**The Routledge Handbook of Tribe and Religions in India** Maguni Charan Behera, 2024-09-03

This handbook explores the diversity of religious practice in tribal cultures in India. It looks at the interactive spaces where the religious practices of tribes and other communities have changed and adapted through the years in contemporary India. Tribe as a social category emerged in India during the colonial period; this handbook departs from the conventional approaches to studying tribal religion and analyses the intersections of spirituality, rituals, gender, and identities within tribal religion through a cross-cultural and pan-Indian perspective. Tribes in India follow various religious denominations including Buddhism, Hinduism, Islam, Christianity, and traditional indigenous faiths. The chapters in this volume provide insights into the cross-cultural religiosity of tribes via ethnographic accounts and the study of animism, life cycle rituals, ancestor worship, shrines, and religious institutions, revivalism, religious identities, religious conversion, transcendental religious spaces, and the space for gender identity and politics within religious traditions. It also discusses conflicts, contestations, anxieties within and the politics of religious traditions and identities in India and how tribal communities and the state negotiate with these issues. This and its companion handbook, *The Routledge Handbook of Contemporary Readings on Tribe and Religions in India*, Emerging Negotiations, provide a comprehensive look into the religious life and practices of a very diverse group of tribes in India. This book will be of interest to academics and researchers working in the fields of religion, anthropology, indigenous and tribal studies, social and cultural anthropology, sociology of culture, sociology of religion, development studies, history, political science, folkloristic and colonialism.

How Kinship Systems Change Robert Parkin, 2021-07-16

Using some of his landmark publications on kinship along with a new introduction, chapter and conclusion, Robert Parkin discusses here the changes in kinship terminologies and marriage practices as well as the dialectics between them. The chapters also focus on a suggested trajectory linking South Asia and Europe and the specific question of the status of Crow-Omaha systems. The collection culminates in the argument that whereas marriage systems and practices seem infinitely varied when examined from a very close perspective, the terminologies that accompany them are much more restricted.
