Man in the Landscape Paul Shepard, 2002 A pioneering exploration of the roots of our attitudes toward nature Paul Shepard's most seminal work is as challenging and provocative today as when it first appeared in 1967 Man in the Landscape was among the first books of a new genre that has elucidated the ideas beliefs and images that lie behind our modern destruction and conservation of the natural world Departing from the traditional study of land use as a history of technology this book

The Ascent of Man Henry Drummond,2013-02-18 In the Ascent of Man Henry Drummond gives his take on Evolution He sees evolution as divinely guided a position that made him no friends on either side of the debate The greatest thing a human soul ever does in this world is to see something and tell what it saw in a plain way In these pages an attempt is made to tell in a plain way a few of the things which Science is now seeing with regard to the Ascent of Man Whether these seeings are there at all is another matter But even if visions every thinking mind through whatever medium should look at them What Science has to say about himself is of transcendent interest to Man and the practical bearings of this theme are coming to be more vital than any on the field of knowledge The thread which binds the facts is it is true but a hypothesis As the theory nevertheless with which at present all scientific work is being done it is assumed in every page that follows

 A fascinating intimate portrait of an endlessly complicated man a visionary a narcissist a brilliant but flawed modern hero At
 the age of seventeen Eustace Conway ditched the comforts of his suburban existence to escape to the wild Away from the
 crushing disapproval of his father he lived alone in a teepee in the mountains Everything he needed he built grew or killed
 He made his clothes from deer he killed and skinned before using their sinew as sewing thread But he didn't stop there In
 the years that followed he stopped at nothing in pursuit of bigger bolder challenges He travelled the Mississippi in a
 handmade wooden canoe he walked the two thousand mile Appalachian Trail he hiked across the German Alps in trainers he
 scaled cliffs in New Zealand One Christmas he finished dinner with his family and promptly upped and left to ride his horse
 across America From South Carolina to the Pacific with his little brother in tow they dodged cars on the highways ate road
 kill and slept on the hard ground Now more than twenty years on Eustace is still in the mountains residing in a thousand acre
 forest where he teaches survival skills and attempts to instil in people a deeper appreciation of nature But over time he has
 had to reconcile his ambitious dreams with the sobering realities of modernity Told with Elizabeth Gilbert's trademark wit
 and spirit The Last American Man is an unforgettable adventure story of an irrepressible life lived to the extreme The Last

 intervention techniques involved in the domestication process using Foucault's concept of pastoral power Part II focuses on
 how God's pronouncements concerning animals in the Old Testament came to take unique forms in the ancient Middle East
