Man From Miramichi:

Talented Miramichi in the Gilded Age Thomas W Creaghan, 2015-12-18 The family which Samuel and Mary Ann Daley Adams raised at Miramichi New Brunswick in the 19th century was truly a remarkable one as their great grandson Tom Creaghan reveals in this work Willis D Hamilton author of the Dictionary of Miramichi Biography **David Adams Richards of the Miramichi** Tony Tremblay, 2010-04-15 Widely considered to be one of Canada's most important authors David Adams Richards has been honoured with a Giller Prize and two Governor General's Literary Awards Despite this there has been a dearth of critical appraisal of his life and works In David Adams Richards of the Miramichi Tony Tremblay sheds light not only on Richards art and achievements but also on Canadian literary criticism in general Tremblay maps out the early influences on Richards thinking and writing by drawing on interviews archival records and cultural studies of New Brunswick He argues that the author is a more sophisticated craftsman than his critical reception has assumed and makes the case for a more nuanced analysis of his works Equal parts literary biography literary criticism and cultural study of New Brunswick David Adams Richards of the Miramichi provides a rare glimpse into the struggles and triumphs of a New Brunswick artist in a national and provincial milieu **Nine Bells for a Man** Peter Unwin, 2000-09-01 Young Robert Pachal crosses Canada by train with his brother-in-law's coffin bearing witness to a way of life that will never be seen again When he arrives in Barry's Bay he unwittingly sets in motion one of the final and most tragic events in pioneer Canada **Naming Canada** Alan Rayburn, 2001-01-01 Discover how some of Canada's most unusual place names came to be Seventy six essays including fifteen new to this edition updated to include changes corrections and new names to the year 2000 *Natural and Man-Made Hazards* Mohammed I. actor of the nineteenth century Joseph Jefferson made his name as Washington Irving's Rip Van Winkle. In this book a compelling blend of biography and theatrical and cultural history Benjamin McArthur chronicles Jefferson's remarkable career and offers a lively and original account of the heroic age of the American theatre. Joe Jefferson's entire life was spent on the stage from the age of Jackson to the dawn of motion pictures. He extensively toured the United States as well as Australia and Great Britain. An ever successful career including acclaim as painter and memoirist put him in the company of the great actors, artists and writers of the day including Edwin Forrest, Edwin Booth, John Singer Sargent and William Dean Howells. This book rescues a brilliant figure and places him appropriately enough on center stage of a pivotal time for American theatre. McArthur explores the personalities of the period, the changing theatrical styles and their audiences, the touring life and the wide and varied culture of theatre. Through the life of Jefferson McArthur is able to illuminate an era.

House of Assembly, 1863 **Journal of the Legislative Council of the Province of New Brunswick ...**, 1863 The Man Who Built the Swordfish Adrian Smith, 2018-04-30 Sir Richard Fairey was one of the great aviation innovators of the twentieth century. His career as a plane maker stretched from the Edwardian period to the jet age; he lived long enough to see one of his aircraft be the first to break the 1000mph barrier and at least one of his designs, the Swordfish, holds iconic status. A qualified engineer, party to the design, development and construction of the Royal Navy's state-of-the-art sea planes, Sir Richard founded Fairey Aviation at the Admiralty's behest in 1915. His company survived post-war retrenchment to become one of Britain's largest aircraft manufacturers. The firm built a succession of front-line aircraft for the RAF and the Fleet Air Arm, including the iconic Swordfish. In addition, Fairey Aviation designed and built several cutting-edge experimental aircraft, including long-distance record breakers between the wars and the stunningly beautiful Delta 2, which broke the world speed record on the eve of Sir Richard's death in 1956. Fairey also came to hold a privileged position in the British elite, courting politicians and policymakers. He became a figurehead of the British aviation industry, and his successful running of the British Air Commission earned him a knighthood. A key player at a pivotal moment, Fairey's life tells us much about the exercise of power in early twentieth-century Britain and provides an insight into the nature of the British aviation manufacturing industry at its wartime peak and on the cusp of its twilight years.
