KATHERINE V. FORREST

MURDER BY TRADITION

From the most popular lesbian writer in America, Lambda Literary Award-winning Katherine V. Forrest...

A new novel featuring the most celebrated lesbian detective in mystery fiction—in the most challenging case of her career.

Young Tetta Crawford is dead from multiple stab wounds in a restaurant kitchen, slain with blood. LAPD homicide detective Kate Delaheld is recruited in her pursuit and capture of the killer. Suborning that killer to justice presents a whole new set of obstacles.

The suspect claims self-defense—that Tetta Crawford made a homosexual advance and backed it up with a knife. But everything Kate learns about Tetta Crawford tells her that her attacker killed with deliberate intent.

Kate finds herself increasingly isolated as she tries to shield her young lover from the brutal realities of this case. And to develop proof of first degree murder, she must find clear answers to mystifying questions for the prosecuting attorney—a woman who has never before prosecuted a homicide case.

Kate faces even greater pressure, however, especially Kate's partner, Ed Taylor, is anxious to aggressively pursue a case involving a dead gay man and the gay community. She herself has a personal stake in the trial: the defense attorney is a man from her past. A man with the power to expose the secrets she has kept so separate from her life as a police officer.

Murder by Tradition reaches new heights in the powerful and enthralling storytelling that has come to expect from Katherine V. Forrest.

Dislocating Cultures Uma Narayan, 2013-04-15 **Dislocating Cultures** takes aim at the related notions of nation identity and tradition to show how Western and Third World scholars have misrepresented Third World cultures and feminist agendas Drawing attention to the political forces that have spawned shaped and perpetuated these

misrepresentations since colonial times Uma Narayan inspects the underlying problems which culture poses for the respect of difference and cross cultural understanding Questioning the problematic roles assigned to Third World subjects within multiculturalism Narayan examines ways in which the flow of information across national contexts affects our understanding of issues Dislocating Cultures contributes a philosophical perspective on areas of ongoing interest such as nationalism post colonial studies and the cultural politics of debates over tradition and westernization in Third World contexts *Just Methods* Alison M. Jaggar,2015-11-17 The supplemented edition of this important reader includes a substantive new introduction by the author on the changing nature of feminist methodology It takes into account the implications of a major new study included for this first time in this book on poverty and gender in equality and it includes an article discussing the ways in which this study was conducted using the research methods put forward by the first edition This article begins by explaining why a new and better poverty metric is needed and why developing such a metric requires an alternative methodological approach inspired by feminism Feminist research is a growing tradition of inquiry that aims to produce knowledge not biased by inequitable assumptions about gender and related categories such as class race religion sexuality and nationality *Just Methods* is designed for upper level undergraduate and graduate students in a range of disciplines Rather than being concerned with particular techniques of inquiry the interdisciplinary readings in this book address broad questions of research methodology They are designed to help researchers think critically and constructively about the epistemological and ethical implications of various approaches to research selection and research design evidence gathering techniques and publication of results A key theme running through the readings is the complex interrelationship between social power and inequality on the one hand and the production of knowledge on the other A second and related theme is the inseparability of research projects and methodologies from ethical and political values *The Life of Moḥammad from Original Sources* Sir William Muir,Thomas Hunter Weir,1912 ***The Function of Scripture in Early Jewish and Christian Tradition*** Craig A. numerous insights and useful distinctions so alerts us to and comprehensively documents the ongoing constitutive role of Christian and anti Semitic perceptions of Jewish existence and the interactions between them Whereas much contemporary historiography has become so specialized that historians have surrendered the larger picture David Biale s panoramic perspective reveals the great value and interest of this work Steven E Aschheim author of *Beyond the Border The German Jewish Legacy Abroad* *Trauma and Self* Charles B. Strozier, Michael Flynn, 1996 This remarkable collection of original essays written by prominent scholars recognized for their achievements in a wide range of disciplines defines trauma as a disruption in the fragile process of symbolization or the human capacity to imbue life with meaning by representing the self s immortality The contributors analyze the multiple meanings and deeper significance of trauma whether of shell shocked war veterans or victims of sexual abuse and they discuss its manifestations both subtle and obvious in human behavior and memory Organized as an honorary volume to Robert Jay Lifton who identified trauma as the core psychological issue of the postmodern world this book demonstrates how trauma and other fundamental breaks in human continuity inform psychiatric historical religious literary political cultural and scientific interpretations of the self

collapsed under the political and economic pressures of the 1920s and 30s Howard M Sachar chronicles this visionary and tempestuous era by examining the fortunes of Europe's Jewish minority a group whose precarious status made them particularly sensitive to changes in the social order Writing with characteristic lucidity and verve Sachar spotlights an array of charismatic leaders from Hungarian Communist Bela Kun to Germany's Rosa Luxemburg France's Socialist Prime Minister Leon Blum and Austria's Sigmund Freud whose collective experience foretold significant democratic failures long before the Nazi rise to power In the richness of its human tapestry and the acuity of its social insights Dreamland masterfully expands our understanding of a watershed era in modern history
