## **Making The Most Of The Media:**

**Making Sense of Media and Politics** Gadi Wolfsfeld, 2022-03-17 In *Making Sense of Media and Politics* Gadi Wolfsfeld introduces readers to the most important concepts for examining the interrelationship of media and politics. Five major principles are used to summarize the major arguments: Political power can usually be translated into power over all forms of media. When the powerful lose control over the political environment they also lose control over all forms of media. Every political story that appears in every form of media is biased. All forms of media are primarily dedicated to telling good stories which can have a major impact on political processes. Many of the most important effects of the various forms of media on citizens tend to be unintentional and unnoticed. By identifying these five key principles of political communication, Wolfsfeld examines those who package and send political messages, those who transform political messages into stories, and the effects this can have on citizens, and how the more active members of the public users can initiate their own stories. The result is a brief, engaging guide to help make sense of the wider world of media and politics, and an essential companion to more in-depth studies of the field. New to the Second Edition: Up-to-date coverage of major political events in the last decade, including the landmark US elections of 2016 and 2020. Devotes more attention to the hybrid media system that has developed over the last decade, providing a greater balance between traditional news and social media, in particular. Includes more cross-national research, especially in non-Western and non-democratic countries. Refines the five principles of political communication to better reflect contemporary media trends. Covers key emerging topics, including misinformation and threats to democratic institutions, new forms of political engagement, and the economic base of the various forms of media.

Situates contemporary media, public discourse, and relationships in an historical context in order to show the origin of contemporary public political engagement. **Managing Today's News Media** Samir Husni, Debora Halpern Wenger, Hank Price, 2015-07-29 The business of journalism is in the midst of massive change. Managing Today's News Media Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers control choice and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles:

- Customer:** Each platform must offer a unique experience to the customer.
- Choice:** The audience has more options than ever, and news organizations must work harder to be the preferred choice.
- Control:** Sharing power and control with the audience is now a necessary part of running a successful news operation.
- Change:** Companies can manage change through adaptation.

Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape.
