Making Motherhood Work

Caitlyn Collins, 2020-05-05 The work family conflict that mothers experience today is a national crisis Women struggle to balance breadwinning with the bulk of parenting and social policies aren't helping Of all Western industrialized countries the United States ranks dead last for supportive work family policies Can American women look to Europe for solutions *Making Motherhood Work* draws on interviews that Caitlyn Collins conducted over five years with 135 middle class working mothers in Sweden Germany Italy and the United States She explores how women navigate work and family given the different policy supports available in each country Taking readers into women's homes neighborhoods and workplaces Collins shows that mothers expectations depend on context and that policies alone cannot solve women's struggles With women held to unrealistic standards the best solutions demand that we redefine motherhood work and family

Making Welfare Work Frank Field,2018-01-16 The welfare system in the United Kingdom is broken The number of claims has escalated and so in consequence have welfare expenditures The social system does not encourage welfare recipients to become independent Half the population of the United Kingdom lives in households drawing one of the major means tested benefits Research documents that means tests paralyze self help discourage self im provement and tax honesty while at the same time rewarding claimants for being either inactive or deceitful In Making Welfare Work

Frank Field challenges the current political orthodoxy particularly its emphasis on the role of legislation alone in bringing about social improvement in a welfare state Field argues that the impact legislation has on personal character is pivotal to human advance in a welfare state Welfare reconstruction needs to address and channel the differing roles of self interest self improvement and altruism which are among the great driving forces in human character A successful welfare state must reinforce these important forces which influence our nature because to create an imbalance between these three motive forces will always undermine welfare s objectives Field discusses in detail aspects of modern British society in dire need of change These include the drug trade benefit traps permanent adolescence the rise of part time work inequality in incomes excluding the disabled single parents and the very elderly for example This clearly delineated well researched blueprint for success will be important reading for politicians and policymakers in all industrialized nations Its author is well positioned to revise and review the welfare policies of democratic societies

From Initial Education to Working Life Making Transitions Work OECD,2000-05-31 Taking a broader view of transition outcomes than many previous comparative studies this study reveals the complex and many faceted national institutional arrangements that can result in successful transitions to working life **Making Laws That Work** David Goddard,2022-07-14 This book examines why laws fail and provides strategies for making laws that work Why do some laws fail And how can we make laws that actually work This helpful guide written by a leading jurist provides answers to these questions and gives practical strategies for law making It looks at a range of laws which have failed the damp squibs that achieve little or nothing in practice laws that overshoot their policy goals laws that produce nasty surprises and laws that backfire undermining the very goals they were intended to advance It goes on to examine some of the reasons why such failures occur drawing on insights from psychology and economics including the work of Kahneman and others on how humans develop narratives about the ways in which the world works and make predictions about the future It provides strategies to reduce the risk of failure of legislative projects

including adopting a more structured and systematic approach to analysing the likely effects of the legislation ensuring we identify the limits of our knowledge and the uncertainties of our predictions and framing laws in a way that enables us to adjust the way they operate as new information becomes available or circumstances change Key themes include the importance of the institutions that administer the legislation of default outcomes and of the stickiness of those defaults The book concludes with helpful checklists of questions to ask and issues to consider which will be of benefit to anyone involved in designing legislation

Weaving Work and Motherhood Anita Iltis Garey, 1999 In American culture the image of balancing work and family life is often represented in the glossy shot of the executive track woman balancing cell phone laptop and baby In *Weaving Work and Motherhood* Anita Iltis Garey focuses not on the corporate executives so frequently represented in American ads and magazines but rather on the women in jobs that typify the vast majority of women's employment in the United States A sociologist and work and family expert Garey situates her research in the health service industry Interviewing a racially and ethnically diverse group of women hospital workers clerical workers janitorial workers nurses and nurse's aids Garey analyzes what it means to be at once a mother who is employed and a worker with children Within the limits of the resources available to them women integrate their identities as workers and their identities as mothers by valuing their relation to work while simultaneously preserving cultural norms about what it means to be a good mother Some of these women work non day shifts in order to have the right blocks of time at home including for example a registered nurse who explains how working the night shift enables her to see her children off to school greet them when they return and attend school events in the way she feels good mothers should even if she finds little time for sleep Moving beyond studies of women work and family in terms of structural incompatibilities Garey challenges images of the exclusively work oriented or exclusively family oriented mother As women talk about their lives Garey focuses on the meanings of motherhood and of work that underlie their strategies for integrating employment and motherhood She replaces notions of how women balance work and family with a better understanding of how women integrate negotiate and weave together their identities as both workers and mothers Breaking new ground in the study of work and family *Weaving Work and Motherhood* offers new insights for those interested in sociology gender and women's studies social policy child care social welfare and health care
