Paz, 2007 Updated version of author's thesis master's Tel Aviv University 2003 Yavneh Raz Kletter, Irit Ziffer, Wolfgang Zwickel, 2010 In the words of late Professor Moshe Kochavi the Philistine repository pit at Yavneh is the kind of discovery made only once every fifty years It is the richest repository pit ever found from Bronze and Iron Ages Israel Palestine containing thousands of cultic finds originating from a temple including an unprecedented number more than a hundred of cult stands so called architectural models carrying rich figurative art dozens of fire pans chalices and other objects The present volume includes the full publication of the excavation the stratigraphy the cult stands and the figures detached from cult stands several clay and stone altars and some pottery vessels related to burning of plant material most likely incense This exceptional book raises a host of highly important and intriguing questions Is this a favissa or even a genizah Why are many cult stands badly broken while some are intact were cult stands broken on purpose What is the explanation for the unique stratigraphy and for the layer of gray ash in the pit was fire kindled inside as part of a ritual How do we know that these finds are Philistine Are they part of the furniture of the temple or objects dedicated by worshippers as votives Do the figures on the cult stands represent mortal beings or divinities If divinities can we relate them with Biblical or extra biblical

data on the gods of the Philistines What was the function s of cult stands Were they models of buildings supports for images offering tables altars or perhaps incense burners Why are female figures dominant while male figures are virtually absent In discussing such topics Yavneh I treats issues that are central to many fields of study religion and cult in Iron Age Israel Palestine the history and archaeology of the Philistines and their western relations Near Eastern iconography the meaning of cult stands architectural models and the understanding of votive objects and of repository pits in general Literally salvaged from the teeth of a bulldozer these rare finds are now published Generations of scholars will discuss and reinterpret them there is no final word for such finds and hence this final excavation volume is not an end but a beginning

*God: An Anatomy* Francesca Stavrakopoulou, 2022-01-25 An astonishing and revelatory history that re presents God as he was originally envisioned by ancient worshippers with a distinctly male body and with superhuman powers earthly passions and a penchant for the fantastic and monstrous A rollicking journey through every aspect of Yahweh s body from top to bottom yes that too and from inside out Ms Stavrakopoulou has almost too much fun The Economist The scholarship of theology and religion teaches us that the God of the Bible was without a body only revealing himself in the Old Testament in words mysteriously uttered through his prophets and in the New Testament in the body of Christ The portrayal of God as corporeal and masculine is seen as merely metaphorical figurative or poetic But in this revelatory study Francesca Stavrakopoulou presents a vividly corporeal image of God a human shaped deity who walks and talks and weeps and laughs who eats sleeps feels and breathes and who is undeniably male Here is a portrait arrived at through the author s close examination of and research into the Bible of a god in ancient myths and rituals who was a product of a particular society at a particular time made in the image of the people who lived then shaped by their own circumstances and experience of the world From head to toe and every part of the body in between this is a god of stunning surprise and complexity one we have never encountered before

**Tell el-Yahudiyeh Ware in the Northern Levant** Samar Shammas, 2023-10-31 This volume is devoted to the discussion of Tell el Yahudiyeh Ware s repertory unearthed in the Middle Bronze Age sites of the northern Levant These juglets initially emerged in the northern Levant in two separate regions in Syria Palestine These two variants developed in two lines producing the Syro Palestinian and the Levanto Egyptian lines This distinction should be from now on essential in

considering Tell el Yahudiyeh Ware A significant focus is given to the collections discovered over the last decades in Damascus Oasis and southern Syria labeled here the Syrian Tell el Yahudiyeh Ware Branch K A large part of this Syrian corpus is introduced here for the first time The evaluation shows that this material comprises more than half of Tell el Yahudiyeh Ware in the northern Levant and was used from the beginning of the 18th to the middle of the 16th century BCE Moreover light is shed onto the archaeological contexts where the vessels originally belonged This approach enhances the perception of this ware s value and position in the material culture in the Middle Bronze Age Levant All things considered this book is a new addition to many decades of research that aims to understand the origin and development of one of the most challenging elements of the Middle Bronze Age pottery tradition 2018, 0000000 *At the Decisive Point in the Sinai* Jacob Even, Simcha B.
