Noetic Psychology ,1984 Noetics Ramesh Nathan,2020-01-12 Do you want to better yourself to your highest potential Have you been seeking help on how to control your mind body and soul and use it for your benefit If the answer is YES to any of these two questions then Noetics The Science of Reaching Man s Highest Potential is a must read As we enter the New Age mankind must take the steps toward his next evolutionary stage Evolution of the mind body soul and most importantly the consciousness is crucial at this point in man s existence Man s consciousness must evolve it must change Mankind has been suppressed and taught to live by certain imposed laws and values It has been given ideas to absorb and taught what to think instead of HOW TO THINK It is now time to take a step out of the box and re evaluate these laws and values that do not serve us as individuals or as a society and start living by the laws and values which will propel us and humanity to the next step of evolution Noetics shows you HOW TO THINK We must evolve naturally the way it was intended Noetics The Science of Reaching Man s Highest Potential is the definitive book on what must be done by individuals and the world at large so that we can take the next step Illuminism is the science of knowing The explanation of the human body the psychology of the soul and the power of the spirit Illuminism shines a light on these concepts which up until now have been shrouded in darkness Illuminism is the religion of the new age and is based on the science of Noetics It is the way out of the cycle and into the light Realize your highest potential in life and become what you want Illuminism and Noetics is the way It can be a religious doctrine as it does serve as the doctrine for the Church of Illuminism but it ALSO is a self help book teaching how to master yourself and use your mental power to achieve what you want in life Noetics The Science of Reaching Man s Highest Potential is the ultimate guide for the self improvement Illuminism is based on concrete knowledge and science Learning how to think is one of the most fundamentally important things that we must learn to do Man is literally one who thinks so we must now learn how and reach the apex of using these mental faculties within us Illuminism and the proper teachings of esoteric sciences has a special significance to humanity Noetics The Science of Reaching Man s Highest Potential is the key to transmuting the world s poor modern educational systems and mental sciences with the real truth and substance of the science of the soul and esoteric psychology This transmutation can lead mankind out of the darkness and into the light **The Leap** Steve Taylor,2017-02-14 What does it mean to be enlightened or spiritually awakened In The Leap Steve Taylor shows that this state is much more common than is generally believed He shows that ordinary people from all walks of life can and do regularly wake up to a more intense reality even if they know nothing about spiritual practices and paths Wakefulness is a more expansive and harmonious state of being that can be cultivated or that can arise accidentally It may also be a process we are undergoing collectively Drawing on his years of research as a psychologist and on his own experiences Taylor provides what is perhaps the clearest psychological study of the state of wakefulness ever published Above all he reminds us that it is our most natural state accessible to us all anytime anyplace The Origins of

Self-Consciousness in The Secret Doctrine H. P. Blavatsky, 2009 Any attempt to explain the mysterious connections between consciousness and matter and self consciousness in particular necessarily involves much complexity Because all levels of relative reality are present here and now the human being embodies the whole hierarchy of the cosmos a microcosm of the macrocosm to use an insightful Renaissance expression Besides the physical human body there is the dynamic structural plan of that body called the astral body the desire nature the life force that permeates all living creatures consciousness involved in sense perception and practical operations consciousness capable of universal thought and awareness and pure consciousness manifest in pristine intuition Above these six principles of human nature broods the luminous spirit called the Atman Many people are seldom aware of anything more in themselves than the first five of these principles although many also have intuitive glimpses of universal understanding often as transcendent experiences which cannot be sustained Because understanding cannot be separated from experience and experience cannot be divorced from the way we live think feel and have our being various spiritual traditions have offered practices to nurture these inner awakenings to our higher natures and to a greater awareness of spiritual reality Theosophy connects together how we live our lives what we think and how we focus our attention the bold exploration of our inner natures how we react to what comes to us karma and how we can build depth of awareness across lifetimes with Enlightenment Theosophy therefore connects ethics and action including both physical action in the world and the action of our own thoughts Where we are ignorant of all the dimensions of our circumstances and short of Enlightenment we are all ignorant motive for thought and action is fundamental for altering one's karmic trajectory and future incarnations The selections from The Secret Doctrine in this book are gathered with a focus on the consciousness exhibited in Nature its origin and destiny and on human self consciousness in particular This book therefore explores one vital current in the Ocean of Wisdom that is Theosophy A thoughtful and persistent reading of these texts will radically transform one's understanding of the unity of self consciousness and the world around us and of one's place in the greater scheme of things The Psychology of the Esoteric Osho, 1978
