Narrative Reliability, Racial Conflicts and Ideology in the Modern Novel Marta Puxan-Oliva, 2019-03-07 How does racial ideology contribute to the exploration of narrative voice How does narrative unreliability help in the production and critique of racial ideologies Through a refreshing comparative analysis of well established novels by Joseph Conrad William Faulkner James Weldon Johnson Albert Camus and Alejo Carpentier this book explores the racial politics of literary form Narrative Reliability Racial Conflicts and Ideology in the Modern Novel contributes to the emergent attention in literary studies to the interrelation of form and politics which has been underexplored in narrative theory and comparative racial studies Bridging cultural postcolonial racial studies and narratology this book brings context specificity and awareness to the production of ideological ambivalent narrative texts that through technical innovation in narrative reliability deeply engage with extremely violent episodes of colonial origin in the United Kingdom the United States Algeria and the French and Spanish Caribbean In this manner the book reformulates and expands the problem of narrative reliability and highlights the key uses and production of racial discourses so as to reveal the participation of experimental novels in early and mid 20th century racial conflicts which function as test case to display a broad new area of study in cultural and political narrative theory

Literature and Society NA Glicksberg, 2013-11-11 1 Prolegomena The purpose of this book is to examine anew and from a number of different perspectives the highly complex and controversial relation between literature and society. This is not meant to be a study in sociology or political science; the analysis of literature, its structure, content, function, and effect is our primary concern. What we shall try to find out is how the imaginative work is rooted in and grows out of the parent social body, to what extent it is influenced in subject matter as well as form and technique by the dominant climate of ideas in a given historical period, and to what degree and in what manner literature influences the society to which it is addressed. The stream of literary influence is of course difficult to trace to its putative source, for here we are not dealing as in science with isolated physical phenomena which can be fitted precisely within some cause and effect pattern. The relationship between literature and society is far more subtle and complex than social scientists or cultural critics commonly assume.

Encyclopedia of the Novel Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world. Entries on individual writers assess the place of that writer within the development of the novel form, explaining why and in exactly what ways that writer is important. Similarly, an entry on an individual novel discusses the importance of that novel, not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topic entries explore the history, criticism, theory, production, dissemination, and reception of the novel. A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world.

The Grand Old Man and the Great Tradition Luisa Bienati, Bonaventura Ruperti, 2010-01-01 In 1995, on the thirtieth anniversary of Tanizaki Jun'ichirō's death, Adriana Boscaro organized an international conference in Venice that had an unusually lasting effect on the study of this major Japanese novelist. Thanks to Boscaro's energetic commitment, Venice became a center for Tanizaki studies that produced two volumes of conference proceedings, now considered foundational for all scholarly works on Tanizaki. In the years before and after the Venice Conference, Boscaro and her students published an abundance of works on Tanizaki and translations of his writings, contributing to his literary success in Italy and internationally. *The Grand Old Man and the Great Tradition* honors Boscaro's work by collecting nine essays on Tanizaki's position in relation to the great tradition of Japanese classical literature. To open the collection, Edward Seidensticker contributes a provocative essay on literary styles and the task of translating *Genji* into a modern language. Gaye Rowley and Ibuki Kazuko also consider Tanizaki's *Genji* translations from a completely different point of view, documenting the author's three separate translation efforts. Aileen Gatten turns to the influence of Heian narrative methods on Tanizaki's fiction.

arguing that his classicism far from being superficial reflects a deep sensitivity to Heian narrative Tzevetana Kristeva holds a different perspective on Tanizaki's classicism singling out specific aspects of Tanizaki's eroticism as the basis of comparison The next two essays emphasize Tanizaki's experimental engagement with the classical literary genres Amy V Heinrich treats the understudied poetry and Bonaventura Ruperti considers a 1933 essay on performance arts Taking up cinema Roberta Novelli focuses on the novel Manji exploring how it was recast for the screen by Masumura Yasuz The volume concludes with two contributions interpreting Tanizaki's works in the light of Western and Meiji literary traditions Paul McCarthy considers Nabokov as a point of comparison and Jacqueline Pigeot conducts a groundbreaking comparison with a novel by Natsume S seki
