Marthaa Vineyard An Elegy:

Martha's Vineyard Everett S. Allen, 1982-01-01 A wry memoir of life on the Vineyard from the author's childhood there in the 1920s until the early 1980s **Revisiting the Elegy in the Black Lives Matter Era** Tiffany Austin, Sequoia Manor, Emily Rutter, Darlene Scott, 2019-12-09 Revisiting the Elegy in the Black Lives Matter Era is an edited collection of critical essays and poetry that investigates contemporary elegy within the black diaspora Scores of contemporary writers have turned to elegiac poetry and prose in order to militate against the white supremacist logic that has led to recent deaths of unarmed black men women and children This volume combines scholarly and creative understandings of the elegy in order to discern how mourning feeds our political awareness in this dystopian time as writers attempt to see hear and say something in relation to the bodies of the dead as well as to living readers Moreover this book provides a model for how to productively interweave theoretical and deeply personal accounts to encourage discussions about art and activism that transgress disciplinary boundaries as well as lines of race gender class and nation **A Meeting of Land and Sea** David R. Foster, 2017-01-01 An eminent ecologist shows how an iconic New England island has been shaped by nature and human history and how its beloved landscape can be protected Full of surprises bedecked with gorgeous photographs and maps and supported by unprecedented historical and ecological research this book awakens a new perspective on the renowned New England island Martha's Vineyard David Foster explores the powerful natural and cultural forces that have shaped the storied island to arrive at a new interpretation of the land today and a well informed guide to its conservation in the future Two decades of research by Foster and his colleagues at the Harvard Forest encompass the native people and prehistory of the Vineyard climate change and coastal dynamics colonial farming and modern tourism as well as land planning and conservation efforts Each of these has helped shape the island of today and each also illuminates possibilities for future caretakers of the island's ecology Foster affirms that Martha's Vineyard is far more than just a haven for celebrities presidents and moguls it is a special place with a remarkable history and a population with a proud legacy of caring for the land and its future **The Dukes County Intelligencer**, 2004 **Walking to Martha's Vineyard** Franz Wright, 2009-03-12 In this radiant new collection Franz Wright shares his regard for life in all its forms and his belief in the promise of blessing and renewal As he watches the Resurrection of the little apple tree outside my window he shakes off his fear of mortality concluding what death There is only mine or yours but the world will be filled with the living In prayerlike poems he invokes the one who spoke the world into being and celebrates a dazzling universe snowflakes descending at nightfall the intense yellow petals of the September sunflower the planet adrift in a blizzard of stars the simple mystery of loving other people As Wright overcomes a natural tendency toward loneliness and isolation he gives voice to his hope for the only animal that commits suicide and to our deep pleasure he arrives at a place of gratitude that is grounded in the earth and its moods **The History of Martha's Vineyard** Arthur R. Railton, 2006 Published in association with the Martha's

Common Ground Geneviève Massard-Guilbaud, Stephen Mosley, 2010-10-12 Today's environmental problems climate change loss of biodiversity polluted air land and water all have their origins to a greater or lesser extent in how we have lived played and worked At a time when societies are confronted with the often dramatic consequences of past choices made in the fields of energy technology industry agriculture urbanisation and consumption we need a history that casts more light on the ways in which unsustainable human nature relationships came into being This means forging stronger connections between social and environmental history Common Ground opens up a dialogue between two sub disciplines that to date have remained largely parallel endeavours bringing together both established and younger scholars from both fields to explore how people's everyday lives have connected to their environments and with what effects The book is organised in six sections leisure and environment nature and conservation environmental conflicts folk and scientific knowledge environmental disasters and energy industry and urban infrastructure By exploring the complex interplay between people's day to day activities and ecological change especially the values beliefs and environmental experiences of ordinary men and women we can better understand our past relationships with nature and perhaps make more informed planning and policy choices in the future
