

A black and white photograph of two students sitting outdoors. The student on the left is a young man with dark hair, wearing a dark jacket, looking towards the camera with a slight smile. The student on the right is a young woman with long dark hair, wearing a beanie and a dark jacket, looking off to the side. They are sitting on the ground, and an open book is visible in the foreground. The background is a blurred natural setting.

Making The Most Of College Students Speak Their Minds:

Making the Most of College Richard J. Light, 2004-05-30 What choices can students in America make and what can teachers and university leaders do to improve more students experiences and help them make the most of their time and monetary investment Light and his colleagues explore these and other questions in ten years of interviews with 1 600 Harvard students

How to be a "HIP" College Campus Satu Rogers, Jeffery W. Galle, 2015-07-01 Through the voices of dozens of seasoned college faculty and junior and senior students this book shares insights and practical examples on how a college campus can be HIP utilizing high impact educational practices widely and effectively The book s strength is numerous hands on examples about HIPs implementation in and out of the classroom HIPs have been proven to improve student learning yet practical examples of their implementation are still few This book fills that gap Covering seven sets of HIPs we ask such questions as What do creative assignments based on active learning look like How does one teach the whole student How does and should student diversity affect teaching The book is most beneficial to current and future instructors of college courses especially those wanting to use more active learning pedagogies It will also benefit university administrators and staff by identifying campus priorities culture and structure that support the effective implementation of HIPs It makes the case for a campus wide adoption of high impact practices across disciplines and in both academic and co curricular life

Responding to Student Expectations OECD, 2002-09-03 Today s university students are drawn from a highly diverse set of backgrounds Students appear in various guises as citizens consumers and clients They are fitting university study around increasingly busy lives often alongside paid employment

Higher Education Assessments Gary L. Kramer, Randy L. Swing, 2010-10-16 Higher Education Assessments Leadership Matters reflects the work of a select group of researchers scholars and practitioners in higher education assessment with the goal of identifying strategies that assist senior campus leaders as they respond to the challenges of a changing economic landscape and political climate The contributors experts in the field bring to the forefront key issues relevant to advancing assessments in higher education principles that culminate in improving student learning and development Kramer and Swing provide a tool for presidents vice presidents provosts and deans to determine which areas of assessment matter most in their institutions and how they can measure progress in aligning claims with outcomes The contributors deftly address assessment in student affairs documentation of student learning student engagement to bridge learner outcomes assessment in the disciplines assessments that can transform a culture and putting students first as partners in the learning enterprise In doing so they have focused on what a campus president and his or her team need to know and do to lead assessment successfully on campus and as they set the tone for and facilitate institutional assessments

The New Advisor Guidebook Pat Folsom, Franklin Yoder, Jennifer E. Joslin, 2015-09-21 This is an exciting time to be an academic advisor a time in which global recognition of the importance of advising is growing research affirms the critical role advising plays in student success and institutions of higher education

increasingly view advising as integral to their missions and essential for improving the quality of students educational experiences It is essential that advisors provide knowledgeable realistic counsel to the students in their charge The New Advisor Guidebook helps advisors meet this challenge The first and final chapters of the book identify the knowledge and skills advisors must master These chapters present frameworks for setting and benchmarking self development goals and for creating self development plans Each of the chapters in between focuses on foundational content the basic terms concepts information and skills advisors must learn in their first year and upon which they will build over the lengths of their careers These chapters include strategies questions guidelines examples and case studies that give advisors the tools to apply this content in their work with students from demonstrations of how student development theories might play out in advising sessions to questions advisors can ask to become aware of their biases and avoid making assumptions about students to a checklist for improving listening interviewing and referral skills The book covers various ways in which advising is delivered one to one in groups and online The New Advisor Guidebook serves as an introduction to what advisors must know to do their jobs effectively It pairs with Academic Advising Approaches Strategies That Teach Students to Make the Most of College also from NACADA which presents the delivery strategies successful advisors can use to help students make the most of their college experience

Learning from the Learners Elizabeth Berry, Bettina J. Huber, Cynthia Z. Rawitch, 2017-12-15 This book turns the traditional approach to student success on its head by examining the learning habits of successful students based on what they have told us about their learning strategies on what they do to succeed in college and on the teaching practices they think best foster their learning This approach is in stark contrast to most recent studies of learning at the college level

which focus on what students need to do to succeed but are written from the point of view of experts who provide advice to struggling students Learning from the Learners Successful College Students Share Their Effective Learning Habits is based on what expert students tell us about what they as learners do to succeed It is grounded in a 10 year study that rests on a rich qualitative data set that includes open ended survey responses gathered on a term by term basis and in depth interviews during the freshman and junior years with over 700 students of diverse backgrounds Additionally since many students interviewed were the first in their family to attend college and from backgrounds traditionally underserved by higher education the book s insights will be of particular interest to educators elsewhere who are increasingly expected to help similar students succeed Themes include student success academic challenges diversity pedagogy and technology in the classroom No other book on the widely discussed subject of student success relies on such a wealth of quantitative and qualitative data about what works from the point of view of students themselves

Creating the Path to Success in the Classroom Kathleen F. Gabriel, 2023-07-03 This is a book for all faculty who are concerned with promoting the persistence of all students whom they teach Most recognize that faculty play a major role in student retention and success because they typically have more direct contact with students than others on campus However little attention has been paid to role of the faculty in this specific mission or to the corresponding characteristics of teaching teacher student interactions and connection to student affairs activities that lead to students long term engagement to their academic success and ultimately to graduation At a time when the numbers of underrepresented students working adults minority first generation low income and international students is increasing this book a companion to her earlier Teaching Underprepared Students addresses that lack of specific guidance by providing faculty with additional evidence based instructional practices geared toward reaching all the students in their classrooms including those from groups that traditionally have been the least successful while maintaining high standards and expectations Recognizing that there are no easy answers Kathleen Gabriel offers faculty ideas that can be incorporated in or modified to align with faculty s existing teaching methods She covers topics such as creating a positive and inclusive course climate fostering a community of learners increasing engagement and students interactions activating connections with culturally relevant material reinforcing self efficacy with growth mindset and mental toughness techniques improving lectures by building in meaningful educational activities designing reading and writing assignments for stimulating deep learning and critical thinking and making grade and assessment choices that can promote learning

Faculty Development and Student Learning William Condon, Ellen R. Iverson, Cathryn A. Manduca, Carol Rutz, Gudrun Willett, 2016-02-15 Colleges and universities across the US have created special initiatives to promote faculty development but to date there has been little research to determine whether such programs have an impact on students learning Faculty Development and Student Learning reports the results of a multi year study undertaken by faculty at Carleton College and Washington State University to assess how students learning is affected by faculty members efforts to

become better teachers Extending recent research in the Scholarship of Teaching and Learning SoTL to assessment of faculty development and its effectiveness the authors show that faculty participation in professional development activities positively affects classroom pedagogy student learning and the overall culture of teaching and learning in a college or university

Teaching Unprepared Students Kathleen F. Gabriel, 2023-07-03 As societal expectations about attending college have grown professors report increasing numbers of students who are unprepared for the rigors of postsecondary education not just more students with learning disabilities whose numbers have more than tripled but students with and without special admission status who are academically at risk because of inadequate reading writing and study skills This book provides professors and their graduate teaching assistants those at the front line of interactions with students with techniques and approaches they can use in class to help at risk students raise their skills so that they can successfully complete their studies The author shares proven practices that will not only engage all students in a class but also create the conditions while maintaining high standards and high expectations to enable at risk and under prepared students to develop academically and graduate with good grades The author also explains how to work effectively with academic support units on campus Within the framework of identifying those students who need help establishing a rapport with them adopting inclusive teaching strategies and offering appropriate guidance the book presents the theory teachers will need and effective classroom strategies The author covers teaching philosophy and goals issues of discipline and behavior motivation and making expectations explicit classroom climate and learning styles developing time management and study skills as well as the application of universal design strategies The ideas presented here that the author has successfully employed over many years can be easily integrated into any class

Undergraduate Student Engagement Zhe Zhang, Olwen McNamara, 2018-07-31 This book focuses on undergraduate student engagement in China and the UK It offers an innovative perspective on this aspect which although pervasive is not always acknowledged by its users to be complex and multidimensional in nature firmly rooted in cultural social and disciplinary norms and difficult to measure Competition within the global higher education market has become increasingly intense amongst universities and the higher education sector in China currently the largest source of international students is beginning to compete strongly for its home market Against this

consumerist background student engagement with its close relation to positive learning outcomes is increasingly receiving attention from higher education managers and researchers who seek to improve the quality of their products The research study on which the book is based draws on three courses two in China and one in the UK It offers a binary perspective across two very different cultures Western and Confucian and two very different subject areas Chinese language and mathematics The study employs a mixed methods design and develops a conceptual framework derived from statistical and thematic analysis An original theoretical lens combining a bioecological perspective Bronfenbrenner and a sociocultural one Holland et al s *Figured Worlds* adds further interpretive power to help understand the construct of student engagement

Thriving in Transitions Laurie A. Schreiner, Michelle C. Louis, Denise D. Nelson, 2020-11-18 When it was originally released *Thriving in Transitions* A Research Based Approach to College Student Success represented a paradigm shift in the student success literature moving the student success conversation beyond college completion to focus on student characteristics that promote high levels of academic interpersonal and intrapersonal performance in the college environment The authors contend that a focus on remediating student characteristics or merely encouraging specific behaviors is inadequate to promote success in college and beyond Drawing on research on college student thriving completed since 2012 the newly revised collection presents six research studies describing the characteristics that predict thriving in different groups of college students including first year students transfer students high risk students students of color sophomores and seniors and offers recommendations for helping students thrive in college and life New to this edition is a chapter focused on the role of faculty in supporting college student thriving
