This collection of essays presented by an internationally known team of scholars explores the world of Vienna and the development of opera buffa in the second half of the eighteenth century. Although today Mozart remains one of the most well known figures of the period the era was filled with composers librettists writers and performers who created and developed opera buffa. Among the topics examined are the relationship of Viennese opera buffa to French theatre Mozart and eighteenth century comedy gender nature and bourgeois society on Mozart's buffa stage as well as close analyses of key works such as Don Giovanni and Le nozze di Figaro. *Encyclopedia of the Romantic Era, 1760-1850* Christopher John Murray, 2013-05-13. In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century. The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism. *Antithetical Arts* Peter Kivy, 2011-03-03. Antithetical Arts constitutes a defence of musical formalism against those who would put literary interpretations on the absolute music canon. In Part I the historical origins of both the literary interpretation of absolute music and musical formalism are laid out. In Part II specific attempts to put literary interpretations on various works of the absolute music canon are examined and criticized. Finally in Part III the question is raised as to what the human significance of absolute music is if it does not lie in its representational or narrative content. The answer is that as yet philosophy has no answer and that the question should be considered an important one for philosophers of art to consider and to try to answer without appeal to representational or narrative content. *Disinformation in Mass Media* Beverly Jerold, 2020-10-27. The founding in 1777 of the Journal de Paris France's first daily and distinctly commercial paper represents an early use of disinformation as a tool for political gain profit and societal division. To attract a large readership and bar competition for C. W. Gluck's works at the Paris Opéra it launched a prolonged campaign of anonymous lies mockery and defamation against two

prominent members of the Académie Française who wished the Opéra to be open to all deserving composers but lacked a comparable daily forum with which to defend themselves In this unique episode music served as a smokescreen for nefarious activity No musical knowledge is necessary to follow this purely political drama Sourcebook for Research in Music, Third Edition Allen Scott, 2015-06-01 Since it was first published in 1993 the Sourcebook for Research in Music has become an invaluable resource in musical scholarship The balance between depth of content and brevity of format makes it ideal for use as a textbook for students a reference work for faculty and professional musicians and as an aid for librarians The introductory chapter includes a comprehensive list of bibliographical terms with definitions bibliographic terms in German French and Italian and the plan of the Library of Congress and the Dewey Decimal music classification systems Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology performance practice women in music popular music education business and music technology These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come **Catalogo tematico delle composizioni teatrali di Antonio Salieri** Elena Biggi Parodi, 2005 **Antonio Salieri** Ernesto Monsalve, 2025-03-18 Dal grembo dell'eternità questo compositore prega ed invoca salute e pace ai suoi successori Antonio Salieri Vienna 1796 dal manoscritto de La riconoscenza Antonio Salieri 1750 1825 stato un gigante della storia della musica Nato in Veneto sviluppò a Vienna le sue straordinarie doti di compositore riempiendo i teatri europei e divenendo maestro di Beethoven Schubert Liszt e tanti altri Con il passo intrigante di un romanzo e con il conforto dei documenti Monsalve delinea il ritratto di un uomo brillante animato da una creatività poliedrica e da intuizioni innovatrici Non gli ha giovato la leggenda della gelosia omicida nei confronti di W A Mozart Qui con abbondanza di prove si restituiscono l'integrità e l'onore a un personaggio di cui l'Italia dovrebbe andare fiera Progress and Values in the Humanities Volney Patrick Gay, 2010 Money and support tend to flow in the direction of economics science and other academic departments that demonstrate measurable progress The humanities on the other hand offer more abstract and uncertain outcomes A humanist's objects of study are more obscure in certain ways than pathogens and cells Consequently it seems as if the humanities never truly progress Is this a fair assessment By comparing objects of science such as the brain the galaxy the amoeba and the quark with objects of humanistic inquiry such as the poem the photograph the belief and the philosophical concept Volney Gay reestablishes a fundamental distinction between science and the humanities He frees the latter from its pursuit of material based progress and restores its disciplines to a place of privilege and respect Using the metaphor of magnification Gay shows that while we can investigate natural objects to the limits of imaging capacity magnifying cultural objects dissolves them into noise In other words cultural objects can be studied only within their contexts and through the prism of metaphor and narrative Gathering examples from literature art film philosophy religion science and psychoanalysis Gay builds a new justification for the

humanities By revealing the unseen and making abstract ideas tangible the arts create meaningful wholes which itself is a form of progress      *Historical Dictionary of Music of the Classical Period* Bertil H. Van Boer, 2012-04-05 When we speak of classical music it often refers rather loosely to serious art music but at the core is really the music of the classical period running from about 1730 to 1800 give or take This was truly one of the most glorious periods for both composition and performance and it is this classical music which is still at the core of today's repertoire Obvious names connected with this period are Haydn Mozart and Beethoven but there were many more still reasonably well known like Gluck and C P E Bach and dozens more who are regrettably little known today This *Historical Dictionary of Music of the Classical Period* includes not only these composers but also eminent conductors and performers patrons and publishers There are also dictionary entries on major centers of music making typical instruments important technical terms and emerging musical forms including the symphony and opera Indeed with a 1 000 cross referenced entries there is information on most matters of interest This is prefaced by an extensive chronology tracing the course of this period from year to year and an introduction taking a careful look at the period as a whole Finally there is a substantial bibliography Surely this is a book which will appeal not only to students and researchers but all music lovers
