Malcolm And The Cross The Nation Of Islam Malcolm X And Christianity:

Malcolm and the Cross Louis A. DeCaro, 1998-09 Despite his association with the Nation of Islam Malcolm X had a connection with Christianity which influenced his life After revealing the religious roots of the Nation of Islam in relation to Christianity theologian Lou DeCaro examines Malcolm s contributions as an activist journalist orator and revolutionist against the backdrop of his familial religious heritage

American Christians and Islam Thomas S. Kidd, 2018-06-05 In the wake of the September 11 terrorist attacks many of America s Christian evangelicals have denounced Islam as a demonic and inherently violent religion provoking frustration among other Christian conservatives who wish to present a more appealing message to the world s Muslims Yet as Thomas Kidd reveals in this sobering book the conflicted views expressed by today s evangelicals have deep roots in American history Tracing Islam s role in the popular imagination of American Christians from the colonial period to today Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat while also actively seeking to convert Muslims to the Christian faith since the nation s founding He shows how accounts of Mahometan despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals fears concerning Islam and describes the growing conservatism of American missions to Muslim lands up through the post World War II era Kidd exposes American Christians anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America s immigrant Muslim population today and he demonstrates why Islam has become central to evangelical end times narratives Pointing to many evangelicals unwillingness to acknowledge Islam s theological commonalities with Christianity and their continued portrayal of Islam as an evil and false religion Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world *American Christians and Islam* is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today

The debate on black civil rights in America Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today There is analysis of the changing scholarly interpretations of African American leaders from Booker T Washington through to Barack Obama The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump The civil rights struggle is also discussed in the context of wider political social and economic changes in the United States and developments in popular culture

Religious Myths and Visions of America Christopher Buck, 2009-04-30 At the heart of American studies is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and

nine minority faiths have projected America into the mainstream of world history by defining and by redefining America's world role. Surveying the religious myths and visions of America of ten religions, Buck shows how minority faiths have redefined America's sense of national purpose. This book invites serious reflection on what it means to be an American, particularly from a religious perspective. Religious myths of America are thought-orienting narratives that serve as vehicles of spiritual and social truths about the United States itself. Religious visions of America are action-oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations. Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world. He covers Native American, Protestant, Catholic, Jewish, Mormon, Christian, Identity Black, Muslim, Islamic, Buddhist, and Baha'i beliefs and invites serious reflection on what it means to be an American, particularly from a religious perspective.

African American Jeremiad Rev. David Howard-Pitney, 2009-09-02. An enduring verbal tradition links African American leaders from Frederick Douglass to Malcolm X to Alan Keyes.

The Columbia Guide to Religion in American History Paul Harvey, Edward Blum, 2012-02-14. The first guide to American religious history from colonial times to the present, this anthology features twenty-two leading scholars speaking on major themes and topics in the development of the diverse religious traditions of the United States. These include the growth and spread of evangelical culture, the mutual influence of religion and politics, the rise of fundamentalism, the role of gender and popular culture, and the problems and possibilities of pluralism. Geared toward general readers, students, researchers, and scholars, *The Columbia Guide to Religion in American History* provides concise yet broad surveys of specific fields with an extensive glossary and bibliographies listing relevant books, films, articles, music, and media resources for navigating different streams of religious thought and culture. The collection opens with a thematic exploration of American religious history and culture and follows with twenty topical chapters, each of which illuminates the dominant questions and lines of inquiry that have determined scholarship within that chapter's chosen theme. Contributors also outline areas in need of further, more sophisticated study and identify critical resources for additional research. The glossary, *American Religious History A-Z*, lists crucial people, movements, groups, concepts, and historical events, enhanced by extensive statistical data.

The Nation of Islam Steven Tsoukalas, 2021-05-16. The Nation of Islam promises African Americans a new identity and purpose. But can it deliver? In this intriguing study, Steven Tsoukalas helps us understand the struggle, history, and theology behind black nationalism so that we may respond with compassion and truth.

Environmental Ethics and Uncertainty Whitney Bauman, Kevin O'Brien, 2019-08-06. This book offers a multidisciplinary environmental approach to ethics in response to the contemporary challenge of climate change caused by globalized economics and consumption. This book synthesizes the incredible complexity of the problem and the necessity of action in response, highlighting the unambiguous problem facing humanity in the 21st century but arguing that it is essential to develop an ethics housed in ambiguity in response. *Environmental Ethics and Uncertainty* is divided into theoretical and

applied chapters with the theoretical sections engaging in dialogue with scholars from a variety of disciplines while the applied chapters offer insight from 20th century activists who demonstrate and or illuminate the theory including Martin Luther King Rachel Carson and Frank Lloyd Wright This book is written for scholars and students in the interdisciplinary field of environmental studies and the environmental humanities and will appeal to courses in religion philosophy ethics politics and social theory

Authentically Black and Truly Catholic Matthew J. Cressler, 2017-11-14 Chicago has been known as the Black Metropolis But before the Great Migration Chicago could have been called the Catholic Metropolis with its skyline defined by parish spires as well as by industrial smoke stacks and skyscrapers This book uncovers the intersection of the two Authentically Black and Truly Catholic traces the developments within the church in Chicago to show how Black Catholic activists in the 1960s and 1970s made Black Catholicism as we know it today The sweep of the Great Migration brought many Black migrants face to face with white missionaries for the first time and transformed the religious landscape of the urban North The hopes migrants had for their new home met with the desires of missionaries to convert entire neighborhoods Missionaries and migrants forged fraught relationships with one another and tens of thousands of Black men and women became Catholic in the middle decades of the twentieth century as a result These Black Catholic converts saved failing parishes by embracing relationships and ritual life that distinguished them from the evangelical churches proliferating around them They praised the quiet dignity of the Latin Mass while distancing themselves from the gospel choirs altar calls and shouts of amen increasingly common in Black evangelical churches Their unique rituals and relationships came under intense scrutiny in the late 1960s when a growing group of Black Catholic activists sparked a revolution in U S Catholicism

Aboriginal Black Power and the Rise of the Australian Black Panther Party, 1967-1972 Alyssa L. Trometter, 2022-01-01 Examining transnational ties between the USA and Australia this book explores the rise of the Aboriginal Black Power Movement in the 1960s and early 1970s Aboriginal adaptation of the American Black Power movement paved the way for future forms of radical Aboriginal resistance including the eventual emergence of the Australian Black Panther Party Through analysis of archival material including untouched government records previously unexamined newspapers and interviews conducted with both Australian and American activists this book investigates the complex and varied process of developing the Black Power movement in a uniquely Australian context Providing a social and political account of Australian activism across Victoria New South Wales and Queensland the author illustrates the fragmentation of Aboriginal Black Power marked by its different leaders protests and propaganda 1998 Massimo

The Trouble with Sauling Around Madeline Ruth Walker, 2011-08-16

Examining autobiographical texts by Malcolm X *The Autobiography of Malcolm X* Oscar Zeta Acosta *The Autobiography of a Brown Buffalo* and *Revolt of the Cockroach People* Amiri Baraka *The Autobiography of LeRoi Jones* and Richard Rodriguez *Hunger for Memory* *Days of Obligation* and Brown Walker questions the often rosy views and simplistic binary conceptions of religious conversion Her reading of these texts takes into account the conflict and serial changes the authors experience in a society that marginalizes them the manner in which religious conversion offers ethnic Americans salvation through cultural assimilation or cultural nationalism and what conversion anticonversion and deconversion narratives tell us about the problematic effects of religion that often go unremarked because of a code of special respect and political correctness Walker asserts that critics have been too willing to praise religion in America as salutary or beyond the ken of criticism because religious belief is seen as belonging to an untouchable arena of cultural identity *The Trouble with Sauling Around* goes beyond traditional literary criticism to pay close attention to the social phenomena that underlie religious conversion narratives and considers the potentially negative effects of religious conversion something that has been likewise neglected by scholars

Modern Muslim Theology Martin Nguyen, 2018-08-10 This book aims to bring Muslim theology into the

present day Rather than a purely academic pursuit *Modern Muslim Theology* argues that theology is a creative process and discusses how the Islamic tradition can help contemporary practitioners negotiate their relationships with God with one another and with the rest of creation

Black Citizenship and Authenticity in the Civil Rights Movement

Randolph Hohle, 2013 This book explains the emergence of two competing forms of black political representation that transformed the objectives and meanings of local action created boundaries between national and local struggles for racial equality and prompted a white response to the civil rights movement that set the stage for the neoliberal turn in US policy Randolph Hohle questions some of the most basic assumptions about the civil rights movement including the importance of

non violence and the movement s legacy on contemporary black politics Non violence was the effect of the movement s emphasis on racially non threatening good black citizens that when contrasted to bad white responses of southern whites severed the relationship between whiteness and good citizenship Although the civil rights movement secured new legislative gains and influenced all subsequent social movements pressure to be good black citizens and the subsequent marginalization of black authenticity have internally polarized and paralyzed contemporary black struggles This book is the first systematic analysis of the civil rights movement that considers the importance of authenticity the body and ethics in political struggles It bridges the gap between the study of race politics and social movement studies **Handbook of Religion and Social**
