios can assist students in reflective self-evaluation.

Measuring Success Lynn Molyneux, 1996 **Global Voices** Joseph O'Beirne Milner, Carol Ann Pope, 1994

This book presents essays that reflect the dialogue and the spirit of conversation of the 1990 International Federation for the Teaching of English (IFTE) Conference in Auckland, New Zealand. The book begins with some of the impressions of the IFTE conference held by the classroom teachers, school administrators, writers, and scholars who attended it. Language diversity in the classroom is the focus of several essays in the second part of the book. Each essay in the second part of the book is followed by a response. The pairing of essays continues in the third section of the book where issues such as who controls curricula and who sets the standards for curricula are addressed. The third part of the book also discusses national curriculum movements in New Zealand and the United Kingdom. English as a Second Language pedagogies and international underpinnings of the whole language movement. The initial essay in each set is a response to a paper presented at the conference; the second is the original presenter's reply to the author of the first essay. The fourth part of the book presents essays about the history and future of IFTE conferences, looking forward especially to the 1995 conference to be held in New York City.

RS *Resources in Education*, 2001 **Inside Out** Dan Kirby, Dawn Latta Kirby, Tom Liner, 2004

It all begins inside, inside the heads of our kids. There are ideas in there and language and lots of possibilities. Writing is a pulling together of that inside stuff. Writing is a rehearsal in meaning-making. The teacher's role in all this is to support those rehearsals. The first edition of this popular textbook was born out of notes such as this: that a young professor and a young high school teacher wrote to each other about the teaching of writing. Dan Kirby and Tom Liner surprised themselves and the rest of academia by writing a book that other teachers found to be both entertaining and useful. The first and second editions of *Inside Out* have helped both preservice and in-service teachers to implement practical and authentic teaching techniques in their classrooms for the last twenty-plus years. Now the long-awaited third edition is at hand, this time with the addition of Dawn Latta Kirby's insightful work based on nearly 30 years of experience in teaching writing. Together the three authors have thoroughly updated *Inside Out* with the latest information on technology, a substantial reference section on resources, and loads of new examples. And they have gone a step further; they have rethought their fundamental assumptions about

literacy and learning to write and have incorporated this innovative thinking into two new opening chapters and additional revisions throughout the book They have introduced fresh concepts overhauled some chapters and added new ones so that the third edition includes completely new material in the chapter on expository writing an updated chapter on poetry additional ideas about using portfolios publishing student writing with and without computers and working with young adult literature all new resources in a chapter by Karen Hartman Director of the Colorado Writing Project Still irreverent and skeptical of the conventional wisdom about teaching and learning still abhorring corporate strength writing pedagogies these authors echo the voices of many teachers who remain committed to teaching to the needs of their students Most of all they give teachers the means to prove their belief that learning to write is not just for the few or the gifted **Creating the**
