## **Man And His Becoming According To The Vedanta Guenon Rene Works:**

*Man and His Becoming According to the Vedanta* René Guénon, 2001 Gu non published his fundamental doctrinal work *Man and His Becoming according to the Vedanta* in 1925 After asserting that the Vedanta represents the purest metaphysics in Hindu doctrine he acknowledges the impossibility of ever expounding it exhaustively and states that the specific object of his study will be the nature and constitution of the human being Nonetheless taking the human being as point of departure he goes on to outline the fundamental principles of all traditional metaphysics He leads the reader gradually to the doctrine of the Supreme Identity and its logical corollary the possibility that the being in the human state might in this very life attain liberation the unconditioned state where all separateness and risk of reversion to manifested existence ceases Although Gu non chose the doctrine of the Advaita school and in particular that of Shankara as his basis *Man and His Becoming* should not be considered exclusively an exposition of this school and of this master It is rather a synthetic account drawing not only upon other orthodox branches of Hinduism but not infrequently also upon the teachings of other traditional forms Neither is it a work of erudition in the sense of the orientalist and historians of religion who study doctrines from the outside but represents knowledge of the traditionally transmitted and effective sacred science Gu non treats other aspects of Hinduism in his *Introduction to the Study of the Hindu Doctrines and Studies in Hinduism* **The Essential Rene Guenon** John

Herlihy, 2009-10-15 A prolific writer and author of over 24 books Rene Guenon was the founder of the Perennialist Traditionalist school of comparative religious thought Known for his discourses on the intellectual and spiritual bankruptcy of the modern world symbolism tradition and the inner or spiritual dimension of religion this book is a compilation of his most important writings A key component of his thought was the assertion that universal truths manifest themselves in various forms in the world s religions and his writings on Hinduism Taoism and Sufism are particularly illuminating in this regard

Hindu doctrine and its applications at different levels leading up to the Vedanta which constitutes its metaphysical essence Lastly Part IV resumes the task of clearing away current misconceptions but is this time concerned not with the West itself but with distortions of the Hindu doctrines that have arisen as a result of attempts to read into them or to graft onto them modern Western conceptions The concluding chapter lays down the essential conditions for any genuine understanding between East and West which can only come through the work of those who have attained at least in some degree to the realization of wisdom uncreate that intellectual suprarational knowledge called in the East j ana and in the West gnosis

Religion & the Order of Nature Seyyed Hossein Nasr, 1996 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian claims of modern science and to re open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr shows has a wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth
